TO PROPERTY OWNERS AND PAINTERS.

As a business transaction would you be willing to pay one dollar for an article you could purchase for ninety cents? We are the agents for Lancaster and vicinity for

Wadsworth, Martinez & Longman's Pure Prepared Paints.

And we claim that they are the best and cheapest paints in America. And we don't make this assertion and leave it unsupported. Paint one-half of any surface or one-half of any building with this paint and the other half with strictly pure White Lead and Linseed Oil, or any other mixed paints in this country, and if the part painted with this paint does not cost ten per cent. less than for paint used, we will make no charge for our paint. And further, any building that has been painted with this paint that is not satisfactory to the owner, and not remaining so for a proper term of years, we will repaint at our own expense with White Lead and Linseed Oil or any other paint he may select. As many of the prepared paints are adulterated with benzine and water we make this liberal offer. We will pay one thousand dollars for any benzine or water found in any original package of WADSWORTH, MARTINEZ & LONGMAN'S PURE PREPARED PAINTS.

A Word About Straw Hats.

The Straw Hats that we now have on hand we don't intend to carry over, therefore we are selling them very low. We are determined to get rid of them one way or the other. We might possibly have room to store them away, but we prefer offering a new and fresh stock every season, thereby giving our customers the latest styles. We believe we are the only house that is doing this. We have a few of Taylor's Mackinaws left. Remember they must all go.

The members of the Lancaster Mænnerchor will receive our thanks if they will drop in while passing our store and leave the size for their hats to be worn during the Saengerfest in August.

MEDICAL.

CUTICURA

SALT RHEUM.

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM

I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin is perfectly smooth and I consider myself entirely cured. Yours truly,
AGAWAM, Mass. B. WILSON LORD.

SALT RHEUM.

CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case of Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.
NEWARK, Ohio. J. W. ADAMS.

SALT RHEUM.

I have tried everything I had heard of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES.
DECATUR Mich. MRS. S. E. WHIPPLE.

SALT RHEUM.

No system of remedies ever compounded so thoroughly eradicate the diseases for which the are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel safe in warranting satisfaction if directions are followed. *Medicines that infallibly cure Salt Rheum, ex* CUTICURA REMEDIES *do, will cure any kind of skin diseases.*

BENSON'S CAPCINE POROUS PLASTERS

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things which they don't Understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are born without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or utensils in hand, up stairs down stairs and out-of-doors, doing that woman's work, which "is never done." Losses of loved wives and fair girls—losses whose suddenness and unexpectedness astonish those wooden-pated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That backache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart, or the lungs? End it at once by the application of BENSON'S CAPCINE POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary backache, give new strength to the body and hope to the heart. No other plaster will do this. The Benson's Plaster, however, is not made to sell—but to heal. It is a remedy which never yet broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word CAPCINE cut in the middle.

GREEK.

THE ADAMSES' STUMBLING BLOCK

But Not To All Men Foolishness—Some Fundamental Reasons For the Study of It

N. Y. World.

Inasmuch as the number of people who know Greek is very small, while the number of those who are ignorant of it is very great, it is not to be wondered at the recent counterblast of the Adams family against the study of the Greek language has been widely approved. But it will hardly do to consider ignorance of any subject as a qualification for sound criticism on that subject, and the grand and wondrous tongue which for more than two thousand years has stood forth as the perfection of intellectual achievement will probably survive the new objection to it that none of the Adams family had been able to master it. If the world is put to it and is compelled to choose between the wisdom of the Greeks and the wisdom of the Adamses, we are very certain that the Greek language and Greek literature will still be a living influence in ages when the Adamses will be forgotten.

Merely as an intellectual exercise the study of Greek stand highest and chiefest in the scheme of mental training. The range of mathematical training is limited and its influence is limiting; the study of the natural sciences widens and strengthens the mind, but it leaves out culture. Metaphysics and logic and all philosophy of the mind or of the morals cannot be mastered by one who is ignorant of Greek. It is the key to poetry and to art, which are rightly understood only by those who rightly understand the Greek spirit and temper, and in the intellectual life there is no achievement and no perfection which is not so interwoven with Greek influences and teaching as to vindicate for the language of Greece a higher place than has ever been claimed for it in the customary schemes of classical study.

Let us not be misunderstood as undervaluing the practical demands of the age, with which Greek has little or nothing to do. We recognize that the primal duty of every citizen is to provide for the material wants of his nature. But if success in life means mere material success—success—dollars and cents—then, if experience goes for anything, the best education is no education at all. Not only is the study of Greek a loss of time, but all study is loss and waste. Our colleges are luxuries and our sons are wronged when we do not put them on their own resources at ten years of age to work their way to a fortune first and to education afterwards.

But if education has any meaning and any value, if the systematic training of the mind is worth considering, if it is worth more in itself and in its consequences than the random picking up of information here and there as we go on, then the study of Greek is so far removed above the reach of disparagement that it needs no apologist. Its structure is the most perfect, its capacity the greatest, its resources the most ample, its beauty the most admirable of all languages, and as the human race in all its history has never produced another so perfect language there is no reason to expect that it will ever do it in the future.

Even in our daily lives the best and highest influences still come from the old Greek culture and development. Philosophy has never gone beyond the Socratic level; poetry still calls Homer master; in every branch of literature the best models are still Greek models; there has been no art since Greek art died, save the Gothic architecture and the renascence in painting. We cannot escape from the influence of the Greeks if we would.

The stars in the heavens still bear the names given them from Grecian mythology; the legends and history of Greece are part of the common stock of the world's phrases, and the unlettered citizen who reads in the daily paper of the cup of Tantalus or of the sword of Damocles does not write to the editor to know what he means. The multifold millionaire does not name his yacht Wabash or the Wamsutta, but recalls the sweet story of the snowy footed Arcadian, Atalanta. Even the politican who would trace back the current of human freedom to its sources does not stop with Thomas Jefferson or with Brutus; he must go back to Solon and Lycurgus, to Harmodius and Aristogiton.

And we are asked to believe that the language which holds and guards this wealth has no value in itself! The proposition is inherently absurd. It involves a contradiction in terms: it denies what it asserts. As long as the instincts of humanity lead upwards and the need of a higher life of the mind is recognized, the language and literature of Greece will have the value of standard gold, and the regret will be, not that time is lost in their study, but that the hard conditions of life unfortunately permit so few to become the masters of the treasure.

MARRIED IN HASTE.

A Secret Wedding, in Which a Young Lieutenant Figures.

Trenton Times.

Just as the 8:10 express train from Washington to New York was ready to leave that city on Saturday morning last a gentleman and his wife, accompanied by a daughter of 22 and a niece of 16, entered the parlor car. They were all considerably agitated and many tears were shed. The parents left the girls in charge of the conductor. They were destined for Flushing, L. I. The young lady of twenty-two was being sent away from home in order to break off an engagement with an army lieutenant who is distasteful to the parents. The girl was determined to marry him. Just after the train started a handsome young man appeared on the scene. He had been hiding in the baggage car. He was the lieutenant lover. The lovers were soon laughing together. Despite the parents' caution love had broken all the locks. At sunrise that morning the young lady had stolen from the house, met her lover, been married and then returned unobserved to her room. The lieutenant left the train at Baltimore. He has just been ordered to Fort Leavenworth, Kansas, on duty. As soon as he gets everything in shape he is coming back to claim his bride. She talked with the conductor and asked his advice. He advised her to write to her parents when she reached Flushing and tell them what she had done. She refused to give her name or the name of her husband. She said if her parents made a fuss she would leave anyway, as she was of age and her husband is 29. Between Trenton and Jersey City the young bride attracted attention by walking up and down the aisle. She was evidently very much excited.

Baseball Yesterday.

At Baltimore: Baltimore, 9; Authletic, 13; Buffalo: Philadelphia, 6; Buffalo, 21; Pittsburgh: Allegheny, 7; Metropolitan, 6, (fourteen innings were played); Chicago: Chicago, 4; Boston, 0; Detroit: Providence, 4; Detroit, 2; Cleveland: New York, 4; Cleveland, 2; St. Louis: Cincinnati, 4; St. Louis, 5; Louisville: Columbus, 4; Eclipse, 5 (eleven innings).

THE STATE FAIR.

Arrangements for it in Philadelphia.

Arrangements have been completed for holding the annual state agricultural fair in Philadelphia in October next, and annually thereafter for ten years. For the erection of permanent buildings the society has now $50,000 at its disposal. Work on the structures will be commenced in a few days. Already plans have been prepared providing for a main building 250 feet long by 150 wide, and two adjuncts each 200 by 50 feet. These buildings will probably be finished within two months. In addition there will be 200 stalls for cattle, 200 stalls for horses and 300 stalls for sheep and swine.

The grounds which have been leased comprise the land belonging to William Weightman, running from Broad street to Lamb Tavern road, south of the connecting railroad and west of the Germantown and Norristown branch of the Philadelphia and Reading road. The inclosure comprises about thirty acres.

Within the inclosure a half mile racing track will be constructed and trials of speed will hereafter be a part of the attractions at the state fair. Although the schedule has not been arranged, the society proposes to offer $40,000 in premiums. One of the most important buildings to be erected is a public reception house, large enough to accommodate a great number of persons. It will be arranged so that cafes and other places of refreshment will be included within its walls. The society has no doubt of the success of its new departure and proposes to give the largest and most complete agricultural exhibition ever held in Pennsylvania.

STRANGE CASE.

A Boy Worth $50,000 Sent to the House of Refuge.

Dennison Smith, the uncle and guardian of Lionel R. Berrymore, 16 years old, of No. 2,119 Brandywine street, Philadelphia, has had the lad committed to the house of refuge upon a charge of vicious temper and unmanageable spirit. Young Berrymore is a student at the Chester military academy, and is heir to $50,000, in charge of the Fidelity Trust company. His parents have been dead for several years. The boy is very popular in the neighborhood where he lives and the commitment created great indignation. Many of the neighbors talked about employing counsel to get out a writ of habeas corpus, but Magistrate Smith, who committed the lad, said that the commitment would come up before one of the judges for review, and then young Berrymore would be represented by Aaron K. Thompson, counsel for the estate.

Dangers of the Deep.

A telegram from Providence says the steamer Lottie E. Merrill, reported lost off the Georges banks, is now owned in London, and was manned by an English crew.—The brigantine Isabella, from Liverpool for Charlottetown, with a general cargo, stranded on Basque island, Nova Scotia, on Monday afternoon. It is thought the vessel will be a total wreck, but that part of the cargo may be saved in a damaged condition.—The schooner David S. Siner, of Philadelphia, with a cargo of ice, went ashore on the bar at Chatham, Massachusetts, yesterday morning in a thick fog. Her captain contracted with wreckers to get her off.—The fish commission steamer, Fishbank, went ashore near Fortress Monroe last Saturday and is still aground. Assistance was sent to her yesterday from Norfolk.—The steamer Plymouth Rock, while on her way from New York to Long Branch, yesterday afternoon, collided with the steamer Kill Von Kull. The latter vessel suffered little damage, but the Plymouth Rock lost ten feet of planking from her side. She kept on her way, and the panic among her passengers was soon allayed.

The Denver Exposition.

The second annual exhibition of the National Mining and Industrial exposition was opened in Denver, Colorado Monday. The city was thronged with visitors and business was generally suspended. There was a procession of trades and industries, and a national salute of thirty-seven guns was fired by the Chaffee light artillery. At the exposition building the following exercises were had: Prayer by Bishop Simpson, of Philadelphia. Address of welcome in behalf of Colorado, by Gov. Grant; on behalf of the city by Mayor Routt. Oration by Hon. Warner Miller, of New York. Benediction by Rev. C. A. Marshall. The order for starting the 250 horse power Corliss engine was given, and the exposition of 1883 was declared open by Hon. W. A. H. Lovell, president of the association.

Child Labor in New Jersey.

Child Labor Inspector Fell spent Tuesday inspecting the potteries and brick yards in Trenton and last night he left for Hudson county. He found children employed in a few of the potteries and in brick yards, but in others there were none, the employers having dispensed with the services of the children about the 1st of July. He found a general disposition among manufacturers to comply with the law, especially where the owner of a workshop or factory exercised personal supervision over it. He found the children, however, indisposed to quit work.

A Heavy Mortgage.

At McConnellsburg the Susquehanna and Southwest railway company have filed in the recorder's office of the county a mortgage for $4,050,000, in favor of the Central trust company, of New York, for the equipment and construction of a railway from Sunbury to Hancock, Maryland, a distance of about one hundred and thirty-five miles. The mortgage has now been entered in Northumberland, Snyder, Juniata, Huntingdon and Fulton counties, the counties through which the proposed road will pass in this state.

What a Cow Did.

A freight train on the Reading railroad run over a cow about a mile from Shamokin Tuesday afternoon and was badly wrecked, twelve cars being thrown from the track. William Thomas, of Shamokin, was killed, and Thomas Hoffman, a brakeman was seriously injured. Thomas, who was a traveling salesman, it is said was warned by the train hands not to ride on the train. He leaves a wife and five children.

Rev. George H. Thayer, an old citizen of this vicinity known to every one as a most influential citizen and christian minister of the M. E. church, just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." GOOD NEWS FROM TEXAS.

Mr. THOMAS A. HOWARD, of Honey Grove, Bannin County, Texas, under date of April 5, 1883, writes as follows:—

"I have been suffering during several years from severe illness, and a general breaking down of my physical system, and have tried the treatment and prescriptions of many doctors far and near, and travelled to the Hot Springs and other mineral springs famous for their remedial qualities, drinking the waters and bathing systematically in their healing depths, but all to no avail, as I steadily failed in health; and although informed by my physicians that ailments and weaknesses were the result of kidney disease of a dangerous character, they could give me nothing to cure me. During the past two years my sufferings at times were dreadful, and I had the most indescribable pains in the regions about the kidneys, the paroxysms of which were so severe as to render it impossible for me to sleep. While in this deplorable and discouraged condition I was persuaded to try Hunt's Remedy, and after using less than half a bottle my great sufferings and paroxysms of pain were entirely relieved, and I could sleep better and longer than I had in two years before, and although I am now on my third bottle only my improvement is very remarkable, and I regret that I did not know of the wonderful curative powers of Hunt's Remedy before, as it would have saved me years of suffering. I heartily recommend it to all afflicted with any kidney disease or disease of the urinary organs."

"HIT MY CASE EXACTLY."

Please allow me to speak in the highest terms of "Hunt's Remedy," for it hit my case exactly. I had kidney and urinary trouble pretty bad. I was recommended Hunt's Remedy. I took one teaspoonful as directed. I felt a decided change at the first dose. I took two bottles, and have felt like a new man ever since. Please receive the sincere thanks of myself for the benefits which I sought vainly for and found only in Hunt's Remedy.

I will cheerfully give this same opinion of Hunt's Remedy to any one who wishes it, by addressing ROBERT D. ARCHER,

A Startling Discovery.

Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die, is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery; resulting in hundreds of our best Physicians using it in their practice. AYER'S SARSAPARILLA.

Words Fail.

"Words fail to express my gratitude," says Mr. SELBY CARTER, of Nashville, Tenn., "for the benefits derived from

Ayer's Sarsaparilla.

Having been afflicted all my life with Scrofula, my system seemed saturated with it. It came out in Blotches, Ulcers, and Mattery Sores, all over my body." Mr. Carter states that he was entirely cured by the use of AYER'S SARSAPARILLA, and since discontinuing its use, eight months ago, he has had no return of the scrofulous symptoms.

All baneful infections of the blood are promptly removed by this unequalled alterative.

Nerve Conqueror.

It quiets and composes the patient—not by the introduction of opiates and drastic catharties, but by the restoration of activity to the stomach and nervous system, whereby the brain is relieved of morbid fancies, which are created by the causes above referred to.

To clergymen, Lawyers, Literary Men, Merchants, Bankers, Ladies, and all those whose sedentary employment causes nervous prostration, irregularities of the blood, stomach, bowels or kidneys, or who require a nerve tonic, appetizer or stimulant, SAMARITAN NERVINE is invaluable. Thousands proclaim it the most wonderful invigorant that ever sustained the sinking system. $1.00. Sold by all Druggists. The DR. S. A. RICHMOND MED. CO., Proprietors, St. Joseph, Mo.

CLOTHING.

MYERS & RATHFON.

ALL SORTS.

Here there's ALL SORTS OF CLOTHING—about everything that one can well think of, necessary to keep MEN, BOYS and CHILDREN comfortable.

If there is anything in our line that you think of purchasing, we should be pleased to have you call and look over the stock that is here. There's more than a bit of wisdom in one keeping posted as to prices. We believe that our figures are down to the lowest notch, and invite comparison with those quoted to you elsewhere for like quality of goods. The saving of a dollar or two is a matter of quite as much interest to you as the making thereof is to ourselves.

Drop in to see us. Trade mutually satisfactory generally results from the calling.

The HIGHER GRADES of OUR CLOTHING are Models of the Tailor's Art. The LOWER are Strong, Honest, Neat and Cheap. Between the extremes we have variety enough to try your patience.

☞ NO DIFFERENCE between values of TRADE, BLAND, GOLD or GREENBACK DOLLARS here.
