

SECOND EDITION.

THURSDAY EVENING, JULY 19, 1893.

TELEGRAPH STRIKE.

WESTERN UNION OPERATORS QUIT WORK.

Their Demands Being Refused They Leave the Pickets—A Statement of Their Case.

The anticipated strike of the telegraph operators throughout the country took place at 12 o'clock to-day. At that hour they quit their tickers, to the number, it is reported, of from 10,000 to 15,000 in the entire country. In this city the offices reported that their information was that no operators were on duty in the large cities; from New York to Robtstown the operators were on the sidewalk and no messages could be received, consequently none would be taken. The Western Union operators declined to undertake any business as they said they could not forward it. At the American Rapid, Mr. Reilly, the superintendent in charge here, said he had closed under orders, as the men on his line sympathized with the strikers and would stand out with them. Business men and financial operators everywhere are reported to be much embarrassed at the interruption to their business; and the stock markets are generally weak in consequence. The transmission of news and the business of the associated press are, not greatly impaired.

THE SITUATION TO-DAY.

Where the Operators Have Struck—Some Offices Closed—President Garrett Goes to Atlantic City.

ATLANTIC CITY, N. J., July 19.—Mr. Robert Garrett left here by a special car at 7 o'clock this morning. He had no conference with the committee of telegraph operators. The operators who were to have arrived here last night having missed the connection of trains, Mr. Garrett is of the opinion that he would meet them in New York.

PHILADELPHIA, July 19.—The telegraph operators at Philadelphia, New York, Baltimore and Washington went out on a strike at twelve o'clock—other points not yet reported.

The Office Open in Philadelphia.

LATER.—The telegraph operators employed by the Western Union company went out on a strike at 12 o'clock to-day. The office was not entirely depleted, and a small force, which has been somewhat increased by a call upon some of the members of the night force, is now at work. Superintendent Zenbin stated that the office is now able to transact the business fairly well "if there is a force of proportionate size at other points."

The Situation at Washington.

WASHINGTON, D. C., July 19.—At 12:15 p. m. today the telegraph operators of the Washington office had stopped work. Twelve of the day men were yet in the office, but Manager Whitney was not sure that all of the twelve would remain, most of them left in a body, leaving only six, who are "upon their feet apparently canvassing the situation." Nearly all the members of the night force of the office are congregated on the sidewalk in front of or near the office. The strikers did not leave in a body.

The Strike in Baltimore.

BALTIMORE, Md., July 19.—The operators in the telegraph offices in this city struck a little after 12 to-day in the main office of the Western Union. The operators in the other offices, who are mostly men of whom are officers in the room. In the main office of the Baltimore & Ohio company thirty old left, only one remaining. A youth, from the American Rapid line left, leaving a few female operators.

New York, July 19.—At precisely 12 o'clock several hundred operators in the Western Union telegraph room laid down their utensils and started for the hall. In the operating room were stationed several policemen, and these, together with the strikers, were present, asked the strikers to move out as rapidly as possible and to leave the building. As soon as the advance guard of the strikers reached the basement the hundreds of curious people who were there, and in the street about the building, sent up a shout, thus spreading the news. In five minutes the main bulletin boards posted the facts and the long uncomplained and much talked of strike had begun and was fully known at all news centers. That it had been largely discounted in the gossip of the past week did not prevent it from being received as a sensation at the general office of the company. There was an unusual activity and bustle, but no excitement, the officials being fully prepared for the strike and informed of its extent. The officers expressing the opinion that the strike would extend to all the principal points.

The Associated Press Wins All Right.

There was no disturbance on the associated press wires which tap Washington, Baltimore and Philadelphia with their tributary territory, these wires being managed by associated press telegraphers who have made no protest and have no grievance. The general sentiment of officers and operators was that the news of the country would be taken care of by the operators who have the kindest feeling toward the press.

The Operators Denounce the Committee.

The executive committee of the Brotherhood of Telegraphers which issued to-day, published an official statement which justifies their petition for increased pay, and assails the telegraph companies for reducing their salaries and refusing to raise them again.

Chicago Strikers Out.

Operators at Cincinnati and Chicago also went on a strike at noon.

A General Strike at Boston.

BOSTON, July 19.—All the operators here but two have struck. The women operators have also gone out, but four out of twenty five being left.

THE STRIKERS' DEMANDS.

What the Committee of Operators Asked For. Following is a copy of the memorial presented to the Western Union telegraph company, the demands of which were not complied with, which led to the strike: CENTRAL OFFICE, BROTHERHOOD OF TELEGRAPHERS, OF THE UNITED STATES AND CANADA. Tho. T. Baker, esq., General Manager and Acting President of the Western Union Telegraph Company, New York City. Sir:—I am designated, the executive board of the Brotherhood of Telegraphers of the United States and Canada, acting in accordance with instructions from that body, respectfully petition your favorable consideration of the following memorial, embodying the desires of all classes of employees in the service of the Western Union telegraph company. SECTION 1. Believing that man's physical and mental welfare requires that at least one day in seven be accorded him for rest and recreation, we request the total abolition of Sunday work as an compulsory duty, unless compensated as extra service. Sec. 2. That eight hours shall constitute a day's work, and seven hours a night's work.

amount to John C. Ballitt and Richard C. Dale, Philadelphia attorneys for the bank, but Mr. Hughes repudiated it and warned the court officials against entering it. A rule to show cause why it should not be entered was taken by the bank's attorney, but was not entered. Since then the foreclosure has been determined on, and the hearing will take place before Justice Morrison in Philadelphia on August 6th. Meanwhile the innocent property holders are in fear.

MR. DORSEY'S STATEMENTS UNFOLDED.

Testimony of the Hon. Thomas J. Brady, Brooklyn Eagle. "No part of the statement published this morning in the Sun emanated from me," said the general manager of the Western Union telegraph company, when he was asked to enter into the business of raising money from the Star Route men for the purpose of carrying Indiana. I had no faith in General Garfield, because he had already fooled me once. I was doing my best to make up a road from Boston to Chicago for the benefit of the people, the far West, and not for the benefit of myself or Dorsey, or anybody else. The raising of the \$40,000 campaign money could not have been the result of any conspiracy between Dorsey and myself, for at that time we were not friendly to each other. He wanted to have De Witt Clinton Wheeler put into my place, but he finally subsided, and I raised the money, and we spent it. I promised to take care of Delaware and the adjoining counties in Indiana, because Delaware is my native place, and I wanted to make Delaware the banner county of the state. We had really as much of a fight there in November as in October, because it was necessary to follow up the victory. Where a two dollar bill sufficed in the former month a five dollar note had to be expended in October, and as a consequence they were crisp and new, and seemed like a shower from heaven to our people."

How It Was Received.

When this was presented in person the Western Union telegraph company gave no reply. The Baltimore & Ohio and the American Rapid telegraph company reported that they had the demands under consideration. W. C. Haunston, president of the Western Union company, Vice President May, of the Rapid company, said that the Western Union had such a preponderance of telegraphic business that all the other companies were obliged to follow its lead. If it granted the demands of the Brotherhood of Telegraphers, it would be compelled to do likewise. Superintendent Phillips, of the United Press association, said that his operators would not strike, because he had promised them the advance if the Western Union company consented. He thought the demand for a press advance higher pay than the other men are striking for, so that no trouble was anticipated there.

Cyrus W. Field, a director, said that the company desired to pay its employees pro rata.

SPECIAL NOTICES.

Hopkins Epilepsy Cured. "The doctors pronounced my case by one of the most eminent epileptic correspondents of W. C. Browning, Attorney-at-Law, Jackson, Ark., and declared that he was my only cure. Simmons' Nervine has cured me." Get at Druggists, \$1.50.

The Removal of the Stamp Act a Benefit to the People.

In anticipation of the repeal of the stamp act, the size of the bottles containing the celebrated Simmons' Liver Regulator have been enlarged, and the quantity of the medicine will be greater than heretofore. Ask your druggist for, and be sure you get the big bottle of SIMMONS' LIVER REGULATOR.

Becher's Bad Men.

For two months in the city Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is so he says, something terrible and tremendous. A man with hay fever isn't accounted for as a rule. He is merely a wild beast—frantic with snuffing, sneezing and heaving. His eyes are red and so is his nose. Every nerve in his system is in a state of tension. He is a fountain of tears. He lives only to fly from seaside to mountain-top in search of relief.

Nothing Done in Either Branch To-day.

HARRISBURG, July 19.—The legislative conference committee reported to the Senate to-day that they could not agree. An effort was made to appoint another committee, but that failed, and then a recess was taken till to-morrow evening at 8 o'clock. The Senate then adjourned until Monday evening.

There is little prospect of an agreement on the legislation for which the extra session was called.

WEATHER INDICATIONS.

WASHINGTON, July 19.—For the Middle Atlantic states, generally fair weather, northerly winds rising, followed by falling barometer, stationary or slowly rising temperature.

A BIG MORTGAGE.

Part of Potsville Under Foreclosure. The whole population of the North East ward of Potsville is agitated over the discovery, through the appearance of a deputy United States marshal with notices of an intended sale of their properties to satisfy a mortgage, of the existence of which they had no knowledge. Forty years ago the Schuykill bank of Philadelphia had branches in the county, which became involved with Charles Lawton, then the owner of considerable real estate. The bank of Kentucky, one of the principal creditors of the Schuykill bank, in the North East ward, then known as Lawton's addition to Potsville. The bank of Kentucky held this for some years, but in 1853 sold it to Francis W. Hughes, who gave a mortgage for part of the purchase money. Hughes out up this tract, which consisted of 78 acres, and sold it off in town lots. Since then it has been built up, more than five hundred buildings having been erected. The greater portion of the tract is now one of the most thickly settled parts of the town. The residences are mostly owned by working people of the better class, though a number of very handsome buildings and several industrial works are included. The mortgages, it is said, were never satisfied. In fact the bank of Kentucky claims that for some \$17,000 are still due on them, and for this sum the foreclosure is about to be made. Mr. Hughes is a man of some means, and claims that he has been allowed to him. An attorney acting for him confessed judgment some weeks ago for the

NEW YORK, July 19.—The Bull and heavy.

New York, July 19.—The Bull and heavy. The market for gold is quiet, but the price is firm. The price of gold is 150 1/2. The price of silver is 12 1/2. The price of copper is 15 1/2. The price of tin is 110. The price of lead is 10 1/2. The price of zinc is 11 1/2. The price of iron is 12 1/2. The price of steel is 13 1/2. The price of coal is 14 1/2. The price of oil is 15 1/2.
