gencer keporter. An alarm of fire was sounded a few minutes before noon yesterday, but it proved to be a false one. In rounding the corner of 3d and Perry streets the Shawnee engine was run into John Schlegelmilch's house, breaking the tongue of the engine and causing some damage to the house. The accident was caused by the inability of the men at the tongue of the engine to guide the latter, on account of the speed at which it was run down the street.

A Lucky Expressman. Harry Rodenbauser, the P. R. R. exessman, laid a pocket book containing \$1,400 on the counter of S. H. Miller's tin ware store, yesterday afternoon, while transacting business, and walked off without it. After going some distance down Locust street he discovered his loss and immediately returned to look after the money. The pocket book was found where he had laid it, with its conteuts undisturbed.

A Baby's Temporary Neglect. Mrs. Stoner, residing near the gas works, left her baby alone in the house yesterday while she went to a neighbor's for a chat. Upon her return the infant was nowhere to be found. A search finally resulted in its recovery. Its cries for its mother's company had been heard by another woman, who had taken the child a short distance from the house to care for it until the mother returned. The latter will probably not leave her baby alone soon again. Police Picking.

The Tow Hillers were doing the law again yesterday. Amos Slater, or Randall. as he is better known, was before 'Squire Young, charged by Henry Clay with assault and battery, alleged to have been committed on Saturday night. Slater was discharged and the costs of suit shouldered upon Clay. The latter was then tried for assaulting J. W. Cooper a short time since. This case was also discharged. Mrs. Sophia Webster, a very demonstrative colored witness, was escorted outside of the police court by a policeman, for being noisy, by order of the justice. Won a Gun.

Mr. Paxton Ottey is the fortunate contestant for the gun lately voted off by the Knights of the Mystic Chain lodge of this place. The weapon is a fine double barrelled gup, of the Remington make, and valued at \$150. Personal.

The Misses Bailey, of Chester county, are visiting Mrs. Albert Entriken. Miss Lizzie Harnish, of Harrisburg, 1ste the guest of Miss Ella Brown, returned

home last evening. Mrs. R. F. Rankin and son, of Delta, Pa., are viriting the former's parents, Mr. and Mrs. F. S. Bletz, on Locust street.

The first services will be conducted by the latter this evening.

No new cottages have been crected during the year, but the old ones have been touched up with paint and present a fine appearance. The fences around the ground and out buildings have been painted and whitewashed and look well There are now 40 cottages and 60 tents (n the grounds. Persons, who have attended the camp for many years, say that this one promises to be the largest ever held at Landisville. Eminent divines from differeut parts of the country will preach during

which leaves Lancaster at 9:45 a. m., will stop daily at the camp grounds.

On Sunday next there will be a very cheap excursion run to the camp from this city via the Reading railroad. A BOY DROWNED.

The gody Recovered and an Inquest Held. About 4 p. m. yesterday, Roy Halde man, son of Eliott Haldeman, aged 10, of Collins' station, on the Pennsylvania railroad, was drowned in the Susquehanna river near his father's residence. He and a number of other boys had been in bath ing at the "Big Landing," and he got out too far in the stream, and not being able to swim was drowned in full view of his companions, who were unable to save him. The body was found about 8 o'clock in the evening and removed to the resi dence of his parents. The deputy coroner was notified and empanelled a jury and held an inquest. A verdict in accordance with the above facts was rendered.

Fire Company No. 4.

Fire company No. 4, the old "Washing ton," have made a number of improve monts about their premises. The old wooden feed troughs have been removed and heavy iron troughs substituted. The old fashioned hay racks that were always getting out of order have been replaced by swinging racks, which the horses can not tear down. An automatic gas light ing apparatus has been put up, and a similar apparatus for opening the stable doors is being made. The apparatus is very simple and is worked by the hammer of the electric bell.

For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay tever. And it is so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast-trantic with snuffling, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a fountain of tears. He lives only to fly from easide to mountain-top in search of relief. And yet, whether we call this form of Catarrh hay fever, rose-fever, hay-cold or rosecold, Ely's Cream Balm will cure it. This remedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. You

The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the sum-mer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. The Alleged Outrage at Monterey. The accounts of the robbery of the American consulate in Monterey, Mexico, as published show great exaggeration. Nos. 32, 34, 36 & 38 East King St.,

It was but an ordinary attempt at robbery and no more worthy of comment than if the attempt had been made on the house of a private citizen. The robber probably knew of the absence of the con-

N. Y. Sun. It is said that Mr. Fink, the trunk line commissioner, has determined to advance the rate on Chicago dressed beef from sixty four to seventy seven cents per hundred. This, the dressed beef men complain, is a killing rate, and, if maintained, must maks an end of the business. They probably state only the truth; although very fair reasons are assigned for the

change.
Some of the roads were determined from the beginning that the refrigerator experiment should not be successful. The monporter and the public. This is one of a variety of reasons for the stand which

the railroads have taken. But when the railroads have destroyed this promising competition with the live stock traffic, will they leave the latter in its present condition, or will they furnish facilities that will insure the public wholesome meat, save the extortionate charges of the cattle yards, and preserve the poor beasts from unspeakable torments, which are the principal features of the present barbarous and wasteful sys tem? Improved cars and express time, avoiding the cattle yards and saving shrinkage, sickness and death, are what the public have a right to demand from the railroads, and nothing but this con-cession will justify the destruction of the dressed beef business in the manner proposed.

In Death Not Divided. A party of young people, including William H. Hosier, aged 23, of Williams burg, N. Y., and Miss Mary Burke, of Greenpoint, started on Sunday night to walk from Smith's hotel, at Maspeth, to Greenpoint. To shorten the distance they walked on the Long Island railroad track. When they reached the Grand street crossing two trains approached from opposite directions. The party scattered, and as the trains came nearer the women screamed and the men appeared to lose their wits. Hosier and Miss Burke were together. All hands managed to get out of the way of the trains but Miss Burke and Horier. They did not realize their danger until it was too late. To es cape the east bound train they stepped on the other track, but were struck by the express train from Patchogue and instantly killed. They were engaged and were soon to have been married. Their remains will be buried together.

Still, those of them who do work are tempted to stimulate, for it's very hard on tne nerves and stomach." " As for example-?"

" As for example, in my own case, I stuck to my desk on this paper until my nerves were like a bunch of telegraph wires after a gale, and my stomach kept about as good time as a two dollar watch. My friends suggested this and the doctors advised that, but one day I 'caught on' to an 'ad,' of PARE-ER's Toxic, and tried it.
