W. U Honsel moved to amend by strik ing out the "in each and every particular;" and he said that if anybody called for his reasons for such a motion he was prepared to give them. He would not be misunderstood as desiring the convention to with hold from the Democratic state adminis tration a frank and full endorse ment of its general course; and for the resolution as he proposed to amend it he was willing and anxious to vote. There might be those who approved of the course of the admin istration as comprehensively as the reso lution expressed it, but he did not believe that any Democratic official, local, state or national, had ever merited such an un and sweeping endorsement from a representative body. It was not fair to the Democrats of the county to ask them to vote for such a resolution and it was not fair to the administration to have it voted down. Because he did not believe that any con vention should go so far and make such a detailed and deep reaching endorsement of each particular act of any public official, he proposed the amendment and would be glad to support the resolution with the words he desired to except stricken out. From Our Regular Correspondent At Company C's last drill very important notices were given by the captain. To morrow evening there will be an extra drill, and also extra drill during the whole of next week. On Monday evening of that week drill will commence at 7 o'clock, but on the others at 8. Inspection will be held on Monday evening, and during all of the extra drills the principal features will be dress parade exercises, guard mounting, and sentry duty. The members are earn estly enjoined to give their attention to these preparations for the approaching encampment.

Furnace Improvements. Among the many improvements now making at the Shawnee furnaces is the placing of a new crucible and bosh in No. 2 furnace, as well as a new set of hot air pipes. These latter, unlike those they re the inside, instead of on the exterior. When the lining is on the outside no pro tection is afforded the iron pipes whatever from the heated air, but in the new mode of lining the pipes will afford all necessary protection. Other extensive improvements are also contemplated, by the superintendent of the furnace, Mr. J. L. Boyer.

The Sun Cholers Mixture Chicago Herald.

Now that it has been ascertained that the cholera which has appeared in Egypt is the genuine Asiatic article from which eastward not be stayed by strict quaran tine regulations, cholera prescriptions are in great demand by correspondents, who write to the editor as if he were a personal friend and physician For more than forty years what is known as "The Sun cholera medicine" has stood the test of experience as the best remedy for looseness of the bowels even yet devised. As was once vouched for by the New York, Joural of Commerce, "no one who has this by him and takes it in time will ever have the cholera." Even when no cholera is anticipated it is an excellent thing for the ordinary summer complaints, colic, diarhœa, dysentery, &c., and we have no hesitation in commending it. Here it is: tincture of opium, tincture of rhubarb, essence of peppermint, and spirits of cam phor. Mix well. Dose fifteen to thirty drops in a wineglass of water, according to age and violence of the attack. Repeat every fifteen or twenty minutes until relief is obtained.

A Till Tapped, Yesterday afternoon between 4 and 5 o'clock the money drawer in Amos Lee's saloou, North Queen street, was robbed of \$8 or \$10. Charles Gable, who had been hanging around the premises for some time rather suspiciously, and who was seen to leave the saloon just before the money was missed, was arrested an hour afterwards and on his person were found \$6 or \$7, although he said he had no money when he was at the saloou. When asked where he got the money he said he got it from Mr. Miles, his employer, but this the latter Gable was locked up a hearing before Alderman Ford ney. Among the stolen money was a torn \$5 greenback, which had been patched by pasting a strip of white paper on the back of it. It might assist in the indentification of the thief if the person who changed this note for him would make

it known to the police or Mr. Lee. Mayor's Court This morning the mayor had three cases

TELEGRAPH STRIKE.

NO MATERIAL CHANGE AS YET. The Strikers Firm and Orderly-The Western Union Sued for the non-Delivery of Messages-A Weak Defence made by the Company.

NEW YORK, July 25 .- A week of the

strike has passed and the peaceable dis-position and orderly conduct of the strikers position and orderly conduct of the strikers has called out universal commendation. They have made many friends among the general public and in business circles. In private conversation they talk very decidedly and positively of their expectations and seem to have no intention of wavering. Their determination is the subject of comment, and even in the executive offices the "greatest surprise is expressed that they should in view of the situation be determined to hold out. It cannot be said that to outward appearances the understanding be ward appearances the understanding be tween the company and its operators on the brotherhood committee is any better than it was a week ago. It is generally conceded that telegraphic business is being done with fair promptness and correctness. Many aggravating delays occur, however, which are not freely explained by the unfavorable condition of the wires for the last three

days. An Interview Faverable to the Companies An interview had to-day with a member of the sub-committee, appointed by the Western Union to hear the grievances the Western Union to hear the grievances of the employes, revealed the fact that only three persons have communicated with them. One of these had been dismissed for cause and another's name was already on the list of promotion. The committee had ascertained that during the past twelve months three thousand employes had had their salaries advanced on merit, and further that there several lists were in the hands of the officers by recommendations of the chiefe of the different departments for advanced salaries for meritorious service. The sub-commit tee did not consider the question of a strike except that incidentally a feeling of satisfaction was expressed in regard to the present position of telegraphic matters.

Beecher's End tiend. For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay lever. And it is so he says, something terrible and tremendous. A man with hay fever isn't accountable for his ac-tions. He is merely a wild beast-frantic with enufling, sucezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a tountain of tears. He lives only to fly front seaside to mountain-top in search of relief. And yet, whether we call tarrh hay fever, rose-fever, hay cold or rosecold, Kly's Cream Balm will cure it. This remedy is simple, pleasant and easy of applica-tion. Placed in the nostrils it penetrates and

soothes the affected parts at once, resident the impaired senses and creates healthy secretions in cases of the longest standing. You cannot run away hay fever, but you can drive it from you by using Ely's Cream Balm. iv:7-2wdcod&w MAKE NO MISTAKE, FOR YOU CAN buy the best 5c.
