THURSDAY EVENING, JULY 26, 1883,

Worse Than None.

Thus far the sympathy and support of the people of the state are entirely with the Democratic position on the apportionment at Harrisburg. The Democrats offered to do the fair thing at the regular session and it was refused; for the failure of apportionment then the Republicans were responsible. The gov ernor then manfully met his duty by calling the extra session. During its progress the Democrats have fortified and strengthened their position, and have thrown upon the opposition all the responsibility of its failure thus far by asking no more and conceding no less than an honest, just and true apportion ment. They are justified before their party in maintaining this demand " until the snow comes," and in exhausting every constitutional and parliamentary process to have it satisfied. In this course they do their simple duty to the state, whose constitution they have sworn to support, to their party and to the governor.

But this does not include in the slightest degree any such misconception of their duty as seems to obtain in some quarters which are supposed to reflect Democratic sentiment. A few people seem to be inoculated with the idea that any conclusion reached on apportionment will be a vindication of the governor and his party. Not so. A bad apportionment, an unfair and unjust one, one like or no better than the existing division of the state, will be a miscarriage that will make the extra session abortive. Such an apportionment could have been had without it.

The agreement of the conference committees upon a judicial apportionment sent it to the Senate, where it was bill seems to have been induced more by a desire to reach an agreement than scheme of congressional apportionment of the sheet will no doubt be well mainto secure a fair and lawful apportion was introduced by John Stewart him. tained. Mr. Freas carries with him into ment. This apportionment has not been self and is intended to give the Repub the subject of partisan dispute, and the difficulties in the way of making it have been local rather than political, though Republicans will not take that they will the Democrats of the House have generally stood up against some special features of it, which that resolute and clear headed lawyer, Mr.J. MacDowell Sharpe, has opposed as unconstitutional and improper. We do not observe that these have been cured by the bill agreed upon by the conference committee. On gen eral principles an increase in the pro posed unduly large number of judges in the state is to be viewed with suspicion ; yet the new apportionment provides for eighty, an increase of six, notwithstanding the additional law judge of Northampton and one of the present judges in Schuylkill are dispensed with. Whether in the calendar. The conscienceless Rethe latter feature is wise, we can hardly judge, in view of the peculiar conditions of Schuylkill county, but it has always been a wonder why Northampton should have two judges, when Lehigh, Bucks and Montgomery, neighboring counties, of about equal or greater population each get along with one.

The most inexcusable district approved by the conference committee is that made up of Wyoming and Sullivan counties, with a population, together, of 23,671; whereas they might easily be distributed among the other judicial districts of that section. Beaver, with only 39,605 population, is made a separate district; Adams, with 32,455 population, instead of being joined with York-two judges being ample for the consolidated | them? district-is joined with Fulton, a county which it does not touch by twenty miles distance. It is difficult to justify these features of the bill, and we entertain grave doubts whether they will be ap proved by the Democratic House, which is already on record so emphatically against some of them.

Our Street Commission.

We desire to mildly suggest that it ought to be the business of some one connected with the city government to see that the streets are kept in good con dition. We presume that it is no one's business at this season of the year; else some sign of the existence of such an official would manifest itself. We know that this is the season of vacations : but we venture to say that a vacation of the office of street commissioner, and an abandonment of the supervision of the street committee for the whole summer, is a somewhat too liberal idea of the proper limits of a holiday on the We call them lively, because they are lively sometimes. They are very lively in the spring, when the frost is just out of the ground and the time for repairing pavements is at hand. Then it is the annual habit of the policemen or somebody to take note of the bad pavements com manded by the street committeesends out notices to all the property own less of a flutter, according to their temperaments, and the bricklayers have a harvest for awhile; but the careless citizens and the economical citizens, who their eyes, through a long and uninter. rupted experience of the vanity of such calmness indeed and do not hasten to the

But such mild rewards cannot be ex

pected to discover the street committee cerning the prince's marriage. Whether and commissioners. They have probably fle1 the town because of the smallpox. They certainly cannot venture out on the streets or they would not fail to see the numerous mounds built up on a great many of them by the plumbers, and the water fiends. They appear everywhere. There never was a time when the streets visitor from the country, hearing of the neighboring houses have been hurriedly and tender-hearted strangers may be daily observed gazing with awe upon a sample mound which bounces those in the vehicles crossing it bouncing gutters so liberally placed by the present astounding street departa very high regard for our street committee and its officers. We do not think they can be matched anywhere. We would like to join a company to send them out for exhibition. It would pay to send them out; and keep them out.

THE Democratic House at Harrisburg passed the Stewart bill yesterday and promptly negatived in committee. This licans seventeen congressmen to eleven for the Democrats. If the harmonized of course never be offered anything better. It was a stretch of generosity and justice to proffer them so much. The Republican line was, however, broken by the vote of Alex. H. Morgan, of Philadelphia, for the bill. Like Sterrett and Lowerv he recognizes the in justice and unreasonableness of his party's demand.

THE language of the constitution with reference to judicial apportionment is that "counties containing a population less than is sufficient to constitute separate districts (40,000) shall be formed into convenient single districts, or, if necessary, may be attached to contiguous districts, as the General Assembly may provide." STEAM yachts are becoming more popular every day with the wealthy classes. In fact it may be said that to own a yacht is quite the proper caper for the modern millionaire. Some lover of statistics has fished out the information that in 1863 there were only 30 British steam yachts of an aggregate tonnage of 3,752, while there are now 466, and the aggregate tonnage is 51,800. As with many other costly toys yacht owners soon tire of their possessions, and are willing after a few tossings ou the briny deep, to dispose of them on extremely moderate terms. It was reported early Wednesday afternoon that a compromise had been effected between the executive committee of the brotherhood of telegraphers and the executive officers of the American Rapid telegraph company, and the strikers were jubilant in proportion to the importance of the news. The report was clinched lay aside his armor and bow before the later on by the following dispatch received by Manager Penock from L. No details of the agreement are supreme effort to handle the great volume of business now being withheld and will utilize both the Morse and the automatic systems to this end, adding largely to its original force from the ranks of the unemployed operators.'

The following dispatch was also received from John Campbell, master workman of the brotherhood, from New York, and was read to the strikers, who will obey it: "Satisfactory arrangements having been made between the Brotherhood of Telegraphers of the United States and Canada and the American Rapid telegraph company, all members working for that company will resume work to-day, July

Work to be Resumed. Manager Pennock was full of life and spirits when found last night at the main American Rapid office, Chestnut and Bank streets. He said :

"We will start business the first thing ern Union men that drop out. Every one of our fifteen branch offices will be opened and at the main office, in addition to our old force, we will have six first class Western Union operators. We will work two sets of duplexes and two automatic machines on New York only, which will equal fourteen wires. Besides, our Western and Southern business will be handled in good shape. We will be prepared to do any quantity of business."

The resumption of the American Rapid will bring back five of their men, who had engaged with the Merchants' and Bankers' company. At the office of the latter corporation it was stated that the vacancies will be filled to day by recruits from the ranks of the brotherhood. Later in the evening a telegram was received the brotherhood and the American Rapid as follows:

"An advance of 10 per cent, on salaries extra pay for all work done over eight hours for day and seven hours for night work, and extra pay for all Sunday work.

The effect of the strike on the business of the exchange was felt yesterday. The difficulty in communicating with Chicago had, in a measure, disappeared, though there were frequent annoying delays. The amount of public business offered was somewhat in access of that of the previous day. The real effect of the strike has made itself manifest indirectly by creating Methodist Episcopal church at Patchogue, far as the brokers are considered, the an indisposition to active speculation. So large operators without exception have their own private wires, and are, of course, protected from delays. Here again, howeyer, there is a complaint of a lack of customers. The latter feel a natural timidness about venturing in speculations in foreign stocks when the methods of tele graphic communication are so uncertain. and all of these causes are joined with the normal duliness incident to the season.

Reavy Losses in Business. Of the exchanges, the oil exchange has suffered the most disastrously. One of the most prominent speculators estimates that the entire amount of business trans acted yesterday did not exceed \$100,000, as opposed to \$600,000 upon ordinary occasions. Communication with nearly every portion of the oil field has been lesperately uncertain, especially as regards Pittsburgh and Oil City. Indeed, he business of the exchange has been practically suspended. The attendance of operators was small yesterday. At the beginning of the strike a half dozen of the biggest dealers became panicky and dashed over to Oil City to attend to their business themselves. They are there yet, among them Henzell, of Henzell & Foster, Davis and Murphy. The latter is now in Titusville, and Foster, his partner, is home again. Late yesterday afternoon a call was issued for a meeting of the members of the oil exchange for to day, to consider the strike and its remedies. Clifton started from the spring to the church, when Cason met in a victory for the Golden P.ow by a him. When within three feet of his victim Cason raised a knife, and saying played. "Sam, you have been talking about me," plunged the knife just above Clifton's two ribs and leaving open the heart, which was exposed to view through an aperture four inches long. After receiving the blow Clifton stepped back, drew a knife, made a step toward his slayer, staggered, and fell dead. Cason coolly stepped to the spring, washed the blood from his hands, returned to where the dead man lay, and, looking at him said, "that's a damned bad gash." Then, turning to the minister and congregation who surrounded him and made no effort at his arrest, he bade them adieu, mounted his horse, and resumed his journey out of the country. The neighborhood was all himself to accuse Mr. Hoadly of having related to him. Cetewayo Killed

The report of the death of Cetewayo is confirmed. Cetewayo was the son of Panda ant of the Fulton cotton mill, this city, and the nephew of Chaka, the Zulu Napoleon, who in 1812, reorganized the Zulu nation. As a boy, Chaka formed the purpose of creating a powerful army and conquering all South Africa. His scheme was successful, and sixty nations became his subjects. In 1828 he was murdered. Panda, the father of Cetswayo, who ruled from 1840 to 1872, was a man of Favorable Reports From Health Officers much administrative ability, who consolidated the Zulu nation and made friends of the Dutch and English. After Panda's death Cetewayo was formally crowned by life. In October, 1876, when the English monstrance against the execution of his

A CIBCUS ON FIRE of Terrer Among the Pante-Strick

In Portsmouth, Va., between four thousand and five thousand men, women and children attended the exhibition of Nathan & Co.'s circus. After the performance had commenced the wind began to blow quite beavily, causing considerable movement of the canvas. The crowd, however, remained quiet, although they watched attentively a large rent which had been made in the canvas by the wind, and which was momentarily growing larger. the canvas being very old.

A horse was brought on for the use of one of the bareback performers and his rider mounted him and attempted to go on with his part of the performance, but the horse seemed to be aware of the impending danger and refused to stay in the ring. It was at this juncture that the wind struck the tent with great violence, tearing the canvas from the centre pole to the side curtain and causing many of the poles to fall. The crowd than became panic stricken and began to rush for the entrance in a wild endeavor to escape.

Soon the cry of "Fire!" was heard above the screams of women and children and the shouts of men, and the panicstricken crowd became perfectly delirious with terror. The oil lamps in the ring menced falling and it extinguished the flames after the tent was about half de stroyed. Women and children were knocked down and run over, fathers and mothers were separated from their children and rau about in every direction, calling on all they met to aid them in finding their lost ones. A few men only proved equal to the occasion, and stood bravely fighting the flames and assisting the women and children out from amoug

To add to the difficulties of escaping all who emerged on the side of the tent were suddenly precipitated into a ditch about tive feet deep, fully grown up with briars. Here the ladies, children and men were piled in inextricable confusion, and the females were almost denuded of clothing. To add to the terror all the fire bells commenced to ring and the steam whistles to signal alarms, throwing the city into great excitement and turning out the whole population. A great many people were badly hurt and had limbs broken, but no one was killed outright.

BASEBALL.

The Games In Lancaster To-Day-Games at To day the Hartville's of Philadelphia,

play a match game of ball with the Ironsides. Yesterday the former defeated the Continentals at Hartville park, in twelve innings, by the score of 11 to 8. The West Philadelphia beat the Five Twenty by 9 to 2. The Delaware club, of New York, were defeated by the August Flower, at Jumbo Park, by a score of 21 to 8. The other games played yesterday were as follows : At New York: Athletic 6, Metropolitan 2; Chicago: Philadelphia 2, Chicago 11; Detroit: Detroit 1, New York 0: Buffalo: Beston 9, Buffalo 0; at Cleveland : Providence, 8 : Cleveland, 0 to be unmistakably unfavorable to the at Columbus, Ohio : Cincinnati, 8; Col defendant on every count of the indictment. umbus, 1; at Brooklyn: Brooklyn, 2; Quicksteps, 1 ; at Reading : Active, 13 Harrisburg, 9; at Baltimore: Baltimore, 13; Allegheay, 9; at Trenton, N. Notes of the Diamond The Harrisburg had their new pitcher at work yesterday, but at the end of three innings he was placed in the field on account of sickness. He is a tremendous battery.

The Pottsville Chronicle complains that the citizens of that town make too much of the Anthracite players who are carried around on their hands and treated at every saloon.

Annis of the Anthracite has been suspended for two weeks for missing a train. "Chic," the Anthracites, "Mascotte, has had his pictures taken and he sells them on the ground.

The Ironsides club, of Lancaster, does not seem so auxious as formerly to discover whether we bave or have not a base ball club in York. Our club might make it interesting for them if they would come over .- York Daily. The Ironsides have all the games they need just now with fine clubs and the York niue will receive their attention in due time if satisfactory terms can be made. The nine will not go to York for half the gate money, as that town does not have the reputation of drawing big crowds and the Lancaster men are at great expense now for players,

PERILOUS CANOEING.

A Former Lancastrian's Daring Feat, A telegram from Moutreal states that Rev. C. E. Woodman, of the New York Knickerbocker canoe club, has arrived there safely after running all the rapids of the St. Lawrence from Cape Vincent down except Lachine Rapids. He came through the Lachine capal. Rev. Father Woodman is a Paulist missionary located in New York and one of the most brilliant orators in the Catholic church. He is well known in this city and has frequently occupied the pulpit of st. Mary's church. His father was for some years superintendand now occupies a similar position in Harrisburg. His brother is a clerk in the Fulton cotton mill.

The daring feat narrated above was one of his methods of recreation during a vacation granted on account of ill health.

THE SMALLPOX.

The condition of the smallpox patients continues to improve, and no new cases are reported in the city. The two children William and Emilie Elsasser, who occu pied a room at No 428 Manor street, and who contracted smallpox, are being re-moved to the hospital where the mother has been nursing one other of her children who was suffering from the disease. The health of the city was never better than at present, the streets and alleys never cleaner, and the death rate never lower. Business of all kinds is rapidly
