The disaster is almost the sole subject of comment in Mount Joy to day and various opinions are expressed as to who is responsible for it. Fairview street or "Cometery road," as it is more generally called, is a much traveled thoroughfare running north and south and crosses the railroad almost at right angles. Hopewell street, running east and west, terminates at the railroad crossing. A person driving along Cemetery road cannot see more than a few rods up or down the railroad until be is within twenty or thirty feet of it, owing to houses being built on each side of the railroad. It is thought that Welsh saw the train approaching, when he was almost on the track, and miscalculating the by the H. D. The fast line this morning was some twenty minutes behind time and running at high speed to gain time. This is shown by the fact that the train, which consisted of cleven cars, provided with air brakes, ran one-third of a mile after it struck the wagon before it was finally stopped. Some indignant citizens declare that they do not believe the engineer tried to stop his train until he reached the depot and tore up the board walk with the wrecked wagon that was hanging to the cowcatcher. The engineer, Hugh Kelly, is reported to have said that he could not stop the train sooner, because the rails were wet. He passed on with his train to Philadelphia and was to return to Mount Joy this afternoon to give testimony before the coro ner's jury, which was adjourned to await

Harness Thieves.

Harness thieves still continue their prac tice around Mt. Joy. Late on Wednesday night Dr. F. M Harry happened to go to his stable just as a man was making his exit with a set of harness. The doctor went in pursuit and chased the thief for some distance, but could not catch him. The thief did not get away with the har-

Keller. He then went to the stable and put the bridle on a valuable sorrel mare. In the morning when Mr. Keller's boys went to the stable they found a lantern lighted and the mare bridled. It is believed that the thief was scared off by hearing Mr. John Snyder drive past the stable-mistaking Mr. Snyder for Mr. Keller, who was known to be out of town and who was supposed to have returned.

The Ironsides Defeat the Amsteur Cham If the Ironsides did have an off day and a crushing defeat in the early part of the week, they covered themselves with glory yesterday by defeating the Hartville club, who are at present the amateur champions | 15 hands high. of Philadelphia. For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast-frantic with snuffing, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a ountain of tears. He lives only to fly from seaside to mountain-top in search of relief. And yet, whether we call this form of Catarrh hay fever, rose-fever, hay cold or rosecold, Ely's Cream Balm will cure it. This renedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. mayl-M, W,S&w RESCUED FROM DEATH the following statement of William J. Cough in, of Somerville, Mass, is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fall of 18761 was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and medcines. I was so far gone at one time a report went around that I was dead. I gave up hope but a friend told me of DR. WM.
