Wadsworth, Martinez & Longman's Pure Prepared Paints.

And we claim that they are the best and cheapest paints in America. And we don't make this assertion and leave it unsupported. Paint one-half of any surface or one-half of any building with this p int and the other half with siricily pure White Lead and Linseed Oil, or any other mixed paints in this country, and if the part painted with this paint does not cost ten per cent. less than for paint used, we will make no charge for our paint. And further, any building that has been painted with this paint that is not satisfactory to the owner, and not remaining so for a proper term of years, we will repaint at our own expense with White Lead and Linseed Oil or any other paint he may select. As many of the prepared paints are adulterated with benzine and water we make this liberal offer. We will pay one thousand dollars for any benzine or water found in any original package of WADSWORTH, MARTI-NEZ & LONGMAN'S PURE PREPARED PAINTS.

I can recollect where a celicate child, some three years ago, was taken from a bost land ng, on a pier not over one hundred feet long, across a marsh caused by the ebb and flow of the tides, overgrown by dock weeds. The next day the child had chills and fever, although it was never before so affected. Aft r taking the proper remedy, Simmons Liver Regulator,

It was entirely restored to health and con-tinued so for over twelve months, when the same trip was again taken, the same marsh crossed over, and the same way as before the child was taken with chills and fever, though not having had any for over a year, and has never had one since, fully demonstrating how triffing the cause, and how in-follows foul air is to penetrate the system. Henry T. King, esq ex-city solicitor of Philadelphia appeared before the sub-MALARIA

committee on law of coancils investigating the highway mandamus cases, yesterday, and stated that every case during his term of office, with one exception, was defended by himself or assistants. The exception was a confession of judgment in open court. Judge Yerkes said that from his own investigation the payments in two instances were short of the limitation in the ordinance and the contract price. He asked that the records of the highway department from 1873 to 1876 inclusive be produced before the committee. Peter Lane testified to the disbursement of a portion of the money he received, and Wm. J. Veine, an ex contractor, testified that he knew nothing of mandamuses for rock excavations, and did not share in the money received. He said he had found

on his former partner's books a record of \$585 paid to a then member of councils, which he supposed was a fee for putting an ordinance through councils. His partner drew, he said, in 1876, on one of these cases, \$500 more than the contract price. Mr. Addis, agent of the Committee of One

fifty of the mandamus cases were missing and that it would be several weeks before he cou'd carry on his investigation sufficiently to present any facts to the committee. An adjournment was then had until cept. 5. A list of about seventeen cases, which will not come under the statute of limitation until after that date, was pre-

sented.
