TO PROPERTY OWNERS AND PAINTERS.

As a business transaction would you be willing to pay one dollar for an article you purchase for ninety cents? We are the agents for Lancaster and vicinity for Wadsworth, Martinez & Longman's Pure Prepared Paints.

And we claim that they are the best and cheapest paints in America. And we don't make this assertion and leave it unsupported. Faint one-half of any surface or one-half of any building with this paint and the other half with strictly pure White Lead and Linseed Oil, or any other mixed paints in this country, and if the part painted with this paint does not cost ten per cent. less than for paint used, we will make no charge for our paint. And further, any building that has been painted with this paint that is not satisfactory to the owner, and not remaining so for a proper term of years, we will repaint at our own expense with White Lead and Linseed Oil or any other paint he may select. As many of the prepared paints are adulterated with benzine and water we make this liberal offer. We will pay one thousand dollars for any benzine or water found in any original package of WADSWORTH, MARTI-NE & LONGMAN'S PURE PREPARED PAINTS.

KIDNEY-WORT.

SIGNIFICANT SPRING.

A Dissertation Upon Its Advent, and its The green leaf of the new come Spring."
—Shak.

Everybody recognizes spring, when it is once upon us, but many persons are not fa-miliar with the exact date of its appearance. Webster, the world renowned lexicographer, gives us a definition, which may not be inap-propriate here. "Spring," says he, "Is the season of the year when plants begin to vege tate and rise; the vernal season, comprehend ing the months of March, April and May, in the middle latitudes north of the equator." Thompson, in his "Seasons," and Shakspeare in many of his works, have, perhaps, no peers in describing it, and yet "etherial spring" is treighted with malaria, " that insidious foe, lurking in the very air we breathe." It spreads over the fairest portions of our land; brings death and ulseas; to thousands; cuts off scores and ; cores of our children and youth, as well as those in advanced life. A pestilence is regarded with little less apprehension, and people every-where are asking, "What is it?" "Where

KIDNEY-WORT AS A SPRING MEDICINE, When you begin to lose appetite-have a headache, a pain in your side, back and shoulders—to toss about at night in restles dreams-wake in the morning with a foul mouth and furred tongue-feel distnclined to go about your work, heavy in body and oppressed in mind-haven fit of the blues-when your urine gets scanty or high colored -to suffer with constipation, diarrhea, or indigestion-have a pasty, sallow face, duil eyes and a blotched skin-one or all of these common complaints will certainly be evidences that your liver is disordered, torpid, or perhaps diseased. A bottle of Kidney-Wort is, under

such circumstances, a priceless boon to such a Bare assertions of proprietors have come to possess less force than they frequently merit. The cause of this condition of popular skepticism is, in the main, to be found in the fac that charlatanism covers our broad land. Meritorious articles are too frequently found

in bad company. The proprietors of Kidney-Wort always prove all their assertions, touching the merits of their preparations. When weaffirm, therefore, that Kidney-wort is a specific for just such disorders as have been mentioned in this article, the proof, too, belongs to and shall, follow this statement.

A PHYSICIAN'S EXPERIENCE. Dr. R. K. Clark, a regu'ar physician of ex-tensive practice in Grand Isle County, and a worthy deacon of the Congregational Church, at South Hero, Vt., has used Kidney-Wort for several years in his practice, and before the present proprietors purchased an interest in its tayor. This opinion has not changed. It per cent increase in the salaries of manahas done better than any other remedy I have gers and operators, instead of a ten per ever used," says the doctor, and, further on he writes: " I do not recollect an instance where the patient to whom I have given it has failed to receive benefit from its use, and in some severe cases most decidedly so." These are strong words. They are from a representa tive, conscientious, ever-approachable public citizen, however, and-better still-they are

true. Kidney Wort will bear all the encomiums lavished upon it by its friends-and their name is legion. "I will swear by Kidney-Wort all the time," writes Mr. J. R. Kauffman, of Lancaster, Pa. We will supplement this by asserting, as a matter of fact, and one capable of demonstration, that all honest patrons of this remedy are its friends and advocates.

SENTENCED FOR LIFE.

FATE OF THE LIVERPOOL PRISONERS.

Dynamice Conspirators Convicted and Sentenced-The News of the Day in Condensed Paragraphs.

In the trial of Featherstone, Deasy, Flannigan and Dalton, the dynamite con-spirators at Liverpool, England, Thursday, counsel for the defense addressed the jury. He maintained that there was no evidence to support the charges against Deasy, but even if they were true the most that could be made out of the case

than a conspirator. Sir Farrer Herschell, for the crown, said that two infernal machines had been found on Deasey, who had brought them from Cork. He held that all the prison ers were associated with Deasy, all having left America about the same time, and that the evidence showed without any doubt that there existed a Fenian conspiracy, having root in America.

Justice Stephen, in summing up, said that the question was whether the prisoners had brought or had caused the bringing of the machines to Liverpool and bott and shoe firm of Charles W. Copewhether they had intended them to cause damage. He was sure that those who attacked the crown and sought to dismember the kingdom would meet enemies in a vast majority of Englishmen.

The prisoners were found guilty and sentenced to life-long penal servitude.

A RUNAWAY AT NEWPORT. A Cowardly Driver Leaves a Lady and Gen-

There was a thrilling and exciting runa way on Bellevue avenue, Newport, at 7 o'clock Thursday night The horses at tached to a carriage standing in front of the Ocean house and containing Mr. and Mrs. George Price, of Philadelphia, be-came frightened at the disconnection of the crab from the pole and ran very rapidly past the Casino. The runaway orses cleared all teams on the avenue. The bystanders looked at the runaway in stonishment and fear, but were powerless to assist. Before the carriage passed the Casino and just after the mishap occurred the driver dropped the reins and jumped to the ground, leaving the occupants of the carriage at the mercy of the horses. The carriage was brought up at the corner of Bellevue avenue and Touro street by the falling of the horses, when they were secured by willing hands. The lady and gentleman kept their seats and were thus saved from serious accident. They were kindly cared for by Mr. and Mrs. G. Mead Tooker, of New York, into whose house they were taken. The lady was slightly they were taken. The lady was slightly hurt. The pantaloons of the gentleman, bruised.—John Fisher, aged 18 years, and from some unknown cause, were cut in a young woman named Winnifred Fisher threads while one of his boots was cut. Had the driver retained his seat the horses might have been stopped immediately. His employer dispensed with his services. Had the fellow been found that night he would have fared badly, the feeling in regard to his coward-ice running very high.

CRUSHED BY TONS OF STEEL.

One Man Instantly Kuled and Five Others Injured by the Fall of Steel Racks. Thursday at noon 200 tons of manufactured steel in racks at Hussey, Howe & Co.'s warehouse, on 17th street, adjoining their mill, Pittsburg, fell from the racks, crushing Charles Eichnor to death, perhaps fatally hurting Bobert Sherritt, and injuring Lawrence Fist, John Ginger, Fred Stark and Julian Mittenstein. The end was torn from the warehouse and a rail read car overthrown and covered with debris. The falling steel from the second rack parted as it fell, a portion falling on either side of Sherritt, pinning him by the legs, his body being untouched. Mittenstein fell with the second rack of steel and upon the pile but few pieces touching him. He was got out immediately and a force of 30 or 40 men put to work to extricate Sherritt and Eichnor. The building was surrounded with the wives of the millmen.

Drs. Duncan and Kearns were summoned and stood near the spot where Sherritt was partially entombed, encouraging him and giving him an occasional drink. The men worked with a will, but in spite of the strenuous effort made Sherritt endured his misery for an hour and a half before he could be taken from beneath the mass of iron which partially covered him. He is terribly bruised and injured inter nally. Eichnor was found in a stooping posture, dead. The building inspector have examined the warehouse. It is said the building was unsafe for the vast amount of steel contained in it.
