LANCASTER, PA. TUESDAY, AUGUST 14, 1883.

Price Two Cents.

FLINN & BRENEMAN,
TO PROPERTY OWNERS AND PAINTERS.
As a business transaction would you be willing to pay one dollar for an article you could purchase for ninety cents? We are the agents for Lancaster and vicinity for
Wadsworth, Martinez & Longman's Pure Prepared Paints.
And we claim that they are the best and cheapest paints in America. And we don't make this assertion and leave it unsupported. Paint one-half of any surface or one-half of any building with this paint and the other half with strictly pure White Lead and Linseed Oil, or any other mixed paints in this country, and if the part painted with this paint does not cost ten per cent. less than for paint used, we will make no charge for our paint. And further, any building that has been painted with this paint that is not satisfactory to the owner, and not remaining so for a proper term of years, we will repaint at our own expense with White Lead and Linseed Oil or any other paint he may select. As many of the prepared paints are adulterated with benzine and water we make this liberal offer. We will pay one thousand dollars for any benzine or water found in any original package of WADSWORTH, MARTINE & LONGMAN'S PURE PREPARED PAINTS.

SAD SUICIDE.

WIFE OF SENATOR ALLISON, SUICIDE.
Mrs. Allison, wife of Senator Allison, White Sulphur Springs, Mo., committed suicide by drowning herself in the Mississippi river near Dubuque, Iowa, Monday night.

In the absence of her husband, who was away from home attending the opening of the Republican campaign at Clarinda, the wife of Senator W. B. Allison committed suicide by drowning herself in the Mississippi river near Dubuque, Iowa, Monday night.

She left home in the afternoon after one o'clock, telling her servant that she was going to one of the near neighbors. She had been accustomed to take long walks to the beach, and, always returning at dusk, upon this occasion she was unusually at home, and upon search being made she could not be found.

Instead of visiting any of her friends, taking her usual walk on the beach, she went in an opposite direction, toward the country, where she was accustomed to take almost daily walks. It is ascertained that she wandered around in the outskirts of the city during the afternoon, where she was seen by several persons walking rapidly and, apparently, seeming somewhat excited. Not returning by 9 o'clock from the place where she was supposed to be, the alarm was given and a search instituted.

The intensest excitement prevailed, and squads of citizens scoured the city and suburbs in all directions, remaining out all night without finding her, although they found houses where she had called during the afternoon and evening to look for rooms.

On Monday morning about 8 o'clock her lifeless body was found drowned in the river near Moore's mill, about a mile below the city. She had cut up her gossamer, placed some stones in it and tied them around her neck, then she threw herself from the river at thirty five feet from the bank, laid down and drowned herself where the water was only two and a half feet deep.

Mrs. Allison was a highly nervous temperament and during the past two or three years had suffered from it and had been treated for mental disease. While at a water cure establishment in Western New York in 1881, under medical treatment, she attempted suicide in much the same manner, but was fortunately rescued. She was a niece and adopted daughter of the late Senator Grimes, of Iowa, and had been married for ten years. She has no children.

Senator Allison was telegraphed to, at Columbus, Mo., as soon as his wife's disappearance was known, but it is thought he was not reached until this morning. He is now on his way home by special train, but cannot reach Dubuque until Wednesday morning. Many dispatches of condolence have been received from his friends. The body has been embalmed. The time for the obsequies has not yet been determined, for it is not known whether the deceased will be buried in Dubuque or in Burlington, the home of Mrs. Allison's father.

Mrs. Allison was a Washington wife. The news of the suicide of Senator Allison's wife by drowning at Dubuque, Ia., caused great sorrow at Washington. Mrs. Allison has been long known in Washington. She spent some time there with her foster father, the late Senator Grimes previous to her marriage to Senator Allison. She was a woman of lovely character, and a great favorite with her friends. She has been an invalid for some years, and it was her health and the aversion which Senator Allison had to imposing the social duties of a wife that caused her to spend her declining years at the seclusion of the home of her father at Washington. Her home life at Washington was very beautiful.

THE FISS MURDERER.
N. H. Luzzere has been retained as counsel for James Gaffey, the under-keeper of the Missouri State Penitentiary, who is charged by the coroner's jury with striking the late W. A. Fiss so savagely as to break his jaw and cause his death, at the Norrisville hospital. There is much bitter feeling expressed against Gaffey, but in Norrisville the feeling against the authorities and whose regime the outrage happened is still more intense. That there is a laxity of rule in this system has long been ascertained there. The constant escape of insane persons, the queer stories that leak out through visitors to the employes of the institution, and a hundred other nooks and crannies, all have given the Norrisville people an unfavorable opinion of the establishment and its management. Gaffey is expected there tomorrow and will have his hearing before A. S. Hallman, judge of the county, who is a shrewd man for himself, but a bad one for Dr. Chase, who issued the warrant against him. The coroner's physician, Dr. P. V. Eisenberg, who made the post-mortem examination of the body of Fiss, has a serious loss to the county from the death of Fiss. In withdrawing the lungs the serrated edges of the ribs cut five of the doctor's fingers, and as the lungs were filled with pus he was inoculated with it in every abrasion of his skin. Inflammation of the hand, but prompt measures were taken and he escaped with a loss of very sensitive fingers.

Double Murder and Suicide.
Last night a probably murder and suicide occurred at Renetta's saloon, on Cherokee street, St. Louis. During a game of cards, a man named Frank Wahl, proprietor of notion store, and August Danker played. Danker was playfully accused of rubbing out too many marks. Withdrawing from the game, he left the party, threatening violence. No attention was paid to the threats. A few minutes later he returned, and, inviting Wahl to come out on the sidewalk, Danker shot him in the abdomen, inflicting a probably fatal wound. Danker fired two more shots, striking Wahl in the chest and head, and then he had shot Wahl in the back yard of his home and discharged a load into his own brain. Both men will probably die.

Shot by a Young Woman.
Last Saturday night Lizzie Weaver, a young woman of unusual reputation, died at the Cincinnati hospital. She was struck by a bullet from a revolver, the fracture of the skull. An investigation by the coroner followed, and led to the arrest last night of Kate Hufman on the charge of murder. Kate is a respectable girl, the daughter of a stove finisher, Lizzie Weaver lives on Thurday street, near the depot. She was seen by the coroner's physician, Dr. P. V. Eisenberg, who issued the warrant against her to go to the latter refused and Kate then used force and pushed half drunk Wahl down the stairs. Her motive was to get rid of Wahl, who had been the cause of her father's death. Lizzie Weaver had been in the house.

The Track of Orms.
James S. Lyon, a former partner of Joseph Bork, ex city treasurer, of Buffalo, N. Y., now serving a term of five years in the state prison for the embezzlement of the city's funds, was yesterday sentenced to four years' imprisonment as an accessory.

On Sunday night Elijah Nundy, an attaché of the Pullman palace car on the north branch of the train from the South, while filling the lamps of the coach with alcohol was fatally burned by an explosion of the fluid. The accident occurred near Goldsboro, N. C. The interior of the coach was slightly damaged.

Emerson. He was generally known as "Texas Bill," shot and killed a banker named Denger about noon on Sunday at Hutchinson, Kansas. Emerson was arrested, and about midnight six masked men went to the jail, battered down the doors and were just about taking the murderer out to hang him when the sheriff with a large posse arrived and drove them off.

Missellaneous Paragraphs.
John F. Sweitzer, a shoe manufacturer of Wakefield, Mass., yesterday committed suicide by hanging himself with his children's swing.

A. B. Thuston, carpet and house furnishing merchant at St. John, N. B., has suspended. His liabilities are between \$300,000 and \$400,000.

The official return of 99 of the 117 counties of Kentucky show Knott's majority for governor to be over 37,000. In the same counties Blackburn's majority was but 35,000.

Major George H. Chandler, brother of the secretary of the navy, died at Canterbury, N. H., on Sunday, aged 44 years. He was a resident of Baltimore, enjoying a high reputation as a marine lawyer.

Silison Hutchins, editor of the Washington Post, denies that he is a candidate for the clerkship of the national House of Representatives.

The acting solicitor of the treasury has given an opinion that the use of miniature full sized imprints of a postal card (as a label for a brand of cigars sold by a Philadelphia firm) is a violation of sections 5,413 and 5,416 of the revised statutes, and the persons engaged in their manufacture and use are liable to prosecution.

The annual fair of the Lankawanna county agricultural society will be held at Providence, in that county, from September 18 to 21st inclusive. The amount to be offered in premiums is \$6,000.

Year Upon Living Curiosities.
A meeting of the managers of museums throughout the United States was held in Pittsburg Monday evening for the purpose of forming a combination that will give them control of the movements and salaries of all the living curiosities in the country. Managers were there from Cincinnati, Chicago, New York, Brooklyn, Philadelphia and other large cities, and were represented by letter. The managers are a unit on this idea of organization, and entered into the scheme harmoniously and heartily. The result will be that attractions will have to accept whatever salaries the combination will agree to pay them, otherwise their charms will remain hidden from the public gaze. The managers are being getting too much of their money, and this federation is really a strike on the part of capital against skeletons, fat women, two headed girls, armless and legless creatures, milgots, giants, gorillas, and Zulus and such like.

CLOTHING.

MYERS & RATHFON.

The Strongest Argument!

After all, the best test of ACCEPTABLE SERVICE on the part of any merchant is the number of PERMANENT CUSTOMERS he secures. Some merchants assume that "A bird in the hand is worth two in the bush," and take chances of their customer's return after he has once had "the roof pulled over his eyes." But alas, the majority of new customers finally runs out and it is only a question of time when the customer returns to his former dealer. We have a strong and growing customer base, to whom we refer with pride. Many of our customers have dealt with us for years and send their friends here to buy of us. Our CLOTHING is cut from carefully selected fabrics of best known American mill, excellently trimmed and well-made, and from the very large assortment always here, you are sure to find the fit you look for.

Trade respectfully solicited.
