FIRE LAST NIGHT.

A Driver of a Hose Cart Narrowly Escapes

Last night about a quarter after 11 o'clock a fire broke out in a tobacco shed owned by Philip Betz and situated on Strawberry street, opposite the Woodward hill cemetery. An alarm was struck from box 62 at Christian and Green streets, but as the building was entirely of frame the fire made great headway and it was soon consumed. Engine No. 2 had a stream on the flames but it was of little consequence. The contents of the building consisted of straw, hay and and some farming implements. The loss on the building will be over \$500 and it is insured for \$450 in the Sun company of London of which H. R. Breneman is the agent The contents were insured for \$275 in the same company and that will cover the loss. The build ing was set on fire.

On the way to the fire the cart belong ing to No. 3 met with a terrible accident at the junction of Lime, Vine and Church streets. A new sewer is being constructed at this point, and there is an open ditch about four feet in width, twenty in length and four or five in depth, with high piles of dirt surrounding it. Persons driv ing down Church street can get around the obstruction, but there is but room for one vehicle, the roadway being narrow. A lamp is hung at the place at night. After the alarm last night Adam Smith, driver of the hose cart, hitched up his horse and started down Church street. He had seen the open sewer early in the evening, as he said after the accident, and tried to avoid it, but just as he neared it the orse frightened and jumped aside. He fell headlong into the sewer trench and carried the cart and driver in also. Persons who saw the accident hastened to the assistance of Mr. Smith, and he and the horse were quickly taken out. He was found to be badly bruised and cut. To day his one arm and shoulder is terribly swoolen and is quite painful. He was very lucky in escaping with his life. The horse was bruised and cut but his injuries are not at all serious. The only damage to the cart, which might have been dashed to pieces, was the breaking of one spoke of a hind wheel and a piece of cast iron on the side. The cart will be out of service until siz o'clock this evening.

Slight Fire this Morning This morning a slight fire occurred at the residence of the Misses Hamilton No. 444 North Duke street and Mr. Samu l Baily next door. It appears that the frame work in the fireplace of the Hamilton house caught fire from sparks in the The woodwork runs through the partition from one house to the other, and this morning a small flame was found to be issuing from the wall in Mr. Baily's kitchen. The firemen of engine company No. 4 were quickly notified and they went into the house of Miss Hamilton, and tore out the wood work, discovering the fire to be in the large piece of timber. A pavewash stream was put on and the fire extinguished without much damage.

AFTERNOON TELEGRAMS

THE BEWS FRUM MANY DIRECTIONS.

Lowry's Bill Negatived in the Senate

-in the House. HARRISBURG, Aug. 14.-The Senate apportionment committee to day negatived the Lowry House congressions apportionment bill. The bill was introduced in the Senate by Patton, providing for an adjournment until January and requesting that the people be allowed an opportunity to vote as to whether or not they desired a proportional apportionment. The bill was referred to a com-

ported. In the House the Senate resolution providing for final adjournment on the 21st, was discussed and amended so as to read that adjournment shall not take place until all business for which the extra session was called shall have been completed.

THE STRIKE.

The Telegraphers bull Holding Uut. NEW YORK, Aug.14.-The strike of the telegraphers presents no new features to day. Mr. Somerville, of the W. U. company, said to day that 126 wires of Gould and Stock were cut last night. A dispatch was received by the company to day, which stated that the New Orleans telegraphers were weakening and that two strikers had returned to their keys in Meridian. Miss. A rigger for the Western Union com-

pany was assaulted by two of striking linemen to day when he was leaving the company's building. The offenders were arrested and taken to court when they were held for examination. So far as could be learned up to noon to day nine of the wire cutters had been arrested. Strikers Returned to Work.

CINCINNATI, Aug. 14.-Two striking operators have returned to work at the Western Union office here and one first class operator was obtained to-day from St. Louis.

LABOR IN COUNCIL.

The Deliverances of the Amaigamated As PHILADELPHIA, Aug.14.—At the session this morning of the Amalgamated iron and steel workers' convention, the reports of the committees on ways and means and claims were read as hitherto announced. The claims read committee adhered to the plan of negativing the strikers demands for 1882. The ways and means committee strongly urged that there shall be no present disturbance of the wages question and it declared that the current system in both iron and steel mills is adjusted on an amicable basis. A move on the part of the convention to tinker with a question so vital would entail disastrous consequences just now. The action of the committee end suggestions it urged were unanimously ratified by the convention. President Jarrett delivered a brief address commending the delegates on their wise and sensible view on the subject of

It is believed that the suspension will be only temporary. It is understood that New England customers of the firm were unable to respond to calls for margins. Ten thousand shares of different stock on the firm's account have been sold at the stock exchange under the rule. It is very probable that Geo. Wm. SPANISH OUTBREAKS.

The Insurrection Likely Abated. The London Times' Madrid correspond ent says that an order has been issued by the authorities forbidding the printing of any news touching the insurrectionary movements in Spain, except what is offi-cially supplied from the home office, and cautioning editors of papers to abstain from comments upon current events. The correspondent adds that the strictest cen-

sorship continues on telegrams. The review of the Madrid garrison on Monday passed off without any unusual incident. The troops cheered the king as they defiled past him. The king will shortly visit Barcelona, Saragossa, Va lentia and other towns, and will review

the garrisons of those places.

MEDICAL RENSUN'S SEIN CURE.

[From Andrew s American Queen] CLEOPATRA

OR THE

Queen of Sheeba's Beauty WAS BUT SKIN DEEP. The renowned Queen of Sheba, with all her royal pomp, magnificent apparel and brilliant retinue would never have appeared within the presence of the grandest of the monarchs of the past, had she not also possessed that which is the crowning glory of the temale person-a skin unchallenged for its Oriental oftness and its almost transcendenial purity-Cleopatra, holding emperors at bay, and rul-

ing empires by her word, had quickly lost her

charm and power by one attack of blotches, or

of pimples, or of horrid tan and freckles. WOMAN RULES THE WORLD. by her beauty, not less than by her purity of character, loveliness of disposition and unselfish devotion. Indeed, in the estimation of perhaps too many men beauty in a body takes precedence over every other consider Reauty thus forms an important part of woman's "working capital." without which oo many, (if not bankrupts in what relates o influence within the circle where hey move), are powerless for great good. Hence we see not only the progood. Hence we see not only the pro-priety but the duty of every lady preserv-ing with zealous care that which to her is er-sential to success, and influence, and useful-ness in life. And, since "beauty is but skin deep," the utmost care and vigilance are re-oulred to guard it are inst the many life that flesh is heir to. Among the great and annoy-ing enemies of beauty,

OF EITHER SEX as well as of comfort, happiness and health, are those pesti crous and horrid skin diseases tetters, humors, eczema (salt rheum), rough and scaly cruptions, ulcers, pimples, and all diseases of the hair and scalp. For the cure of all these, Dr. C. W. Bensen, of Bakimore, after very or retient study and investigation. after years of patient study and investigation devoted to diseases of the skin, at last brought forth his celebrated SKIN CURE, which has already by is marve ous cures, established itself as the great remedy for all disease of the skin, whatever be their names or character. Its success has been immense and un-paralleled. All druggists have it. It is ele-gantly put up, two bottles in one package. In-ternal and external treatment. Price, \$1.00.

"No, my dear," said the venerable keeper of country store to a timid little girl, whose tead scarcely came up to the level of the counter. "No, my dear, we haven't any red lannel, but we have some first rate New Orleans molasses." Sottly hinting that she didn't thin c that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLAS-TERS?' asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seams to go to the spot aimost as soon as it touches the skin.'. "Not at present," replied the druggist, geni-

ally, "but we have lots of plasters just as good. There is Allcock's, the Carsicum and others-won't one of them do as well?" "My dear sir," retorted the gentleman, with a slight show of temper,"I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that some time ago, for another disease, of which the Capcine has since cured me, I tried al! those you mention with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprie-tors of some of them being this: that they make plasters with similar founding names to

the difference. I'll go to the next man in your line. Good days Be on your guard against imitations. The cennine has the word CAPCINE cut cleanly in the middle of the plaster. All others are

DARKER'S TONIO.

By One of the Fools. "Why-pardon my remarking it-but, my

dear old friend, how changed you are. I declare you must have lived very high or very fast to have driven the color out of your hair and the spring out of your step this fashion.' Looking at the sunset on the river from the grounds of his place up the Hudson, my school hum-who is now one of the best known mining experts in the country-answered: "It wasn't fast living done it, but dyspepsia and nervous collapse, from over-work. I ought to have stopped years before I did. I was a fool. But who isn't, if you come to that?

"I am thirty-five years old," writes Mr
Charles H. Watt3, of West Somers, Putnam
Co., N. Y., and had suffered from dyspepsia
for fitteen years. Went the round of the current remedies, falsely so called. Listlessly and
without hope I gave Parker's Towio a trial.
The result may be stated in these words, if
cured mc. I endorse now without hesitation.
It is the dyspeptic's refuge." Mr. G. R. Cole,
druggist, of Carmel, N. Y., certifies to the
truth of Mr. Watts' statement.
