

Lancaster Intelligencer.

MONDAY EVENING, SEPT. 3, 1883.

DR. HODGSON'S PATIENT.

A Mysterious Death at Atlanta Which the Lancasters cannot investigate.

Dr. Hodgson, a leading physician, was summoned last Thursday to attend a lady dangerously ill at the fashionable boarding house of Mrs. Greenwood, Atlanta, Ga.

The patient, a few hours after gave birth to a child, but it soon became apparent that the mother was not destined to live.

Dr. Hodgson warned her of approaching death and asked whether there were no relatives that he might summon.

She replied that she had no relatives, and that she was ready to die. The doctor was not satisfied.

His patient seemed to be a woman of refinement and excellent education. He noticed that the large Saratoga trunk, which she had brought with her to Atlanta four months ago, bore the name of "Miss L. Moore."

The dead woman was about thirty years of age. Her manner and bearing seemed to show that some where she had moved in the best society.

"Were there any circumstances that led you to believe that she was unmarried or in trouble?" the officer asked.

"None beyond what I have told you. She had a good deal of money, but received no letters which could give a clue to her home, or contain money."

The day after her death, Dr. Hodgson called at a leading undertaker's establishment and ordered a plain but expensive casket.

In response to questions, he said that there was no name to be given on the plate and that he would pay all the expenses.

The authorities could not refuse a burial permit, and the last instructions of the woman to the physician were carried out to the letter.

Two carriages followed the remains to their last resting place. It was the dying request of the woman that no notice of her death be given, and that not even a minister is to be called to perform any sort of ceremony.

When interrogated Dr. Hodgson said money had been left in his hands for the welfare of the orphan child.

Dr. Hodgson's Colery and Chamomile Pills, are worth their weight in gold in nervous and sick headache.

"Four Miles Cure" is a superior remedy. It is fast curing my daughter's ring worm, which spread all over her body.

DR. HODGSON'S PATIENT.

DR. HODGSON'S PATIENT.

BAD, BAD, BAD BLOOD.

Some blood is bad because it is poor and weak. Some is bad because it contains impurities.

The rich red color of good blood is owing to the iron which is present. Blood which has not enough iron in it is always unsatisfactory.

The efforts of expert chemists to produce a preparation of iron which can be assimilated with the blood have resulted in that perfect preparation which is an important part of Brown's Iron Bitters.

Weak, poor, thin blood may be made rich and strong, and impure blood may be purified by the use of that Great Iron Medicine, Brown's Iron Bitters.

Small Pox eradicated, Small Pox cured. Small Pox pittings prevented by Darby's Prophylactic Fluid.

Full for the Shore. Let us all pull out of this sea of sickness and despondency, and get into a new life.

Do You Believe It. That in this town there are scores of persons suffering from the same disease?

Evidence of the Best Kind. Richard T. Robinson is a druggist living in Racine, Wis. Here is what he says:

Medicine. [From Andrew's American Queen] CLEOPATRA OR THE Queen of Sheeba's Beauty.

Was But Skin Deep. Their renowned Queen of Sheba, with all her royal pomp, magnificent apparel and brilliant retinue would never have appeared within the presence of the grandest of the monarchs.

WOMAN TELLS THE WORLD. by her beauty, not less than by her purity of character, levelness of disposition and unselfish devotion.

as well as of comfort, happiness and health, are these pestiferous and horrid skin diseases.

EVERYONE FRANKS. Sick headache, nervous headache, neuralgia, nervousness, paralysis, dyspepsia, sleeplessness and brain disease, positively cured.

DR. C. W. BENSON'S Colery and Chamomile Pills. They contain no opium, quinine or other harmful drug.
