The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. "Nonsense, that is the rigmarole of a boy, or rather, of a man who either torsn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lottons and outments are very good to most cases for the relief of pain or inflammation. DEAD IN THEIR BED.

THE END OF A BRIEF WEODED LIFE

The Borrible Scene Which Met the Eyes of Some Farmers Who Broke Into the House.

Thursday afternoon as a party of farm ers were passing the farm house of Wm. Runyon, near Jerseytown, Columbia county, Pa., they noticed that the shutters Runyon, near Jerseytown, Columbia for the general good requests all investigators to repeat the experimental work and report to the public the results of such if it was described. The building is six if it was deserted. The building is situ ated in an isolated spot, about a mile from the village. They did not stop to investigate, but upon reaching town the matter was discussed and a party set out to look into the matter. They found the doors locked and the wind ws all barred. After knocking several times and receiving no answer they bursted in the door. The first room they entered was the kitchen. It was empty, but the table was spread as if for a meal, but covered over. They went up stairs to the room which they knew was occupied by the farmer and his wife as a bed room. They found the door locked. Breaking it open they saw a horrible sight. Upon the bed lay the bodies of Runyon and his young wife, with their throats cut from ear to ear. The farmers were too horrified to touch the bodies, and summoning a physician as seen they could, stood gazing at the bodies until became. The faces of the dead were turned toward each other and between the two lay a knife with a large blade, which was stained with their life blood. When the physicians arrived it was found that they had been dead over a week. An examination was had, but no clue could be found as to the cause of the deed. The doors had all been securely locked and deadlatched, while all the windows were bolted from the inside, save one in the upper story, which was rather loosely fastened. Runyon was a young man twenty five years of age and highly re-spected throughout the farmer region. His wife was about twenty years of age. Both were connected with the most intelligent people in Columbia county. They were married last February and have ived very happily to all appearances. Many suppose that the young man first killed his wife and then took his own life. The absence of any signs of a struggle seems to confirm the supposition, but the racy's invitation to enter its primaries major part of the people seem to think without declaring itself dissolved, dwelt that they were victims of foul play, be- strongly upon the duty of union and said cause of the devotion shown to each other. The affair has thrown the entire farming region into excitement. Crowds flocked to the scene and could not be kept out of the building by the officers. If the pair were murdered, the perpetrators were very successful in hiding their tracks, as | iron, in Fort Wayne, Ind., yesterday. He | not the slightest clew has been found to was arrested. throw suspicion on any party. Although in very comfortable circumstances, Runyou and his wife never kept any money in the house; so it is unlikely that robbery Charles Henry Lee, was hanged last would be the motive of the crime. The month. belief that it was a murder has steadily a party of tramps passed through the vil-

gang had been seen loading about the neighborhood for three days. Search was made for the gang. An examination made nothing. No person can recollect any actions on the part of the dead that would with which they were connected ever

onas Philips Levy, Who Commanded One of Stephen Girard's Ships.

Captain Jonas Phillips Lovy, a conspic uous Hebrew, died suddealy of dropsy Thursday evening at his home, 108 East Fortieth street, New York. He was a son of M P. Levy, of Philadelphia, who de fended that city from the British in the war of 1812 while acting as major of the "Oh, I don't know," responded the first Philadelphia Silver Grays. He was born speaker's friend, with a little yawn as though in the Quaker city on January 14, 1807. he distn't take much interest in the subject. "I While yet a mere lad he was apprenticed to Stephen Girard and shipped before the mast on one of his versels. He rose to be captain and commanded the largest of his employer's ships until the revolution in Peru in 1834 ied him into the navy of that government. He commanded a vessel sold by himself to the government, the Silas C. Burrowes, against the insurgents, and the freedom of Peru was subsequently bestowed upon him for his successful overthrow of the rebels. At the beginning of the Mexican war he was appointed commander of the United States ship America He had charge of landing the troops at the capture of Vera Cruz and was appointed captain of the port and eastle by General Winfield Scott. he rescued General Lafayette from a sinking wreck in the Mississippi river and from the North," what would you have? This is a wretched world anyhow, and nothing is French general. In the same year he made the first voyage in a steamboat up the Mississippi and the Red river, and his log book records that the shaft of the engine was made of wood. He leaves three sons, attorneys at law, in the city, The Levy family have been ardent ad mirers of Jefferson and have owned Monticello, the home of the patriot, since 1829.

TARKED AND PEATBERED. now Two Mormon Elders Were Received in

For several weeks past a couple of Mormon elders have been prowling around Brookville, Md , preaching their creed whenever they could secure the use of a church or schoolhouse. They spent considerable time in the neighborhood of Laurel and were given accommodations by Mr. D. W. Adams, one of the best citizens of that neighborhood. They left there for other fields, and on Monday last an eighteen year old daughter of Mr. Adams disappeared from home. Search was instituted and she was found concealed in a house at Cedar Grove, where the elders are stopping. She had been enticed away from her home by one of the elders, and was a candidate for Utah. She, however, returned home with her father. Indignation ran high. The elders last night were stopping at the residence of Mr. Ellison, a couple of miles from Laurel, and during the night they were called on by about 200 of the best citizens of that neighborhood They were forced to undress and were then given a good coating of tar and feathers and given ten hours to get out of the county.

THE GERM THEORY OF DISEASE.

Dr. Grigg Conctudes That All the Bacteria of Disease Are Forms of Fibria. Dr. Rollin R. Grigg, of Buffalo, who has been experimenting relative the so called bacteria or germs that are said to cause various diseases, furnishes the following : by boiling a quantity of healthy blood he obtained all the forms of bactefrom a washed c'ot of b'ot and boiling it

proving that it was the threads of fibrin broken up into pieces and granules that gave the bacteria, the same results were obtained. Next some blood was obtained and rotted under the warmth and closely watched for two months, and here again all the forms were obtained that the fresh boiled blood gave. From these experiments Dr. Grigg concludes that all the bacteria of disease are forms of fibrin, and investigations.

John Kelly Wants Harmony. At a meeting of the Tammany committee in New York on organization last night Colonel E. T. Wood chairman of the committee on harmony, reported that the county Democracy had declined to enter any overtures looking toward a united delegation. He said the Tammany committee had propose no plan for securing a united delegation, but only asked for a conference. As the county Democracy had evidently misunderstood, Tammany's proposition he asked that the matter be referred back, so that a more explicit pro-position could be made. This was oppored, but John Kelly, while declaring Tammany could not accept the county Democ that he was in favor of trying every means to secure it. A motion to refer the report back was carried.
