LATE PUBLICATIONS.

Some Books That Have Recently Appeared " A Short Course in Chemistry " is the title of a little volume, by Thomas R. Baker, Ph. D., professor of physics and chemistry at the state normal school at Millersville. As the author says, the book is designed for students beginning the sub-ject of chemistry, and his aim has been to present the rudimental features of this branch of knowledge in an interesting and concise manner. The author has more than succeeded, since the work shows the careful and lucid learning of Prof. Baker on the subject. The book is issued by the Lancaster normal publishing company.

Harper & Brothers issue a neat little volume on "French and German Socialism in Modern Times," by Richard T. Ely, Ph. D., whose labors in the Johns Hopkins University, at Baltimore, and in Cornell University, at Ithaca, N. Y., have been so popularly acknowledged. The writer endeavors to fairly present the various and instructive phases of the great social movement in France and Germany, where it has secured a strong foothold and has compelled recognition. The work is interesting from a historical point, besides possessing the satisfactory feature of being the result of careful and intelligent research. It is a valuable acquisition to the study of socialism and more of fact than speculation will be found in it.

Mrs. Oliphant has added another volume to Harper & Bros' series of "English men of Letters," which are receiving great popular approbation, in the life of Sher-idan. Mrs. Oliphant has found in the subject an entertaining work and she presents the life and character of the brilliant author in a strictly impartial and adequate way. It is quite up to the stand ard of her other works of like character.

A new edition of R. D. Blackmore's story, "Lorna Doone," is issued by Har-per Brothers. This rather quaint yet very charming tale of the life of the great John Ridd deserves perusal by all.

A RESTUCKY MURDER.

A murder was perpetrated in the hills near Cornishville, Ky., last Saturday night. The victim, Mr Robert C. Barnes was a first cousin of the Rev. George O. Barnes, the mountain evangelist, and Thomas Elliott, one of the perpetrators, is seventy years years old, and his partner in the tragedy was his son, Stith Elliott The Elliotts, father and son, were riding along the pike on horseback, each seated on a bag of meal, which they were taking home from the mill. Near Cornistville they met Robert C. Barnes, also on horseback and seated on a bag of grain which he was taking to Brewer's mill to leave to be ground. In passing a collision occurred between the sacks by which Barnes and the old Elliott was dragged nearly off his horse. Immediately hot words passed, Stith Elliott and Barnes dismounted and threw rocks at each other. Old man El liott joined the fray. He pinioned Barnes' arm, while Stith Eliiott plunged a knife blade twice into Barnes' heart. Barnes fell then dead. They left him in the road Young Elliott escaped and the old man is under arrest.

BROWN'S IRON BITTERS.

THREE PARTICULAR POINTS.

Point the First .- Brown's IRON BITTERS is not an intoxicating compound. It is a tonic nedicine, not a drink. It is a skillfully compounded preparation made to restore strength and health; not a beverage to be sold in bar-rooms and taverns.

MEDICAL.

Point, the Second .- Brown's Inon Birthes is free from everything injurious. The most delcate ladies and the most enfeebled infants may use it with perfect safety and with great advantage. While it is powerful in its remedial agency, it is gentle in its operation, restoring wasted strength and imparting robust health in the most efficient manuer.

Point the Third .- Brown's Inon Bitters is made by the Brown Chemical Company of Baltimore, a long established house, whose reputation is well known to the business world and the general community. There is no risk in buying such a medicine.

BENSON'S SEIN CUBE.

[From Andrew & American Queen.] CLEOPATRA OR THE

Queen of Sheeba's Beauty WAS BUT SKIN DEEP.

The renowned Queen of Sheba, with all ne oyal pomp, magnificent apparel and brilliant etime, would never have appeared within se presence of the grandest of the monarchs of the past, had she not also postessed that which is the crowning glory of the female offness and its almost transcendental purity-Cleopatra, holding emperors at bay, and rul-ing empires by her word, had quickly lost her charm and power by one attack of blotches, o of pimples, or of horrid tan and freckles. WOMAN SULES THE WOLLD.

by her beauty, not less than by her purity of contractor, loveliness of disposition and unsel character, leveliness of disposition and unsel fish devotion. Indeed, in the estimation of perhaps too many men beauty in a body takes precedence over every other consideration, beauty thus forms an important part of woman's "working capital," without which foe many, (if not bankrupts in what relates to findhence within the circle where they move), are powerless for great good. Hence we see not only the property but the duty of every lady preserved.
