STRAWBRIDGE & CLOTHER.

PHILADELPHIA, SEPTEMBER 25, 1883;

TO THE PUBLIC:

Especially of the states of Penusylvania, New Jersey, Maryland and Delaware.

We have the pleasure to announce that our arrangements for the business of the present season, long considered and most carefully made, are now complete, and we respectfully invite the people from far and near to call on us, and inspect our enlarged facilities for doing business and the superb Stock we are prepared to exhibit in every department.

The increase in our business, which has been large and constant for years, has been greater than ever during the past twelve months, and we have, therefore, felt justified in making extraordinary and unprecedented preparations for the coming season, not only in the magnitude of the stock, but in the facilities for its distribution, as well as arrangements for the most prompt and careful service of our patrons in

During the Summer we have added another building on Eighth Street to our storerooms, and this alteration, just completed, while it adds considerably, though not largely to our space, enables us to make certain changes in the disposition of stocks, which economizes room and in other ways adds largely to the comfort and convenience of our patrons.

All our buildings have been renovated and freshened during the Summer, and now, with the above alterations completed and our arrangements consummated. Including the receipt of the most magnificent stock it has ever been our privilege to gather, we invite the public to call and inspect the buildings and examine the stock. which in the aggregate and detail will, we believe, compare favorably with any that has ever been placed on sale under one roof in America. This huge stock, approximating TWO MILLIONS OF DOLLARS in value in DRY GOODS ALONE, has been most carefully selected by a large corps of skilful buyers in the best markets of the world, and it is needless to add has been purchased EXCLUSIVELY FOR CASH. Every advantage that experience, skill and abundant capital can secure has, we believe, been secured for our patrons this season, and coupled with these advantages is a determination to serve them in such a way as to receive their constant and abiding patronage.

It is our aim, as it is the aim of all business men, to make money, and yet not so much to make money as to do business in the best way; to be successful in the highest sense; to render the most efficient service to the largest number; to adhere rigidly to and to lead in our own special business; to do the largest and the best and the most generously conducted retail dry goods business in the United States; to lay the foundation of that business broad and deep and sure. Here, in Philadelphia, the city of homes, with its million of population, surrounded by a country unsurpassed, if equalled anywhere for fertility and cultivation, and populated by other millions of thrifty and intelligent people, here we conceive is the place to build up such a business-a business that truly serves the people and with every increase in its size and facilities only more widely and efficiently renders that service to a greater

We believe no large and permanent success can be achieved on any other basis than that we have indicated, of rendering better service than can be had elsewhere; of deserving success by reason of rendering this service faithfully; of making it a cardinal principle to give at least as much as is received; to ensure and to be satisfied with nothing less than a mutuality of benefit between the house and its great constituency the country over. This is our aim and purpose. We ask the people to join with us in establishing such a business, and we ask for patronage on no other grounds.

Respectfully submitting our claims to a discerning public, we hereby extend a general invitation to call on us from this date, to view the buildings and inspect the business methods of 1883.

Unveiling of the Great Statue on the Khine

"GERMANIA."

-A Description of the Monument-

SECOND EDITION.

FRIDAY EVENING, SEPT. 28, 1898

A JOYOUS GALA DAY IN GERMANY.

Other Affairs in Europe, Wieshaden, Germany, Sept. 28.—The Emperor William and the German princes have arrived here. All the hotels and lodging houses here and in the neighbor hood are overflowing with visitors. The streets are decorated with flags banners and patriotic mottoes. Besides the Ger-man princess, the princesses, the mayors of Hamburg, Bremen and Lubeck and nearly every provincial town and military and civil government will be present. The army will be well represented. There will be also about 15,000 members of the Krieger Vereine, 1,000 members of various singing societies and 8,000 turners.

The Joyous Fatherland. BINGEN, Germany, Sept. 28-1 P. M. Salutes from the batteries here and from the guns on the hills are now being fired announcing the unveiling of the statue of "Germania" on the Niederwald. The church bells are ringing. The steam whistles on the steamers anchored in the Rhine are sounding and the whole vast assemblage on the Niederwald is singing the national anthem.

Kaiser Wilhelm at Endepheln. RUDESHEIM, Sept. 28.—The Emperor William and Prince Frederick William arrived here at noon and were received with great enthusiasm and cheering.

The Monument. RUDESHEIM, Germany, Sept. 28.-The total cost of the statue of the national monument, "Germania," which was unveiled to-day on the Neiderwald, was over 1,000,000 marks.

A Description of It.

The Germania monument is an inspiring feature on the landscape of the Rhine, The Niederwald, on which it is erected, is over seven hundred feet high, and the spot chosen overlooks one of the most beautiful points of the river-where the troops marched past into the war, and where King William, returning from France, "saluted the Rhine for the first time as Kaiser." The monument attains the height of 110 feet, consisting of sub structure, a quadrangular stone base con taining relief, pedestal and the figure of Germania, the latter being about thirtythree feet in height. In front of the sub structure there are sculptured the figures of Father Rhine and the nymph Moselle. The Moselle is represented by a young woman of ideal beauty, who is receiving from the hands of Father Rhine a large watch horn. At either side are figures of great beauty, the one symbolizing "War" being represented by a young Reman warrior, with drawn sword, call ing his comrades together by the sound of the trumpet to defend the threat-ened fatherland. The other statue is an angelic tigure representing "Peace." The two figures illustrate the first line and the refrain of the "Wacht am Rhein. 'Es braust ein Ruf wie Donnerhall," and "Leib Vaterland, kannst ruhig sein." The arrangements of the figures is superb and the embellishments are of consummate beauty and skill. This arrangement was a very difficult matter, but Professor Schilling accomprished it with extraordin ary appropriateness. Beneth the relief are nscribed the verses of the "Watch on the Rhine," ending with the refrain :-

Fost steht und treu die Wacht am Ebein. The two reliefs on the sides of the square represent "The Departure of the War" and "The Return of the War." In the first the order for mobilization has been given. The relief is divided into three groupings. Around the foot of the pedestal, on which the figure of Germania stands, are the arms of the various German monarchs. Above these is the following inscription :

IN MEMORY OF THE UNANDIOUS AND VICTORIOUS RISING GERMAN PEOPLE, AND THE RE-ESTABLISHMENT OF THE GREWAN EMPIRE, 1870-1871,

THE LEGISLATURE.

Senator Gordon Offers a Joint Resolution in the Senate. HARRISBURG, Sept. 28.—Both branches of the Legislature held short sessions to-

day. In the Senate Gordon offered a joint resolution for a conference on different apportionment bills, to consist of five sena tors and seven representatives. It passed second reading, and when on third a motion was made to adjourn until Tuesday, but it was lost by a vote of 11 yeas to 14 nays, 24 members being absent. The question of absenteeism was then discussed and the sergeant at arms was ordered to bring in Senator Adams. The discussion on the same subject was still progressing, when a motion by Cooper to adjourn was carried. The Bierer representative apportionment bill (Democratic) passed the House finally,

after which that body adjourned. Huntington Failure. HUNTINGEON, Pa., Sept. 28.—The Huntington car and car wheel works,
