BROWN'S IRON BITTERS.

Shall We Let the Child Die?

A hard hearted political economist, looking at a pric and puny child feelily gasping as it this upon a pillow, says that the child might as well die? It is so weak and poor that its life will never be worth much anyhow. There are already a good many people in the world who are not of much account anyhow. And what's the use of adding to their number another weakling, who has but stender chance of ever amounting to anything?

Now ask the child's mother what she thinks about letting the child die. About this time the hard political economist had better get out of the way. " Let my child die ! No No As long as there is a remedy to be found that will save that child, the child shall not die. I'll child. See the poor little fellow pick up strength. He revives. He will live. Hosts of other children have been brought almost from death to healthy life by Brown's Iron Bitters. Your druggist sells it.
