The Civil Service Reform.

Harper's Weekly, edited by George William Curtis, one of a coterie of professional civil service reformers in this country, continues carping at what it into. calls the Democratic disposition to ignore everything like civil service reform ; and it declares that in view of the declarations of the Democracy of Pennsylvania, re-echoed by the Demo crats of New Jersey in their state convention, no man in his senses doubts that Democratic reform means "general loot and plunder of the civil service "

Now let us see what the Democratic declarations are that this pretentious critic so persistently denounces. They run thus : " They believe in that genuine and deep reaching civil service reform which consists in the election to office of honest, intelligent, capable and courageous public servants, who will faithfully administer their trusts, and who will be held to strict accountability for such discharge of it, and who will redeem and purge the departments of the general government from that cor ruption and fraud with which they have been permeated under Republican rule, and which that party has shown itself unwilling and unable to eradicate."

We would like to know what more any honest man wants. What suggestion is there in it of "general loot and plunder of the civil service." Mr. Curtis simply prevaricates, he pros titutes his judgment to his partisanship in the suggestion. The sting of this expression of a sound civil service reform theory is in the tail of it wherein the incapacity of the Republican party to reform itself or rescue the country from the corruption which festers in its government in set forth. But this is undeniably true and nobody knows it better than the editor of Harper's Weekly. The count less scandals of Grant's administration and its unpunished shames and crimes proved it; the Star Route frauds

reaffirmed it. Harper's Weekly, itself, not long since said The Republican party is smirched with the Whisky Ring swindles, and the Star Route swindles, and the Belknap swindles.

and the salary grab, and the third term plot, and a myrid other similar jobs and thefts and crimes. The argument will be that no reform is possible until such party is turned out, That such a plan shrewd and promising is undemable.

The New York Times, the leading paper of its party, said :

Every houest Republican will confess with shame and mortification that the failure of the party to purge itself of and punish its proven rascals affords a fair ground for an attack of this kind and adds a hundred fold to its effectiveness before the people. If the party in power has become so corrupt or morally debilitated that it cannot cast off and punish the thieves who have fattened on its prosper ity, then the people will take up the cry of "turn the rascals out," and the honest and the vicious will altke be " turned out neck and heels.

Biddled with Bullets.

Henry Kyle, an eighteen year old negro boy, feioniously assaulted the five year old child of Matthew Alday, near Spring Creek, Ga., but was apprehended before he accomplished his purpose and turned over to a couple of bailiffs for conveyance to jail for safe keeping. When the officers reached a ferry a few miles below Spring Creek, a band of mounted masked men overtook them on the galley and demanded that Kyle b turned over to them. The bailiffs refused to accede to the demand, and a short struggle, during which several shots were fired, but no one mortally wounded, re-

sulted in the prisoner's rescue. Nothing was known of his fate, however, until this morning, when his lifeless body was found lying in the creek riddled with bullets from head to foot, and mutilated by a swarm of vultures, which were feasting on it when discovered. No arrests have been made and none are anticipated.
