RAILBOAD NEWS

New Lines Proposed—A Rumor Concerning the Delaware River & Lancaster R. R. Rumor has it that the managers of the Gettysburg and Harrisburg railroad will build a road from the former place through York Springs to Dillsburg to connect with the Dillsburg and Mechanicsburg railroad.

Work on the new line of railroad to be built from New Oxford to York Spring, a distance of about 11 miles, will be commenced early in November and pushed vigorously forward to completion. The road will be built and cars running over it, it is claimed, within the ensuing ten

The Philadelphia newspapers some days ago published a statement to the effect that Wm. H. Vanderbilt had purchased the charter of the Delaware River & Lancaster railroad, which passes through Phoenixville, the French Creek and Conestoga Valleys, to Lancaster city and Columbia. We learn from an authentic source that there is no truth in the statement that Mr. Vauderbilt has pur-chased the charter of the above named road, but it is true that he has had agents making a careful study of the road with a view of making it a connecting link of the Southern Pennsylvania road. It is also true that the managers of the Baltimore & Ohio road have an eye on the Delaware & Lancaster as an available branch of their road. There seems to be no doubt that the new road holds a valuable franchise, which will, ere long, be utilized.

An Insurance Agent's Trouble. The agents here of the Prudential Life insurance company of Newark, N. J., and

the Metropolitan of New York, are again having trouble. William Virgin, who represents the latter company has brought a suit against H. H. Snyder of the former place, charging him with libel, in circula-ting advertisements, which it is alleged misrepresent the financial standing of the Metropolitan. Snyder gave bail for a hearing before Alderman Fordney.

A Stone Mason's Death.

Jacob Gouchenaur, a well-known stone mason, died at his residence, at Quarryville, from injuries he received in handling some heavy stones in the wall of Amos Miller's new barn in Drumore. He had been suffering pain fully for the last two months. He was about 50 years old and leaves a wife and four grown children.

Assault and Battery.

Last night John Cherry was attacked on South Water street by a gang of five young men who gave him a terrible beating, cutting him badly in the face and blacking his eyes. He entered suit before Alderman McConomy against Florence Rehm and Charles Dickel, and warrants were issued for their arrests.

annub masned. Winfield Huber, a plumer in the employ of Flinn and Breneman, had one of his thumbs badly mashed last evening by striking it with a heavy hammer.

Astonishing Unconcern Little Record

Lancaster is still without that much talked of electric light, although the poles are up and much of the wire is strung. Perhaps the INTELLIGENCER is correct in its suspicion that the company which is to in troduce the light is waiting for the leaves to drop from the trees before it attempts to illuminate the streets, so that there wil be nothing to obstruct the progress of the light. But as this delay is not "so stipu-lated in the bond," it is astonishing to notice the unconcern of the authorities at the processes of a company which has already broken its agreement and forfeited its bond for not having the lights in posi-

Brimmer the Fire Bug. From information received the police of the city made a raid yesterday on two houses—one in the northern and the other in the southern section of the city—in search of Tid Brimmer, the escaped fire bug. Every assurance was given that Brimmer was at one or the other of the places named, and the greatest caution was observed to prevent his escape; but when the officers visited the suspected premises, peither Bimmer nor any one else was at

RESCUED FROM DEATH.

The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fail of 18761 was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the sum-mer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and med-icines. I was so far gone at one time a report went around that I was dead. I gave up hope but a friend told me of DR. WM. PARAGRAPHS FLASHED BY THE UABLE Great Expication in England-23 Men Supposed to Have Perished-A Strike at the cape Town Miner.

SECOND EDITION

FRIDAY EVENING, OCT. 19, 1893

London, Oct., 19.—An explosion oc-curred at midnight in the Wharneliffe Carlton colliery near Barnsley, Yorkshire. There were 23 men in the pit at the time of the accident and it is believed that all of them perished. Three bodies of the victims have thus far been recovered. Later particulars say that when the ex plosion occurred five men rushed to the bottom of shaft of the pit and were drawn up alive, though they were injured by the explosion. The men remaining in the pit numbering 20 were lost. A force of men is now exploring the mine in search of the

bodies of the victims but no others have

as yet been recovered. The falling in of

the roof of the pit delays the work of the searchers and it will be impossible to re-cover the other bodies immediately. It is supposed that the explosion was caused by a blast shot. Narrow Escape of 100 Men. When the tunnel under the river Severn was flooded yesterday, there were a hun-dred men inside of it. They barely escaped being drowned. Two of them fell from a ladder on which they were endeavoring to

The Western Wheat Crop all Right

Oulluth, Minn, Oct. 19—Interviews with the Duluth grain merchants show that it is the universal opinion that the reports from Minneapolis about the frosted wheat sensation are grossly exaggerated. Of all the wheat received here this fall, amounting to 30,000,000 bushels, not 10,000 bushels have been condemned on account of frost. The grain men think that the reports were started by the millers' association for purposes best known to association for purposes best known to themselves.
