RHEUMATIO SYRUP.

A Limb

YARDS.—NORTH PRINCE STREET, NEAR BRAD- And a Family Made Happy.

Mr. Philip Moore, of West Webster, Monroe County, N. Y., says: "My daughter, now eighteen years old, has, for the past eighteen months, ben afflicted with rheumatism in a has, for the past eighteen months, ben sfilleted with rheumatism in a very severe form. One year ago it settled in the knee, since which time she has been unable to touch her foot to the floor or move her limb without suffering the most excruchating pain. Her limb was fast growing out of shape, although we were doing for her all we could, having used all the remeties we could hear of and that were recommended for rheumatism, none of which benitted her in the least. Her case was pronounced incurable by the physician and by our neighbors, and all believed that she would be a cripple all her days, and that her limb would hape. But I am happy to say that to-lay my daughter is entirely free from all rheumatic pains, and that from all rheumatic pains, and that she can walk with perfect case, hav-ing thrown aside her crutches, and her limb seems as strong and per feat as ever; all from the use of your wonderful medicine "theumatic Syrup," which we consider one of the best medicines ever introduced for purifying the blood, and I only regret that all others who are afflicted with rheumatism cannot know of its superior merits. You are at liberty to use my name if it will do you any good, and I shall be only too gladtoteliany and everyone what it has done for my daughter."

PHILIP MOORE. her limb seems as strong and per

cents, \$1, \$1 10 to \$1 35. Gans' Report. Sales of seed leaf tobacco reported by J. . Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending October 29, 1883:

cases 1882 Ohio, 5(a.15c.; 200) cases 1882
Pennsylvania, 10(a.18jc.; 100) cases 1881
do, 9(a.11c.; 100) cases 1881
do, 9(a.11c.; 100) cases 1881
The lenses used in the Cellulate Factors 200 cases New England, 11(a)20c ; 200 cases 1882 Wisconsin Havans, 13(a.18c. Total, 2,600 cases. Philaderphia Market.

Prices of best brands of manufactured tobaccos have advanced 2(a)3 cents. Fine cuts are held at full figures, with an in-creasing demand for No. 1 goods. The cigar trade is prosperous, and all grades of igars are in full demand at fair prices. Sales of seedleaf have fallen off somewhat, owing largely to the fact that the great bulk of the '83 crop has already passed into the hands of manufacturers, There is a small, and gradually increasing demand for '80 and '81 Pennsylvania, Havana and Sumatra are in good demand at slightly increased figures. The receipts of seed leaf during the week were about 1,400 cases, and 150 hhds, of Virginia and Western; 120 bales of Havana and 82 bales of Sumatra. The sales were 1,000 cases of domestic seedleaf, 47 hhds. West-ern, 87 bales Havana, and 58 bales Su-

matra. Exports during the week, 5,866

The Laucaster Market. The market for cased tobaccos has been Saved hany of the dealers are indisposed to make public their business transactions, but it is known that from 400 to 600 cases of '80 leaf were sold, from 600 to 800 of '81 and not less than 600 of '82. Of the 81 crop M. Neuberger & Co., of New York bought 258 cases from Schindle & Hershey of this city, and 135 cases from J. S. Hoover, of Mountville. The acknowledged searcity of good seed leaf in the bands both of dealers and manufactur-ers, and the difficulty of securing it in sufficient quantities, has driven the trade to view more favorably the crop of '81, which was bought at high figures, and very soon afterwards given a "black eye." As the devil is said to be "not so black as he is painted," so the '81 Penn-sylvania seed leaf is beginning to be acknowledged to be "pretty good after all," and will no doubt soon find ready

purchasers. The '82 Pennsylvania continues to be the favorite. In asswer to a remark of ours that the best part of the crop had been picked up and that purchasers would now have to be content with second rate goods, an enthusiastic buyer replied, "It is all good down to the last leaf.

About half a dozen buyers are in the

field looking after the crop of '83. The small patches of Havana seed have nearly all been bought up, the best lots bringing as high as 30 cents. A few dozen small crops of seed leaf have also been bought on the poles, at prices ranging from 15 to 28 for wrappers. No general move has been made, however, to lift the crop, and it is not likely that one will be made until it shall be taken from the poles and stripped. The sad experience of '81 is not yet forgotten, and the very warm, wet, muggy weather we have had is not at all favorable to the curing of the crop, and unless far-mers are very careful they will sustain heavy losses from mould and pole rot. An old and experienced grower says the to bacco should not be stripped in its present condition nor until it has had a freeze, and then great care should be taken to remove all mouldy or damaged leaves, lest they damage the good ones. One point appears to be agreed to by everyone-that the

tion of the crop will be really good?" and that question cannot yet be answered. A correspondent of the New York Tobacco Leaf, writing from Connecticut,

What up to a comparatively recent pe-

says: "Tobacco in the Connecticut valley and Massachusetts section—Northampton, Hatfield, etc.—is booming, or better, there

27, 10 a. m. rush to the poles, not to vote, but to pro-cure their part of this year's crop. As high as 18 to 20c. is being paid by a good Very quite it was in the market, much to the satisfaction of packers. For them a quiet fall and winter means cheap purchases in the country. This calculation to 18c is offered, and in many instances refused. Not only the far seeing speculais very much apt to be upset this season. Outside of packers of '82 Connecticut native seed all others have made money, and will make money. The '82 was bought low; whatever has been sold of it so far tor, but the local packer and farmer is fully aware of the fact that the entire seed leaf crop of 1883 is a short one." be seen that the Connecticut figures has been sold at very profitable rates; and are not as high as the Lancaster quotawhatever is held, barring low and common packings, will realize handsome pro-fits. It is but natural, therefore, that growers will ask and do ask more money for riod was considered a worthless, or almost worthless, article in the eigar manufactheir '83 crops, and if they have something good they will get it. The main searches turing industry, is an article that is to day in great demand, viz : The stems of Hafor '83 tobaccos by packers now are for Havana seed. Of this more has been vana leaf tobacco. The mode of preparing grown this year than over before, and it is them for use is very simple. They are cut up by machinery into pieces about one-quarter of an inch in length, after which safe to predict that in '84 most all tobaccos raised in the United States will be from Havana seed. With the application of they are placed in a grinding machine and ground. In that condition they mix in still more care and continued experiment these tobaccos will become the best wrapnicely with scraps, imparting to the cigar ping material grown in the world. But as the desired Havana flavor. yet the limited quantity of '82, and even that of '83, permits of the importation of There is no fool like an old fool! Yes there is! It is the young fool who knows everything and persists in suffering with a severe cold rather than take that wonderful remedy, Dr. Bull's Cough Syrup. foreign wrappers. Our market has very little of the '82 in first hands, or even in dealers' hands. Manufacturers secured it early in the season. For tine wrapping

the market, and a little more buoyancy was noticeable thereafter.
