MACHINERY.

HAVING DISSOLVED PARTNERSHIP and permanently closed the Chestnut Street Iron Works, I desire to inform my old patrons and the public generally, that I am still in the business, being located in the Penn Iron Company's Works, North Plum street, where I am making Iron and Brass Castings of every description, and will be pleased to serve all who may favor me with their patronage. From 40 years experience in the business and using the best material and employing the best mechanics, I am satisfied I can guarantee entire satisfaction. Castings made from a mixture of iron and steel which are more reliable for strength and durability than the best cast iron known. V teeth roll pinions, rolls and rolling mill work a specialty. Castings made of very soft iron, and brass castings of every description. I have all the patterns of the well and favorably known MOWER Corn and Cob Crusher, refitted and improved. Also on hand, mills completely fitted up or in parts, to replace old ones which have been in use for years, guaranteeing them to give satisfaction.

MEDICAL.

CUTICURA REMEDIES.

BAD BLOOD.

SOROFULOUS, INHERITED, CONTAGIOUS.

In 1879 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased and then the suffering began in earnest. Raw Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1880, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer has healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Custom House New Orleans.

Sworn to before United States Commissioner. J. D. CRAWFORD.

TO CLEANSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores, nothing equals the CUTICURA REMEDIES. Cuticura Resolvent, the new Blood Purifier, Diuretic and Aperient, and Cuticura and Cuticura Soap, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The trail has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. CHAS. A. WILLIAMS.

BENSON'S POROUS PLASTERS.

THAT SETTLES IT.

Brought Into Competition with the World, the Best Carries off the Honors

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal awarded to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

Dr. WM. ROTH, Surgeon-in-general, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the Last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical fraternity, both in the United States and in Europe, quickly threw aside the old slow-acting plasters they had been using, and adopted Benson's in their regular practice. First physicians and surgeons of the broadest reputations did this, distinctly proving the intrinsic merits of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and mortified the successes of his predecessors of no more than twenty-five years ago. He accepts hints from all quarters and chooses and adopts demons rated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation and cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

THE DAY'S NEWS.

A TERRIBLE WESTERN CYCLONE.

The Tornado which Swept Over Missouri—Death and Destruction about Springfield—Other Recent News.

The cyclone yesterday passed about a mile north of Springfield, Mo. The house of John Ingles was blown down, not one stick being left on another, and the contents scattered. A new house and barn belonging to Jeff Wallace were entirely demolished. The house of Mrs. Linda Youngblood was blown down; John Ingles was badly injured internally about his head and face, and had his left leg broken.

Mrs. Ingles was badly bruised about the limbs; Walter Strong, who was sitting in Mr. Ingles' house, was badly shocked, and Mrs. Strong was seriously injured internally. Mrs. Walter's son was seriously hurt, as is also one of Mrs. Youngblood's children. Mr. Ingles lost everything that was in the house, as did also Mr. and Mrs. Strong and Mrs Youngblood.

At Brooklyn the cyclone passed at 2:10 p. m. sweeping everything in its course. It passed west of the town. It path was about 300 feet wide. It blew James Garlin's house entirely away. The family were uninjured, except Mr. Garlin, who was about the premises and who was severely wounded. The top of Philip Garlin's house was blown off and his entire crop of wheat blown away. Isaac Boone's house was blown down. Mrs. Boone was bruised and injured. Grandma Haberly was killed and John Haberly injured. James McCall's house was demolished. Geo. Haberly's house was blown down. Alfred Raddle was severely injured and a house and barn were blown down. In all seven people were killed.

CUT HIS THROAT WITH A RAZOR

Jacob Erb, Discouraged by Lack of Employment, Kills Himself at a Hotel.

A quiet mannered man, apparently about thirty-five years old, registered at the Irving house, on Walnut street above Ninth, Philadelphia, on Monday evening. He scribbled his name in a cramped, almost illegible, hand as Jacob Erbe. Later in the evening, Mr. Chadwick the proprietor of the hotel, went to the room assigned to the stranger, which was on the the third floor, and inquired for his address. He said that he came from near Pittsburg, where he was engaged in the oil refining business. He seemed cheerful, but somewhat excited and incoherent. He said he contemplated forming a connection with an oil firm on Arch street, near Second. He was rather cramped for money, he said, but was able to pay his bill at the house, he added, with a smile. The guest had not appeared at breakfast at ten o'clock and a messenger was sent to his room to arouse him. Failing in this, Mr. Chadwick ordered the door to be broken open. The body of the reputed oil refiner was found lying on the bed with the head almost severed from the trunk. The head hung over the edge of the bed, and the gaping wound extended from ear to ear. In his right hand was still firmly grasped a razor, which was clotted with blood. The weapon had severed the windpipe and the jugular vein. The matter was reported to Coroner Janney personally, and no report of the suicide was made to the police or at the coroner's office. Mr. Chadwick said he desired to keep the fact of the killing secret. The suicide's effects, consisting of a meerschaum pipe, two suits of clothing and a watch and chain, were given into Mr. Chadwick's charge by the coroner. He had but $2.85 on his person. In the dead man's pocket was found a letter addressed to Mrs. Erbe, care of William Rickerts, New Brighton, Beaver county, Pa. A letter written on an Irving house letter head was found directed to W. E. Cotter, Thurlow, Delaware county, and was signed J. Erbe. In it the writer said he was out of work and would like employment. Mr. Cotter is an oil refiner at Thurlow. The body was taken to the morgue and an inquest will be held today.

THE BROOKLYN BRIDGE CASE.

Arguments in the Supreme Court by Distinguished Counsel

At Washington the supreme court heard argument Tuesday afternoon in the Brooklyn bridge case of Abraham Miller, against mayor, alderman and commonalty of the city of New York, and others, a case which has excited much interest on account of the magnitude of the interests involved. The bridge company was incorporated for the purpose of constructing a suspension bridge across the East river, between New York city and Brooklyn. This bridge was required to be not less than 130 feet above high tide, and to be so built as not to obstruct the navigation of the river.

On the 19th of May, 1876, nearly seven years after the approval of the plan of the proposed bridge by the secretary of war, Abraham Miller, a warehouse man of Brooklyn, began suit in the United States circuit court for the southern district of New York, for the purpose of obtaining a decree that the bridge, was contemplated and erected, was without lawful authority When the case came to a final hearing before Judge Blatchford the complainant's bill was dismissed with costs whereupon he took an appeal to the supreme court.

William H. Arnoux, of New York, argued the case for the appellant. Reference was frequently made in the argument to the Chicago and Wheeling bridges, and the judges interrupted the argument and asked frequent questions. Mr. Joseph H. Choate replied for the city of New York and Brooklyn. Mr. Arnoux closing the argument. The case was taken under advirement.

THE MARQUIS OF LANSDOWNE.

A Number of Anonymous Letters sent to Him Threatening His Life.

Since taking up his residence at Bowood Hall, Ottawa, Oat., his excellency, the Marquis of Lansdowne, has received a number of anonymous letters threatening his life. The matter is being investigated, although his excellency is not greatly alarmed. It is believed that the letters are sent by mischievous persons anxious to annoy him, or, possibly, by some who are anxious to obtain employment as extra detectives.

It will be remembered that the Marquis of Lorne received a number of threatening letters last winter. It is scarcely to be believed that the scoundrels who would contemplate injuring the governor would take the precaution to warn him of their intentions beforehand.

SCENES OF AGONY.

Ten Persons Killed and Forty Injured by an Explosion.

At Roubaix, France, the fire yesterday was in Dellier's factory, in which 300 persons were employed. When the explosion occurred thirty women were working in the upper stories. The flames cut off their means of escape by the stairway and they leaped from the upper windows

The number of persons injured reaches forty. The scenes of agony which were witnessed while the victims were being extricated from the ruins are described as dreadful. Ten are known to have been killed.

A Coal Miners' Arbitration.

Being forced to accept a reduction in wages has wrought a change in the feeling of the coal miners of the third and fourth pools on the subject of arbitration. They held a delegate convention in Pittsburg Tuesday. President Costello stated that 2,000 miners were working at reduced wages and that unless they could be induced to strike, or the question settled by a board of arbitration, all the miners in the district would be compelled to accept a similar reduction. He plainly gave it as his opinion that a strike could not be successfully prosecuted, and advocated the arbitration plan. After a long discussion this advice was accepted, and before the convention adjourned a committee was appointed to confer with the operators.

A Switchman in Danger of a Mob.

At St. Albans, Vt., Thomas Flood, the engineer who was hurt in the railroad accident near North Enosburg yesterday, died this morning. A man named Pelkie, from Glen Sutton, Quebec, had his leg broken and two other passengers were slightly hurt, all by jumping from the cars. Edmund Ellis, who was arrested last night at Richford, confessed that he turned the switch, but claims that he thought it was the gravel train that was coming and that the switch should be turned. A hearing was had at Econburg Falls to-day. Ellis was committed to jail without bail for trial next April. Ellis was met at St. Albans by an immense crowd of excited people and early this morning it was feared that he might be mobbed. The feeling is very intense, especially among railroad men.

Sale of the Fat Girl's Body.

The body of Blanche Gray, the fat girl who died at Baltimore two weeks ago, has been sold for a small sum of money to Dr. Alexander Hill, a surgeon of that city. It is said that Moses, the husband of the girl, immediately after the funeral went to the doctor and suggested that he would sell the remains, as he was afraid the doctors would have it stolen. The doctor wants the corpse for the skeleton, as that would be a great curiosity. Young Moses is now on exhibition at the Bowery Museum, New York, and will, it is said, go to Baltimore in a day or two to finally dispose of the corpse. It will be taken to one of the medical colleges and dissected. The price paid is reported to be about $25.

A baby was born in a cemetery at Marshalltown, Iowa, a short time ago, but every where can be seen babies borne to the cemetery because mothers cruelly neglect to procure Dr. Bull's Cough Syrup, a sure cure for croup, colds and coughs.

MAINE MEN.

From Bath, Me., we have received under date of May 15, 1883, the following statement of Geo. W. Harrison, the popular proprietor of "The Restaurant:" "A few years since I was troubled so severely with kidney and bladder affection that there was brick dust deposits in my urine, and continual desire to urinate, with severe, darting, sharp pains through my bladder and side, and again, dull, heavy pressure, very tedious to endure. I consulted one of our resident physicians, but I received no benefit from the treatment, and fearing that my symptoms indicated 'Bright's Disease,' the most dreadful of all diseases, I made up my mind that I must obtain relief quickly or I would be past cure. I consulted my druggist, Mr. Webber, and after ascertaining my symptoms, he recommend it the use of Hunt's Remedy, as he knew of many successful cures effected by that medicine in similar cases here in Bath. I purchased a bottle, and before I had used the first bottle I found I had received a great benefit, as I suffered less pain, my water became more natural, and I began to improve so much that the second bottle effected a complete cure; and my thanks are due to Hunt's Remedy for restored health, and I cheerfully recommend this most valuable and reliable medicine to my friends, as I consider it a duty as well as a pleasure to do so."

"Being well acquainted with Mr. George W. Harrison at the time of his sickness, referred to in the foregoing testimonial, I can certify to the correctness of the statement made by him. W. G. WEBBER, Druggist.

"BATH, ME., May 15, 1883."

BLACKSMITHS' TROUBLES.

Having had occasion to use a remedy for kidney troubles, I noticed an advertisement in one of the papers of the remarkable cures that Hunt's Remedy had made all over the country. I purchased a bottle at one of our druggists here in Manchester, and after using it for a short time found that it was helping me wonderfully, and one bottle has cured me completely—have no indigestion, and am hearty and healthy for one of my years (65), and can truly say that Hunt's Remedy is a medicine that has real merit, and I do not hesitate to recommend it to the public in general. SMALL POX and PITTING of Small Pox PREVENTED.

A member of my family was taken with Small Pox. I used the Fluid; the patient was not delirious, was not pitted, and was about the house again in three weeks and no others had it.—J. W. PARKINSON, Philadelphia.

DIPHTHERIA PREVENTED.

The physicians here use Darbys Fluid very successfully in the treatment of Diphtheria.—A. STOLLSWERCK, Greensboro, Ala.

Tetter dried up.

Cholera prevented.

Ulcers purified and healed.

In cases of Death it should be used about the corpse—it will prevent any unpleasant smell.

The eminent Physician, J. MARION SIMS, M. D., New York, says: "I am convinced Prof. Darby's Prophylactic Fluid is a valuable disinfectant."

AYERS' SARSAPARILLA.

THINK OF IT NOW!

Although much is said about the importance of a blood purifying medicine, it may be possible that the subject has never seriously claimed your attention. *Think of it now!*

Almost every person has some form of scrofulous poison latent in his veins. When this develops in **scrofulous Sores, Ulcers or Eruptions**, or in the form of **Rheumatism**, or **Organic Diseases**, the suffering that ensues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that

Ayer's Sarsaparilla

will thoroughly eradicate this evil from the system. As well expect life without air as health without pure blood. Cleanse the blood with AYER'S SARSAPARILLA.

Corkscrews are now "the rage." Not particularly the kind used in opening bottles, but the Corkscrew Cloths we have so elegantly made up into Suits and Overcoats.

Examine them and note the Low Prices.
