HAGER & BROTHER.

About Buibs,

It is pleasant to notice that within the last decade the cultivation of the fam ily of bulbs has considerably increased, though not nearly to the extent they should be. These flowers, with the single exception of the rose, take precedence in point of beauty and attractiveness over all others. The first half of November is perhaps the most snitable time to set out nearly all varieties of the bulb, including the Hya-cinth, Tulip, Narcissus, Snowdrop, Crocus, Japan Lilies, American Turk's Cap, Grant Lily, etc. The Gladiolus does best when potted late in October, or not later than the middle of November. Take eight or twelve good sized pots and fill them with the largest mass of corms or bulbs the pot will admit, and place the pots in the con-servatory or wherever there is a sufficiently middle of April plant them out in rows A REAL SKIN CURE. about one foot apart and three or four inches deep. The Crown Imperial ought to be taken up and replanted as soon as they are done blooming and the flower stalks are decayed; but they can also be taken up in autumn, buried in sand in the cellar and set out in April. All these require a deep, rich, sandy or very light soil, and except the Hyacinth and the Gladiolus, it is not necessary to take them up and replant yearly. Indeed, we seldom replant the Crocus and Snow-drop, except for the purpose of extending the bed. The Tulip should be taken up about every third year; the Lillies every year. Those taken up should be pre-served in sand through the winter, occasionally moistened a little in the cellar or a pit and placed on shelves. They must be protected against mice or they will play have with them; and this can be done by covering them with sand or soil.

We walk in the midst of secrets, we are encompassed with mysteries, but it is an open secretthat, there is no remody in the world so wonderful as Dr. Buit's Cough Symp for coughs and colds.

A Rope About our Nicks.

A weak stomach or enteebled circulation is like a rope about our neeks. We are strong up and unstrung alternately till existence becomes unbeavable. Burdock Riood Buters will arrest all this misery. A Baptist Minister's Experience.

"I am a Baptist Minister, and before I even thought of being a clergyman. I graduated in medicine, but left a lucrative practice for my present profession, & years ago. I was formany years a sufferer from quinsy: "Thomas Electric Oil cured me." I was also troublest with hoarseness, and Thomas Electric Oil all-ways relieved me. My wife and child had diphtherla, and Thomas Electric Oil cured them," and it taken in time it will core seven out of ten. I am confident it is a cure for the most obstinate cold or cough, and if any one will take a small teaspoon and half fill it with the Oil, and then place the end of the spoon in one nostril and draw the Oil out of the spoon into the head by sniffing as hard as they can, until the Oil falls over into the throat, and practice that twice a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deatheses and earneds it has done wonders to lay certain knowledge. It is the only medicine dubbed patent medicine that I have ever telt like recommending, and I am very anxious to see it in every place, for I tell you that I would not be without it in my bouse for any consideration. I am now suffering with a pain-like rheumatism in ray right limb, and nothing relieves me like Thomas' Eclectric Oil."

THE HARD-WORKING MAN.

He was a hard-working man, and for a good many years he had been working twice as ard as any man ought to work. He said he had a spiendid constitution, and that he could stand it.

He torget that as years passes on the waste of the system is much greater than in youth, thile the repair of it is less. He became weak, debilitated, nervous, and despondent, He regarded the future with read, and said he had worked himself into an untimely grave.

RHEUMATIC SYRUP.

A Limb

Mr. Philip Moore, of West Webster, Monroe County, N. Y., says: "My manugater, now eighteen years old, has, for the past eighteen months, ben afflicted with rheumatism in a very severe form. One year ago it settled in the knee, since which time settici in the knee, since which time she has been unable to touch her toot to the floor or move her limb without suffering the most exeru clating pain. Her limb was fast growing out of shape, although we were doing for herall we could having used all the remedies we could hear of and that were recommended for rhoumatism, none of which benitted her in the least. Her case was pronounced incurable by the physician and by our neighbors, and all believed that she would be a crippie all her days, and that her limb would ever be restored to its original shape. But I am happy to say that to-uay my daughter is entirely free from all rhoumatic pains, and that she can walk with perfect case, having thrown aside her crutches, and her limb seems as strong and per her limb seems as strong and per fect as ever; all from the use of your won-terful medicine "Rheu matte Syrup," which we consider one of the best medicines ever inone of the best medicines ever introluced for purifying the blood,
and I only regret that all others who
are afflicted with rheumatism can
not know of its superior merits.
You are at liberty to use my name
if it will the you any good, and I
shall be only too gladio tellany and
everyone what it has done for my
daughter.
