#### Secthing Europe.

Unless all present signs fail, continental Europe is going to find plenty of use for her armed millions before the year ends. The Spaniard has been the stormy mingling of the thin blocd of Valois that Spanish quarrels bred national wars. It was the suggestion of the coming of a Hohenzollern king that brought destruction to the Bonaparte empire in 1870 ; it looks very much as if the visit of the Hohenzollern crown prince was buccaneer of the Bonaparte sort.

We have been shown two cartoons which aptly represent the campaign methods in ogue nearly 40 years ago. In those days it was the custom for the Whigs and Democrats to seize upon the prominent features of the party policy of either and endeavor to belittle them by ridiculous caricatures. These were hung on the tavern wall and often adorned the residence of the ardent party adherent. One of the cartoons alluded to represents the struggle over the Texas and Oregon question, and is decidedly Whig in its sympathies. THE attempt of Mahone to create an issue on the color line or to break the force of his recent crushing defeat by exciting the indignation of Northern Republicans over alleged outrages upon and intimidation of the negro voters is foredoomed to be a failure. The two significant facts cited by the Richmond Dispatch, that the Mahoneites polled more votes at the late election than ever before, and that the real intimidation of negroes is by their own race, together

with the testimony of the better class of Republicans in Virginia, prove that the recent elections in that state were fair and free and that the result is final judgment against Mahoneism. ----

The Virginia Election.

In reply to Senator Mahone's recent address the Richmond Disputch makes the following statements : 1. There are nine negrocs elected to the

next general assembly. 2. There were about five thousand negro votes cast in this city.

3. There were more than three thousand negro votes cast in the county in which Danville is situated. How did it happen that the large vote was given by bulldozed negroes. 4. There were, it is estimated, 100,000

negro votes cast in the state. 5. The Mahoueites polled more votes at he late election than they ever did at any

previous election. A negro orator was among the speak. ers who addressed the crowd in front of our office the next day after the election. 7. A negro club joined in the procession which celebrated the Democratic victory of the 6th inst.

8. In Gen. Mahone's own town several hundred negroes voted the Democratic ticket.

9. The negroes are much more afraid of offending their own race than of offending white men. This is a rule to which there are of course exceptions. We think it likely but for this fear of their own race thousands of negroes every year would vote the Democratic ticket. Our Democratic leaders must solve the problem. The negro must be freed from the apprehensions we speak of, and be made as free to vote the Democratic ticket as the Repub lican. Negro trustees and negro teachers appointed under Democratic laws, and being Democrats themselves, will perhaps omplish that desirable end.

10. We specially commend the following testimony from a Republican paper published in Henry county, which adjoins the county in which Danville is situated. We quote from the Martinsville Herald, edited by L. S. Thomas, esq., whose father the late C. Y. Thomas, was a Republican in the dark days of reconstruction. The son is as true a Republican as was the father

A YOUNG GIRL MURDERED.

A Burrible Crime Committed by Two itagi ans Near Orange, N. J.

About 3 o'clock Saturday atternoon Pheebe Jane Poline, a bright and handsome miss of seventeen years, left her nome near Eagle Rock, West Urange, to make some purchases. She never returned alive. She resided with her parents opposite Goss' stone quarry on the Upper Livingstone road, over the mountain. It was her intention to remain over night at a friend's house near Orange. Before reaching the house it appears that she was attacked on the highway by two ruffians, who outraged her and then murdered her. The blood on the roadside shows that there was a terrible struggle. During the struggle the girl was stabbed twice in the neck. but not fatally. To stille her cries for help the ruffian then began to whoke her, as the bloody imprint on her neck of the murderer's hands and lingers show. Her assailant stabbed her again in the neck, killing her. They then dragged the body into the woods, a distance of thirty feet, where it was found yesterday by a man and his son, who were ascending the mountain.

County Physician Hewlett, of Newark, was notified. He made an examination and took the body of the murdered girl to her parents' home. The doctor is satisfied that robbery was not contemplated, because the girl's watch, chain and money were not disturbed. The murderers have escaped, but the authorities claim to have clues which will lead to their arrest.

#### The Boys Wake Up the Wrong Passenger Saturday evening a gang of seven or ght young ruffians who had been mak ing night hideous from 8 o'clock till mid hight, knocked at the front door of Wm. Walton's residence in Breneman's court with a view of getting him to come out so that they might "put a head on him." Walton opened the door to see what they wanted, when they immediately asaulted him, some of the gang swearing they would kill him. Walton defended himself valiantly and soon had two or three of his assailants placed hors du combat, whereupon the rest of the gang fied from the field of battle. Walton yesterday made complaint against four young fellows named Miller, Carney, Hoover and Pryor, and they were arrested. Hoover entered bail, and the three others were locked up for a hearing before Alderman Alexander

Donnelly. GUNNING ACCIDENT.

### A Man's Arm Badly Shattered.

On Saturday as Lawrence Seigler, aged 4 years, was returning from a gunning expedition along the banks of the Cones toga, in the Seventh ward, this city, his gun was accidentally discharged and a heavy load of bird shot entered his arm near the wrist, passed through it diagon ally and came out near the elbow. The arm was fearfully larcerated, and the bones badly shattered. It appears that Mr. Seigler was getting over a wire fence and that the hammer of his gun was lifted by being caught on one of the wires of the fence, discharging the weapon while its muzle was close to his arm. The wounded man bled profusely and soon fainted from loss of blood. He was carried to his home No. 110 Low street, between Freiburg and tockland, where he was attended by Drs. Burger and Mr. L. Herr, who removed several pieces of bone from the shattered limb, and placed it in a box of plaster paris in hopes of being able to save it. But fears are entertained that amputation

The Thieves at Worn Last Night.

Last night thieves broke into the cellar of Joseph L Leaman, at Camargo, and stole the meat of one hog, a lot of butter and other eatables. They then went to the stable and stole Mr. Leman's bay mare and a light spring wagon. The animal is 16 hands high, 16 years old and has one white foot in front and another behind. It was believed that the team was stolen for the purpose of hauling away the plun der and that it would be abandoned. This morning different parties started in search

of it, but nothing has yet been learned. W. F. Grace, of West Grove, Chester county, telegraphs that he had a light bay mare, with three white feet, and a light

Brewster buggy, stolen last night. On Friday night last, a bay horse 15 hands high and ten years old, and having two white feet, a black buggy, bathen trimmed, were stolen from Hauover. York county. The thief is said to be a man aged about 38 years, weighs about 200 pounds, wore a dark blue suit of clothes

and had a monstache slightly mixed with gray. Last night a horse, buggy and set of harness, belonging to a man named Shaum, were stolen from a stable on Middle street, which is immediately in the rear of the building used as a station by the electric light company.

kunaway Accidents, Last evening as a young man in the employ of Mr. Stark was driving with his horse and wagon near West King and Charlotte streets, the horse took fright and ran off, throwing the driver from the wagon, but not seriously hurting him. The horse ran along Charlotte street to Orange, where the wagon struck a buggy belonging to Henry Detweiler, upsetting the buggy, damaging it a good deal and knocking down the horse. The runaway horse at this point also became detached

from the wagon to which he was hitched, and which was also badly damaged. On Saturday evening a horse belonging to George Streobert was hitched to a post on East King street by its owner, who went to attend to some business. Some

mischievous boys unhitched the animal, which started to ruu away just as Streobert was returning. He ran alter the borse and fell as he was about catching him by the head. The wagon passed over the man and he was badly bruised and cut. He was taken into the office of Dr. George A. King, where he received proper medical attention, and was afterwards removed to his home.

### THE ELECTRIC LIGHT.

"Shocking " Accident to an Employe. On Saturday night the electric lamp at the corner of High and Filbert streets, in the Eighth ward, did not burn well and Mr. H. Yarnell, one of the Maxim company's employes, was called to fix it. He incautiously took hold of both sides of the lamp which closed the circuit and the elec-tric current passed through his body, and of course he could net let go his hold on the lamp, and for a short time he was subjected to a terrible "shock." Fortunately some persons were present and pulled him away from the lamp. His hands are badly burned where they thouched the wires, but otherwise he is not much injured. The policemen report that during Satur-
