MEDICAL. WHEELER'S REMEDIES.

and Women know ere this that of the many diseases and derangements of the body each has a separate cause or origin, and that each needs a different method of treatment in order to effect a circ, and a moment's reflection must convince that any of the quack nostrums toisted upon the public claiming to cure all of a number of diametrically different diseases must prove failures, even if we do not call them humbugs.

POOR PEOPLS

and people of moterate means, and even people well-to-do or wealthy, first that the enormous charges of practisting physicians are a serious burden to them, and also find that after paying themselves poor that no benefit has accrued to them, that in fact they have thrown their money away. To overcome these evils weoffer Wheeler's No. 95 bure Remedies to the sick and suffering one Remedy for each discase, without for a moment claiming that one remedy will cure any other disease than the one claimed for it, and as these remedies have stood the test of years without a single fallure, we agree to refund the money paid in every instance where a cure is not positively effected. The remedies are entirely vegetable, can do no harm, and will positively cure every disease for which they are prescribed.

RHEUMATISM,

jout, Lameness of Joints, Sciatica and Neu-Gout, Lameness of Joints, Sciatica and Neuralgia are relieved at once and positively cured by the use of Wieeler's No. 36. Rheumatic Remedy. We say boldly that in the worst of cases of no matter how long standing, how serious, or how painful, we can not only give relief but positively cure for all time. Failing to do this we will positively refund the money paid for the treatment, and if your sufferings are not positively stopped for all time you have not thrown your money away as you would on any other than these guaranteed remedies. Th price of Wheeler's No. 36 Rheumatic Remedy is only 50 cents obtainable from any druggists, or sent free by mail on receipt of price. Stamps taken.

Many a lady, endowed by nature with a pretty face, beautiful figure, faultiess complexion, as well as the sweetest of tempers and faultiess mental qualities grows prematurely old, gray and wrinkled, her form loses its perfect contour, the complexion becomes sallow, the brightness leaves the eye, a feeling old languor takes the place of the once buoyant spirits, an irritable nervous fractiousness makes life a burden, things that once were trifies worry her until lite becomes unbearable. All this being caused by the physical derangements so common to women, which the innate modesty of feminiae nature prevents their making known, and of which the ignorance of the medical profession prevents a cure. Lady Reader, pause and consider, 'its a duty you owe yourself, your family and your God, that you should cure yourself of these frombles and once more feel the glow of perfect health and spirits that nature intended for you. Wheeler's No. 36 Prescriptions are pleasant and palatable to aske, contain nothing of an injurious nature, and may be taken by all ages, at all times and in all conditions, without possibility of itle efects, and will positively cureany of the peculiar diseases to which females are subject. Failing to produce a perfect cure the proprietors will refund the money paid for the treatment. If you have a sensation of the reatment and treinflum headaches, hervousness, hysteria and similar symptoms, Wheelers No. 36 Prescription "R" will positively restore you to be sith. If you have a sensation of heat and throbbing in the back, frequent hanting spells, Leucorrise or white discharge, paintul or scalding sensation in urine, hot and dry skin, Wheeler's No. 36 Prescription "R" will give immediate and lasting relief. The price of Wheeler' No. 96 Prescription "B" and "C" are 50 cents each, obtainable from druggists or sent by mail secure from observation post paid on receipt of price. Postage stampstaken.

POLYGAMY.

WHAT TO BE DONE WITH IT.

And What About the New England Sort-Sermon from an Editor Some Proposed Remedies.

According to the Rev. Dr. Bacon, two forms of polygamy are practised in this country. They are the straightforward polygamy of the Mormons of Utab, and the practical though unvowed polygamy rendered possible by the divorce laws of New England especially.

There is a great difference between the two, however; for the Mormon polygamist supports all his wives and their children, while the New England polygamist gets rid of one wife by divorce proceedings before he takes another. The Mormon polygamy, therefore, seems to be in some important respects morally superior to that practised by professed or nominal Christians. If a Mormon wants a new wife, he may get one, but he is not released from obligations to his other wife or wives. He simply adds her to the household over which he presides. The divorce laws of many of our states, however, enable a man to have several wives in succession, supporting only one of them at a time, though all may continue alive, and though none may have broken the marriage contract as it is interpreted by the church which solemnized the marriage

Both of these two forms of polygamythe one sanctioned by a religious faunti-cism, but condemned by civil law, and the other condemned by religion, but permitted by law-are now prominent sub jects of discussion. To get rid of the Mormon polygamy, General Rosecrans would introduce into the constitution an amendment prohibiting it; Edmunds would declare vacant all the elective offices in the territory of Utab, and impose their duties on a board of five persons to be appointed; and, finally, President Arthur advises the abolition of the territorial government and the assumption of absolute political control by

Congress. To stamp out polygamy at the East, some people are urging a constitutional amendment giving Congress power to secure a uniform system of marriage and divorce, and others want the state laws to be brought into harmony in regard to those subjects, so that divorce shall nowhere be granted except for adultery, and the old distinction, preserved in this state, between divorce from bed and board and divorce from the bonds of matrimony,

shall be made. We have learned, however, from experience that, whatever the laws, the Mormons will continue to practice polygamy under the precepts and sauction of their religion. The only really efficient way of breaking up the Oriental custom there is to convert them from Mormonism, unless, indeed, we leave polygamy as they practise it to die out of itself, as it surely will do with the lapse of time and the increasing population of their territory. Polygamy cannot long subsist by the side of monogamy, at least the regular polyga my. It is too expensive, and monogamy is naturally preferred by women. But an institution which is dving out from natural causes may get new life from oppo-

is founded in religious fanaticism. The prohibition of polygamy in the onstitution, the abolition of the territorial government of Uah, the making of any devisable laws against polygamy, will Mormons believe that in taking many wives they are obeying the higher law. And the more you try to drive them against their wid, the more stubburn their resistance is sure to be.

As to our Eastern polygamy, as Dr. Bacon calls it, the main remedy proposed a constitutional amendment and a uniform marriage and divorce law by Congress, is not to be thought of for a moment. regulation of marriage and divorces belong to the states, and the transfer of powers which belong to them to the Federal government would encourage evils of far more momentous cousequences than those which can be referred to their present inharmo-nious divorce laws. The great danger which menaces this country is political centralization.

And what reason is there for supposing that Congress would enact a divorce law more stringent than the laws of the state? At the meeting of the Congregational club of this city on Monday, ministers advocated the constitutional amendment and the uniform divorce law, because divorce "was spreading so rapidly and doing so much to annihilate the most sacred form of social existence, marriage. "As things are now," said the Rev. Dr. Ingersoll, "I can get married here and go to some other state and get unmarried.' But suppose you got the constitutional amendment and the uniform divorce law from Congress, might not the divorce be made all the easier for you? Congress might allow you to get unmarried without taking the trouble to go to another state. Whatever the law one Congress passed, and however few the causes of divorce it allowed, another Congress might give us as free a divorce law as that of Rhode Island, for instance. The religious people who want to trust the preservation of the sanctity of marriage to Congress becau-e state Legislatures do not regard it, show a very unreasonable reliance.

The sanctity of marriage suffers in these days because religious faith has declined. Divorces are more frequent because lawmakers and those who lived under the laws regard marriage as a civil and not a reli gious contract. They are encouraged, too by ministers who are ready to marry divor-ced people though the divorces were obtained in violation of the religion they

The great remedy for divorce which the clergy should concern themselves about a the conversion of people to Christianity. After that, the church should treat divorce as a sin and remarriage as adultery, if the divorce is obtained for other reasons than those allowed by religion. The Roman Catholics have no trouble about the matter, for they recognize no divorce at all, whatever the law, state or federal. The sauctity of marriage, and marriage itself as a religious institution, must be preserved and defended by religion. When the state deals with it, it can only be as a civil contract.

A Sketch of Gutteau. Colonel Crook, who signs land patents

tion. Colonel Crook says that Guiteau came up to his desk on that day and borrowed two or three sheets of paper. He was very impudent and was very indignant because Colonel Crook gave him plain paper instead of the official paper. Colonel Crook said very shortly:

"You can take that or none." Then Guiteau said, with a thump upon his breast: "Perhaps you don't."

Important-If True. Philadelphia Becord. In a recent essay read before the statis-tical society in London Mr. Giffen, a writer whose careful exactness will hardly be questioned, shows that in the past fifty years, which cover the progress of the free trade experiment in England, wages have risen from 30 to 100 per cent. for 20 per cent. less work. On the other hand, the prices of commodities, except ing meat and house rent, have almost un iformly declined. "The cost of government to the workingman," says the Pat Mall Gazette, reviewing Mr. Giffen's essay, has been greatly diminished; the ser vices which government renders to him in the post and telegraph service, in educa-tion, in factory inspection, and so forth have been greatly increased. And all these advantages combined have led to a real advance in his material and moral condition. The mean duration of life among males has risen from 39.9 to 41.9 years. The consumption of corn has risen from 42.47 to 216.92 pounds; that of tea from 1.22 to 4.58 pounds, and that of sugar from 15 20 to 58 92 pounds annually per head of the population since 1840. The number of children in attendance at state-aided schools has multiplied more than tenfold in thirty years; the cost of pauperism during the same period has not only absolutely but relatively decreased and the savings of the working classer have increased twenty and thirty fold."

OH Found After Twenty Years.

Twenty years ago some prospectors dug for oil at Vermillion, a little town four miles West of Cleveland, O. They bored down more than 750 feet, rau out of funds and stopped, getting no oil. Three days ago Mr. Chas. Day, of Cleveland, went to Vermillion, bought the old well cheap cleaned it out and sank a shaft just eight teen feet below the bottom of the old hole The result was a flow of several barrels to day of what is pronounced the best lubricating oil, and declared equal to Mecca. This comes to the surface with a gush, no pumps having been put in.

ARMY OF THE POTOMAC.

On the Chickshominy. Under date of May 8, 1883, Col. F. S. Tibbitts. | Perry Davis's Pain Killer of Dover, N. H., sends us the following While on duty in the army of the Potomac, in the swamps of the Chickahominy I con tracted a complication of diseases that culminated in spinal trouble, paralysis on one side, and severe disease of the kidneys and bladder, and great urinal weakness. For a long sition, or from what its supporters can time I was under the treatment of the best construe as persecution, e-pecially when | physicians, and tried many of the so-called remodies, but received no permanent benefit. When I was in the drug business in Boston I heard tavorable accounts of the efficacy of Hunt's Remedy for discusses of the kidneys and orinary organs, and having decided to not crush out the practice so long as the give it a trial, I purchased some at Wingate's drug store, Dover, N. H., and have received great relief from using it. The severe pains n my back are removed, and I am able to sleep soundly and obtain rest at night-which for so long a time I could not do, and the weakness in the urmary organs has been reeved, and I greatly regret that I did not test the great merits of Hunt's Remedy when I was first taken sick, as I am conflicent to would have saved me from several years of suffering and I am more strongly convinced of this after hearing of the most remarkable cures effected by Hunt's Remedy in a case of Bright's Disease here in our midst in Dover, after the patient had been pronounced incur able by celebrated physicians."

Mr. Tibbitts is a retired druggist, formerly ocated in Boston, and is a thoroughly reliable citizen, -Con. En. U. S. POSTAL SERVICE. il. S. Whitney, assistant postmaster, Put-nam, Conn , writes May 3, 1883 : "I have used Hunt's Remedy with the best results. I have suffered untold agony tor eighteen months with kidney and liver complaint; my water was very bad, at times I actually passed blood. This was followed by general prestration-My business required me to be on my feet most of the time made my case worse. I was advised to use Hunt's Remedy by a friend who had been cured by it, and can truly say that it has benefited me more than all the other recilcines I have used. I consider if the best medicine for kidney and liver troubles, and cheerfully recommend it to all.

Mr. Philip Moore, of West Webster, Monroe County. N. Y., says: "My daughter, now eighteen years old, has, for the past eighteen wonths, ben afflicted with rheumatism in a very severe form. One year ago it settled in the knee, since which time she has been unable to touch her foot to the floor or move her limb without suffering the most excructating pain. Her limb was fast growing out of shape, slithough we were doing for herall we could, haying used all the remedies we could hear of and that were recommended for rheumatism, none of which benefitted her in the least. Her case was pronounced incurable by the physician and by our neighbors, and all believed that she would be a cripple all her days, and that her limb would never "be restored to its original shape. But I am happy to say that to-day my daughter is entirely free from all rheumatic pains, and that she can walk with perfect case, having thrown as the her crutches, and her limb seems as strong and perfect as ever; all from the use of your wonderful medicine "Ehenmatic Syrup," which we consider one of the best medicines ever introduced for purifying the blooc, and I only regret that all others who are afflicted with rheumatism can not know of its superior merits. You are at liberty to use my name if it will do you any good, and I shall be only too glad to tell any and everyone what it has done for my daughter."
