TARIOUS QUACKS

Various Quacks.

-Kach With His Own Pet Scheme-Cul tivate the Field of Human Nature.

There have always been quacks -- legal and medical quacks. Some of them are bland olly fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be

neatly done. The dear publicare equally I beral to the electric and marnetic fraud. This fellow is a genius in his line. He will put a magnetic beit around your wat-t, a magnetic necklade under your chin, or fit you out with an entire suit of magnetic cloth, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-

cough to hasty consumption. Most of these have no more electric or mag netic power about them than resides in woolen blankets or in girdles of suckcloth, Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive fiscal year—that this amount is nearly exevidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in

the treatment of disease. Squarely on this foundation stands BEN-SON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of dislike, as Satan is said to hate holy

water. Look in the middle of the plaster for the word "CAPCINE," Price 25 cents. Seabury & Johnson, Chemists, New York.

CITY COUNCILS.

THE BLEUTHIU LIGHT AUCEPPED. A Wordy Discussion Over the Maxim Contract-The Mayor's Veto Sustained-

An Ordinance Relative to

Licenera

A special meeting of city councils was held last evening for the purpose of considering the question of accepting the electric lights erected by the Maxim electric light and power company. SELECT COUNCIL.

The following named members were present : Messrs, Baker, Baldwin, Brown, Diller, Evans, Wolf, Zecher and Borger, After the president had stated the object of the meeting, Mr. Wolf offered the fol-

lowing preamble and resolutions, which

were read twice by the clerk : The Electric Light Resolution. WHEREAS, The city of Lancaster has stered into a contract with the Maxim electric light and power company to light the city for the term of one year, such length of time each night as the Jamp committee shall direct, with 120 electric lights, each of 2,000 candle power; and WHEREAS, The city of Laucaster has agreed to pay said Maxim electric light

WHEREAS, In lighting the city with said electric lamps, the said company has not come fully up to the contract, therefore,

for the faithful performance of the same

Resolved, That from this date the police on duty each night shall be required to repo t each morning, through the chief of police, to the chairman of the 1 mp committee, the number of lamps not giving light and the location of such lamps; and that the city of Laucaster from this date will pay the Maxim cleatric light and power company for all the lights turnished. by it according to the contract, deducting such proportional sams, from time to time, as payments are made, as will compensate for lamps not giving the required

Resolved, That the above terms and conditions shall apply to all gasoline lamps which are or may be contracted for by the city of Lancaster. Discussing the Matter

Mr. Evans moved the a loption of the

Mr. Baker asked whether the adoption of the resolutions was to be considered on acceptance of the lights furnished by the Maxim company, and whether they are regarded as furnishing 2,000 candle

Mr. Diller thought the lamps furnished the requisite amount of light. The gasoline lamps were guaranteed to give 16 candle power, and it is well known some of them do not give 4. Mr. Baker said that two wrongs did not

make a right. If the gasoline company had not fulfilled its contract it was no reason why the electric light company should not fulfill its contract. He feared that if the above resolutions were adopted the company would regard it as an endorsement of their contract, and would demand full pay. The resolutions do not state at what time pay for the electric light is to communou. If the light is accepted at all, it ought to be assepted in accordance with the terms of the noutract, and only for that part of September 40, 1884, during which the company furnished satisfactory light. He thought the light was not now satisfactory, many citizens, had said so and the news papers all say so

Mr. Welf said the light was not perfect but it is becoming better every day. The company has speat thousands of dollars upon it; it is far better than any light we have ever had and the men who put their

money in it ought to be paid for it.

Mr. Evans made a speech in favor of the resolutions and said the electric light was ten times better than the gasoline, and the number of lamps unlit was not nearly so large as the number of unlit gasoline lamps about which we complant was

Mr Diller followed on the same side said that all who had seen our electric lights pronounced them for better than those of Reading or any other city in which the Arnoux light is used. He said the people of his ward (the Pitth) were delighted with the electric light; very few quacks, theological quacks, scientific quacks of the lights failed to burn brightly, while it was no uncommon thing for twenty or thirty of the gas dire lamps to be unlit night after night.

Mr. Brown also made a spench in favor

of accepting the lights, and a vote being taken on Mr. Wolf's resolutions they were adopted, the year being Messrs. Baldwin, Brown, D Her, Evans and Wolf; and the nays Messrs. Baker, Zacher and Borger, precident.

The Mayor's Message. The following message from the mayor was read :

To the Honorable, the Severt and Common Councils of the City of Lancuster: GENTLEMEN: I berewith return to your resolution transferring \$1 500 from the streets of the city.

The street department has already had over \$18,000 to do its work, and we find at the end of six months-half of the hausted. There seems to be some serious misapprehension in the minds of councilmen as to the appropriations for street purposes. By reference to the ordinance it will be found that there was appropri ated to pay for repair of streets \$8,000, for grading, guttering and macadamizing streets \$6,500, to which must be added \$3,000 taken from the contingent fund already for the street to build the Dorwart street sewer and \$625 collected by contribution to build the Rockland, Chestnut and Water, and Chestnut and Lime streets sewers. When the committee shall have exhausted the very small balance to its credit it will have spent \$18,-125, and have not made one square of macadamizing (which the ordinance seems to contemplate) in the city. As a fact there has been but one square of macadamizidg done in the city in two years. Councils by this resolution have been asked to lay aside the indebtedness should be reported each day, would induce which must be paid out of the contingent the company to give as much satisfaction fund to other creditors, that the street as possible. committee may present a clean sheet after spending \$18,125. This is altogether on-fair. On November 26, 1883, the treasurer's account showed the balance of the contingent fund to be \$1,482.34; yet on

December 5, 1883 common council votes to transfer \$1,500 from it to streets. Since time, better and better. by Daniel Trewitz, which with costs amounts to \$135.72. These two claims, added, and taken from \$1.482.24 or claims, berg, Eberman, Henry Market November 26 warrants amounting to \$7.73 amounts to \$135.72. These two claims, added, and taken from \$1.482.34 will leave Laughlin, Long, Remley, Riddle, Schum, a balance of \$1,339.61. How the \$1,500, Spaeth, Hurst—14. Nay—Adams. Al which councils have so generously voted to transfer can be taken out of this will bother the best of mathematicians. But the difficulty does not stop here. The

the difficulty does not stop here. The fellowing bills due and becoming due will have to be resident of the continuent fund or not the first woman," was the title of a lecture recently delivered down East. Estimated deficiency, June 1, 1881 \$2,167 02 Very respectfully, yours, JNO. T. MACGONIGLE,

Mayon's Office, Lancaster, Pa., Dec.

Mr. Evans said the mayor's message was very cheap piece of claptrap unworthy of the chief magistrate of the city. No ore knows better than he does that the \$900 for the pay of assessors and several other of the items enumerated in the message, will not have to be paid out of this year's appropriations, but next year; and he also knows that before the close of the fiscal year there will be enough money coming into the treasury to meet the demands

upon it.
Mr. Wolf also made a speech in support of the transfer of the appropriation and thought the street committee knew better and power company the sum of \$16,800 than the mayor what money was needed for their department. If the money was not in the treasury of course the treasurer would not pay it out, so there could be no harm done in passing the resolution over the mayor's veto.

The chairman put the question "Shall the veto of the mayor be sustained," and he yeas an I mays being called resulted as

Yeas-Masss. Brown, Zecher and Borer, president—3 Nays—Messrs, Baker, Baldwin, Diller, Syans and Wolf-5. So the mayor's veto was sustained, not

wo-thirds of the members voting to pass the bill over the veto. Adjourned. COMMON COUNCIL. President Hurst calle 1 common council

to order, the following members being present : Messrs. Adams, Albright, Bare, Boleni us, Cormeny, Demu h, Dinkleberg, Eberman, Evarts, Fraim, Fritsch, Henry, Huber, Kendig, McKillips, McLaughlin, Powell, Loog, Remley, Riddle, Schum, Spacth, Stormfeltz, Hurst-president.

The president stated that the reasons for calling this extra meeting were for the purpose of taking action on the electric light and for introducing an ordinance relative to the licensing of itinerant and non resident merchants. Mr. Schum introduced the following

A License Ordinauce An ordinance relative to the licensing of itinerant and non resident venders of

merchandise : "Be it ordained, etc., that no itinerant perchant or non resident of the city of Laucaster shall be permitted to sell either upon the public streets or highways or elsewhere within the limits of said city, any goods, wares or merchandize of any description without first procuring a licente therefor from the mayor at the rate of twenty five dollars for each day that sales are made ; and any such person so selling or undertaking to sell, as aforesaid, shall for felt and pay for every such offense, a fine or penalty of \$50, to be recovered in the manner in which debts of like amount are now by law recovered; provided, that the provisions of this ordinance shall not apply to farmers, hucksters, butchers and others selling meat, vegetables, fruits or provisions on the public streets or in any Tue of the markets of the city of Lancaster.' The ordinance was favored by most of

the principal merchants of the city. On motion the ordinance was referred o a special committee of three, consisting of Messrs, Riddle, Power and Bare. The committee retired for consideration of the ordinance, and then reported favorably. The Electric Light Accepted.

The resolution in regard to the contract with the Maxim company for furnishing the city with electric light, as read and passed in select council, was read in common council.

Mr. Evarts wanted to know whether they called the acceptance of the contract business. He said that the company did not come up to their contract; besides it has not had sufficient test. The company have been trying for months to have the light accepted by the city, and they had tried all along to make the lights satisfactory. If they could have done so they would have had the lights in an efficient condition long ago.

Mr. Powell said that the company offered to forfeit \$10,000 if they failed in their contract. We all know that they have failed. We all know that there is not an electric lamp in the city that gives the 2,000 candle power. Until they give lamps that do this the city should not accept them.

Mr. Riddle said there have been rumors

that the bond of the company is not worth

the paper on which it is written. Yet it honorable bodies without my approval, the did not matter to him whether the Maxim company was worth \$1,000 or \$10,000, if contingent fund to the appropriation for they gave the city the light contracted for macadamizing, grading and guttering the that was sufficient. He thought the matter should be consider d calmly. electric light is not perfected, but he has been told that the lights in Lancaster would compare favorably with those in any other city. He said that every night almost there are gasoline lights out in town; yet no one says anything about this deficiency in that contract. In Atlantic City, in Philadelphia and in other cities, he had seen electric lights burning dimly; and he did not suppose the lamp committee would object if there were lights not burning in this city on some nights. He thought a fair view of the matter should be taken. He felt that there was a sentiment all over town favorable to the acceptance of the contract. Mr. Riddle asked that the resolution be read again, which was done. Mr. Spacih was assured that it stands to reason that the company were honestly desirous of giving satisfactory light, and he was inclined to think the city should accept the contract.

Mr. Riddle said that the very fact of the watchfulness, enjoined by the resolu-tion, that the number of lights not burning Mr. Schum said that the lights were all

up, though he could not say whether they were all burning. He said that the lamp committee alone did not make this contract, it was done in conjunction with councils. The lights would become, in The yeas and nays were then called for

bright, Domuth, Evarts, Fraim, Fritch, Huber, Kendig, Powell, Stormfeltz-10. Adjourned.

I used the Fluid during our present affiction with Scarlet Fever with decided advantage. It is inclined and sick room.—Wx. F. Saxbord. Eyrle, Ala.
SCARLET FEVER CURED.

VANDERBILT UNIVERSITY, NASRVILLE, Tenn.
I testify to the most excellent qualities of Prof. Darby's Prophylactic Fluid. As a disinfectant and detergent it is both theoretically and practically superior to any preparation with which I am acquainted.

N. T. Lurron, Prof. Chemistry.
DARBY'S FLUID IS RECOMMENDED BY Hon. Alexander H. Scephens, of Georgia.
