RHEUMATIC SYRUP

A Limb Saved

And a Family Made Happy.

Mr. Philip Moore, of West Webster, Monroe County, N. Y., says: "My daughter, now eighteen years old, has, for the past eighteen months, been afflicted with rheumatism in a very severe form. One year ago it settled in the knee, since which time she has been unable to touch her foot to the floor or move her limb without suffering the most excruciating pain. Her limb was fast growing out of shape, although we were doing for her all we could, having used all the remedies we could hear of and that were recommended for rheumatism, none of which benfitted her in the least. Her case was pronounced incurable by the physician and by our neighbors, and all believed that she would be a cripple all her days, and that her limb would never be restored to its original shape. But I am happy to say that to-day my daughter is entirely free from all rheumatic pains, and that she can walk with perfect ease, having thrown aside her crutches, and her limb seems as strong and perfect as ever; all from the use of your wonderful medicine "Rheumatic Syrup," which we consider one of the best medicines ever introduced for purifying the blood, and I only regret that all others who are afflicted with rheumatism can not know of its superior merits. You are at liberty to use my name if it will do you any good, and I shall be only too glad to tell any and everyone what it has done for my daughter."

PHILIP MOORE.

LEAF TOBACCO.

A GREAT HUBBUB ABOUT SUMATRA.

New York, Philadelphia and Home Markets—The Year Closes Quietly—Opinions on the Sumatra Trade.

Trade in New York was very dull last week, only 750 cases of all grades being reported sold. The principal topic among tobacco men has been the decision of Secretary Folger that all packages of Sumatra containing less than 85 per cent. of wrappers may pass through the custom house on payment of 35 cents per pound duty instead of 75 cents per pound for unstemmed and $1 per pound for stemmed wrappers, as the law passed by last Congress contemplated. The secretary says, in reference to the ten bales of Sumatra leaf tobacco imported by Falk & Bro., after they had been repacked so as to make each bale contain a little less than 85 per cent. of wrappers: "The law does not specify how tobacco shall be packed, nor is there any limitation in the manner of packing. None of the bales imported contain, it is said 85 per cent. of leaf tobacco of the requisite size and of the necessary fineness of texture to be suitable for wrappers, and if so, none of it is dutiable under the provision referred to."

It is thus seen that by repacking Sumatra wrappers with 15 or 20 per cent. of inferior tobacco, the whole mass can be imported on payment of a duty of 35 cents. The cigarmakers are jubilant over the decision, and the growers and dealers of seed leaf are correspondingly down in the mouth. The latter have appointed a committee to go on to Washington and use their best efforts to have Secretary Folger reverse his decision, and if that cannot be accomplished to urge Congress to pass a new law that will more fully "protect" them against foreign competition. On the other hand, the cigarmakers are organizing a national union to resist the high duty on imported tobacco. The result of the quarrel among the parties interested has been to stagnate trade in the city. Says the *U. S. Tobacco Journal:*

"Some held that the absence of business in the market was due to the Sumatra tobacco agitation; some held that the last week of the year is always bare of business. Be this as it may, there was no business worth speaking about, and the year closes quietly indeed. While the Sumatra question undoubtedly depresses the spirits of holders of large quantities of nondescript tobacco, those having really fine tobaccos on hand still feel safe in their investments. Those having wanted to make purchases of '83 tobaccos are highly elated in the decision of the treasury department. They believe that the effect of this decision will be to bridle hasty and reckless purchases of new tobacco and allow the establishing of reasonable prices for it. A noteworthy feature was the sale of over 200 bales of Sumatra tobacco in the market during the past week. As we have no reason to doubt the statements of those concerned in the transactions, the prices obtained did not vary at all from those asked for the goods previous to the publication of the decision of the treasury department. The stock of Sumatra in the New York market is calculated to be above 6,000 bales. Havana sold slowly during the week. Altogether, the business done by the importers during the year has been prosperous."

Gans' report.

Following are the sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending Dec. 31, 1883:

350 cases 1882 Pennsylvania, 10@20c.; 150 cases 1881 Pennsylvania, 8@11c.; 100 cases 1882 Wisconsin Havana 15@20; 100 cases 1882 State Havana p. t.; 50 cases 1882 New England, 11@20. Total 750 cases.

Cigar Manufacturers and Sumatra.

N. Y. Tobacco Leaf.

Since the passage by the custom house authorities last week of several bales of Sumatra tobacco containing 80 per cent. of wrappers and the balance fillers at 35 cents per pound, much discussion has taken place among cigar manufacturers as to whether it would not be advisable and to their interest to organize themselves into a phalanx to attempt the reduction of the duty to 35 cents per pound. Many of the manufacturers use large quantities of the East Indian production, and they claim as much right to have a voice as to what duty shall be levied upon it as either the dealers or growers. Hearing of this determination on the part of the manufacturers, a *Leaf* reporter called upon several workers of Sumatra for their opinions.

One manufacturer said: "I think there should be an association formed at once of all cigar manufacturers in the United States using Sumatra tobacco, for the purpose of having the duty reduced to the old rate of 35 cents per pound. I have in common with hundreds of manufacturers worked up a fine trade in certain brands of cigars wrapped with Sumatra tobacco, and as it will be necessary for me to continue the use of it even under the 75 cent duty, the extra 40 cents will come out of my own pocket."

Another said: "I see the tobacco dealers and jobbers down town have held a meeting for the purpose of sending a committee to Washington to urge Secretary Folger to rescind his decision regarding the importation of Sumatra tobacco. To offset this I think the manufacturers should send a committee to the capital to urge upon Congress the reduction of the duty to 35 cents per pound, and thus save the bother and expense of packing 20 per cent. of fillers in each bale, as is now necessary under the existing law. If dealers do not wish to handle Sumatra they could leave it alone, but manufacturers who are compelled to use it should certainly have something to say as to its importation."

Philadelphia Market.

Seed Leaf—This branch of the tobacco trade is very quiet, and cannot be otherwise so long as our cigar manufacturers are idle, a condition customary at this season of the year. They must balance their stock account, in order to show to the government a clean sheet, as well as to know their own condition. It is however, well it is so, for it gives our leaf dealers an opportunity to examine stocks and know what they need after seven months' lively business. Extra fine grades of wrappers are scarce and badly needed. Medium and low grades can be readily found at low figures. B and C of '80 and '81 crop are still in good demand, while the prospect for wrapper leaf of '81 is looked upon more favorably. Prices remain unchanged.

Sumatra has received a set back in price by the recent decision of the treasury department.

Havana is being sold to be called for after the 1st.

Receipts for the week—96 cases Connecticut, 217 cases Pennsylvania, 71 cases Wisconsin, 66 cases Ohio, 45 cases York State Seed, 39 bales Sumatra, 72 bales Havana, and 51 hhds Virginia and Western leaf tobacco.

Sales have been—62 cases Connecticut, 174 cases Pennsylvania, 40 cases Ohio, 55 cases Wisconsin, 30 cases York State Seed 53 bales Havana, 16 bales Sumatra and 18 hhds. Western leaf in transit direct to manufacturers.

Seed Leaf in Bremen.

A recent report from Bremen says:

Sales of seed leaf during the month are reported to sum up to 2,828 cases, and more would have been doing but for very large sales of St. Domingo (to the extent of about 40,000 bales) at about 33r—a price which seriously interferes with the sale of seed leaf. Ohio of the crop of 1882 brought readily from 42r to 45r for average lots, up to 60r for assorted parcels of leaf; average lots of Ohio of 1881 are selling at from 36r to 39r. Pennsylvania binders, with a small proportion of fillers, brought up to 40r. Some sales of Havana seed at from 90r to 120r. As a general remark, we have to add that the demand bears principally on leaf which, if answering the pretensions of buyers, is well paid for, while fillers of all the various growths are of heavy sale. Stocks, 2,990 cases.

The Lancaster Market.

The home market has been very dull, as is always the case during the holidays. The sale of a few small lots of old leaf in the city are reported.

John Hildebrand, of New Providence, has sold 175 cases '81 to a New York party.

There is no '83 being sold that we hear of, nor will there be any more until it is fairly stripped. The second and filler portions of the crop will be large, owing to the mould, and in many cases large quantities of it are entirely worthless.

There seems to be a decided movement to try Havana seed the coming season, and there will be few farmers who will not plant at least part of their crop of it, and many will plant no other. Great care should be taken in growing only first class seed.

The latest news from Africa is that the Zulu King has the croup; this news is doubted by many, but notwithstanding, the friends of the king have sent him a case of Dr. Bull's Cough Syrup and consequently know his cure is certain.

THINK OF IT NOW!

Although much is said about the importance of a blood-purifying medicine, it may be possible that the subject has never seriously claimed your attention. *Think of it now!*

Almost every person has some form of scrofulous poison latent in his veins. When this develops in Scrofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Organic Diseases, the suffering that ensues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that

Ayer's Sarsaparilla

will thoroughly eradicate this evil from the system.
