Mr. Philip Moore, of West Webster, Monroe County. N. Y., says: "My daughter, now eighteen years old, has, for the past eighteen wonths, ben afflicted with rheumatism in a very severe form. One year ago it settled in the knee, since which time she has been unable to touch her toot to the floor or move her limb without suffering the most excruciating pain. Her limb was fast growing out of shape, although we were doing for herali we could, having used all the remedies we could hear of and that were recommended for rheumatism, none of which benfitted her in the least. Her case was pronounced incurable by the physician and by our neighbors, and all believed that she would be a cripple all her days, and that her limb would never be restored to its original shape. But I am happy to say that to-say my daughter is entirely free from all rheumatic pains, and that she can walk with perfect ease, having thrown asbie her crutches, and her limb seems as strong and perfect as ever; all from the use of your wonderful medicine. "Kheumatic Syrup," which we consider one of the best medicines ever introduced for purifying the blood, and I only regret that all others who one of the best medicines ever in-troduced for puritying the blood, and I only regret that all others who are afflicted with rhoumatism can not know of its superior merits. TOBACCO MARKET.

75 CENTS TAX ON SUMATRA LEAF Condition of the New York, Philadelphia and Lancaster Markets for the Week

Ending Saturday, January 12 The principal topic of interest in leaf tobacco circles during the past week was the ruling of the treasury department in more, by reason of tobacco being cut the matter of the tariff tax on Sumatra before it was ripe and also by damage from tobacco, the particulars of which have already been given and commented upon in this journal. Whatever duliness in the market has heretofore been ascribed to the expected evasion of the law passed last winter must now be abated or attributed to some other cause.

The Local Tobacco Market of the crop of '83 are reported, but a number of crops purchased earlier in the season have been delivered at the city warehouses. Not more than 100 cases of slow sale, and fear that many a grower ments of these crops previously purchased, as he will care to keep it. Dealers don't have been made to New York manuwant it only at low figures. So we advise facturers. Jos. Lederman & Son report making what we can clean. Other states the shipment of 1,000 cases, mostly have also had exhibits to make. Old demand for Pennsylvania is on the in- rieties entirely out of the market. Therecrease. Indeed, the New York papers fore, we can see no reason why high, or admit that just now there is scarcely any. at least, remunerative prices should not thing in the market for cigar manufact ure a to draw on except '81 and '82 Pennsylvania. Thus, while trade has been very dull in this county, and buyers have thus far fought shy of the Si crop, the outlook bacco crop of Wisconsin was frosted by is now much more hopeful. The forwas presented to the secretary of the treasury by the committee that waited ware house of a New York eigarmaking upon him last week, and the action of the firm. Portions of the Pennsylvania to secretary in suspending operation of the late ruling of the department admitting at those parts which rested upon the beams Sumatra wrappers at 35 cents per pound, of wood. We now expert eigers and to bas given encouragement to our local growers and dealers; and if the obnoxious ruling should be finally reversed, which now seems probable, we may soon look for an old fashioned boom in our home

trade. The question of planting largely the variety known as "Havana Seed" is reseiving close scrutiny and calm consideration by our growers; and there appears to be a disposition among them to give it a fair trial. The success of those who plan ted it last year, the rapidity with which they sold it, were sufficient to induce many of our wide awake farmers to plant it largely the coming spring. Add to those arguments, the prophecy of Mr. Mayer, printed elsewhere, that, with Havana seed Penusylvania may defy the competition of Sumatra, and crush it out, and supply not only our home market, but the markets of the world, -it is no wonder that growers are on the qui rice for the best Havana seed. It is to be hoped You have nothing to fear, but rather may there's millions in it." Nothing can be hope to gain for yourselves the reputation

In a letter to the Journal G. Mayer renews to Pennsylvania tobacco raisers the advice which the INTELLIGENCER has so frequently given them, to compete with Sumatra and other foreign tobacco by raising Havana. Mr. Mayer says: "I am convinced that their soil is better adapted than that of most other sections to the production of an article that c n accessfully compete with the dreaded invader from Sumatra. To them I would eay: Be up and doing. Lose no time. Secure your seed at once. Cover not garden patches but broad acres. A Baptist Minister's Experience.

"I am a Baptist Minister, and before I ever thought of being a ciergyman, I graduated in medicine, but left a lucrative practice for my present profession, 40 years ago. I was formany years a sufferer from quinsy: "Thomas' Eclectric Oil cured me." I was also troubled with hourseness, and Thomas' Eclectric Oil cured them," and it taken in time it will cure seven out of ten. I am confident it is a cure for the most obstinate cold or cough, and if any one will take a small teaspoon and half fill if with the Oil, and then place the end of the spoon in one nostril and draw the Oil out of the spoon in one nostril and draw the Oil out of the spoon in one nostril and draw the Oil out of the spoon in one nostril and draw the Oil out of the spoon in one heat had been a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deatness and carache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever feit like recommending, and I am very anxious to see it in every place, for I tell you that I would not be without it in my house for any consideration. I am now suffering with a pain like rheumatism in my right limb, and nothing relieves me like Thomas' Eclectric Oil."

HAVING DISSOLVED PARTNERSHIP HAVING DISSOLVED PARTNERSHIP and petmanently closed the Chestaut Street from Works, I desire to inform my old patrons and the public generally, that I am still in the business, being located in the Penn Iron Company's Works. North Pinm street, where I am making Iron and Brass Castings of every destription, and will be pleased to serve all who may favor me with their patronage. From 69 years experience in the business and using the best material and employing the best mechanics, I am satisfied I can guarantee ontire satisfaction. Castings made from a mixture of iron and steel which are more reliable for strength and durability than the best cast from known. V teeth roll pinions, rolls and rolling mill work a specialty. Castings made of very soft iron, and brass castings of every description. I have all the patters of the well and havorably known Mowrer Corn and Cob Crusher, refitted and improved. Also on hand, mills completely fitted up or in parts, to replace old once which have been in use for years, guaranteeing them to give isfaction.
