A TALK ABOUT MULES.

Animals Differing Entirely From the Ordi-nary Conteption of the Quadruped. Turi Field and Farm. It is only among some of the Latin races, as in Spain and Portugal and in the East, that the mule and his sire, the ass, East, that the mule and his sire, the ass, are appreciated at their true value. With the nations of Germanic descent, and more particularly the Anglo Saxon, a prejudice, as deeply rooted as it is ill founded, prevents that familiar affectionate association with the ass and the mule which does so much to develop the finest instincts, and homeoffer as it. Were the horse and the humanize, as it were, the horse and the dog. With us horses are bred for pleasure as well as profit. There is some sentiment in the thing, and one rarely parts with a tine colt, at whatever price,

without more or less regret.

There was a time, however, a few There was a time, however, a few centuries since, when even in England the mule was the peer of his aristocratio half brother, the horse; when, clad in magnificent housings, he proudly bore upon his back the abbots, the bishops, and the princes of the all powerful Roman church, nor would this have been the case had he not been deemed by the luxurious and not been deemed by the luxurious and self indulgent prelates of that day as far superior to the horse for the purposes of

Even as late as 1830 the mule was held Even as late as 1830 the mule was held to be an indispensable part of the appendage of the Bourbon dynasty of France, and whenever the court of Charles X. moved from the palace of the Tulleries to Complegne or Fontainebleau it was in coaches drawn at a gallop of ten mil's an hour by superb teams of Spanish mules, and such mules! Near 16 hands high, matched to a hair, glorsy black in color, "mealy mouthed," with legs and eyes like antelog s, and showing in spirit action and endurance the generous Barb blood of their maternal appearry.

blood of their maternal ancestry.

But to see the mule at his test we should go to the sunny shores of the Mediterranean—to Spain and Portugal. The Arabian domination of 800 years on that great peninsula filled it with horses of Arabian and Barb blood, and this lood, to which we attribute the best qualities of the modern racehorse, and -paradoxical as it may seem—the sweet temper, the broad forehead, the expressive eye, and beautiful ear of the massive Percheron flows, and freely, too, in the veins of the Spanish mule, and imparts to him an appearance as superior to Ameri-can mules bred for the drudgery of our Southern plantations as is that of the kings of the turf to the coarsest Conestogs.

Whoever has had the good fortune to have seen the high strung and highly bred mules harnessed to the traveling equipages of the Spanish king dashing through the Puertadel Sol at a ton mile gait or has encountered the interminable processions of gayly caparisoned mules, bearing the names of all the saints in the calendar, threading with unerring feet the dangerous defiles of the Pyrenees and the Sierra Morena, to the sound of innumerable tinkling bells, will cease at once and forever to object to the mule on the score of his apearance; and whoever has seen the large, dark eyed, brown, dirty, ragged, but beautiful children of Andalusia gamboling as fearlessly and with as much im-punity under the beels of the mules with which they were brought up as do the children in the tents of the Arab among the mares will be compelled to admit that with the same kind treatment the mule, too, will develop traits as near akin to humanity as the dog and the horse.

We are inclined to believe that well ored mules possess undeveloped qual

ities for both quick draught and the saddle, for which the general public is not inclined to give them credit, and we are convinced from actual observation that for light quick draught over long distances day, and fo saddle gaits, mules out of theroughbred mares by the best Malter a jacks are fully equal and purhaps superior to our average light draught and saddle horses. We remember a pair of mules, bred by

one of the Shelbys, in Kentuky, that drew a carriage containing five heavy men forty miles over an ordinary road in five hours without turning a hair or crack of the whip, and returned the next day with equal ease and in the same time.

In 1836 we saw on Red river, La., \$700 paid for a saddle mules that could pace at the rate of ten miles an hour for hours

We have a friend in Rappahannock, Va., Tom Hughes, a regular son of Anack in size, six feet five in his stockings, big in proportion and tipping the beam at over 200 pounds, who for several seasons rode in the first flight to hounds hunting a country that was nearly all mountain on a mule that never made a misstep or refused a leap over fence or wall.

RESCUED FROM DEATH

The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read we beg to ask for it the attention of our read ers. He says: "In the fall of 1876! was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the sum-mer of 1877! was admitted to the City Hospital. While there the doctors and I had a before While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughe at my friends, thinking my case incurable, but I got a bettle to satisfy them, when to my surprise at d gratification, I commenced to feel better My hope, once dead, began to revive,

and to lay I teel in better spirits than I have the past three years. "I write this hoping you will publish it, so that every one afflicted with Direased Lungs will be induced to take DE. WM. HALL'S BALSAM FORTHELUNGS, and be convinced that CONSUMPRIOR. that CONSUMPTION CAN BE CURED, I have taken two bottles and can positively say that it has done me more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work. sold by H. B. Cochran, 187 North Queen street

BROWN'S IRON BITTERS.

#### The Peculiar Old Mystery.

MEDICAL.

It was one of the peculiarities of the old fashtomed doctors that they never would tell patients what they were prescriting for them. They said it would do the patients no good to know, and that it would only be gratifying a foolish curiosity. In order to keep patients from knowing, they would write the prescription in dog. Latin, so that most patients could not read them. All that sort of thing is now over. The patient wants to know what he takes. He is weak, and wants to be strong, or he is dyspeptic, and wants to digest well. Or he has a troublesome liver which he wants to put to rights. So he takes Brown's Iron Bitters about nation with gentle yet efficient tonics. It gives strength. It builds up enfeebled systems. It enriches impoverished blood. It removes feminine weaknesses. It casts out debility. It is what you want and your druggist has it,
