AN ANIMAL GROUL IN SHERMAN'S STATE,

Unpture of the Remarkable Beast Which Has Lived on Corpses—Terror of Su-perstitions Negroes.

Inhabitants of Ferry township, Wood county, Ohio, breathe freer since the mysterious animal which has been burrow ing graves in the township cemetery and eating the contents of the coffins has been captured. The excitement in the county during the raids of the horrible creature North. A destructive cyclone occurred in was intense, since every family had some Virginia last week. A few nights ago Mr. George Braudegroundhog-bait and all, had disappeared. When he took in the condition of affairs, Mr. Brandoberry immediately went for his gun and loaded it with fine shot to wound the animal, so as to take it alive, if pos-

The opening was similar to that usually made by the animal, and he pushed his arm into the hole after rolling up his sleeve and putting on a house up his sleeve and putting on a heavy leather glove. He soon felt the steel trap, and, getting a firm grasp on the handle, he pulled with all his strength. The first pull convinced him that the creature was caught by the trap, and had one of its hind legs fast in the jaws. The beast gales. struggled desperately against being putter out, and tried hard to burrow its way sideways, and pull the trap out of its captor's hand. Mr. Brandeberry kept a captor's hand. Mr. Brandeberry quickly poured two loads of shot into it, stunning but not killing it. On examination it was found to be larger than the largest coon, with yellow hair, bushy tail, long wickedlooking claws, and very large, sharp teeth, which it uses in burrowing with profit gious effect. The creature is thought by ome to be a species of the American badger, genus taxidea. Others think it is some peculiar oriental creature, which has escaped from some passing circus or side show, while others again affirm that it is a cross between a badger and a byena, which solution would account for its taste

for rifling graves. A number of superstitious negroes solve the problem by affirming that it is the evil one in brute form. They will not go near it or the house in which it is kept, and manifest every symptom of terror when the subject is mentioned. The cap ture of the creature, has, however, lifted quite a load from the minds of the people

in the vicinity.

The beast is kept in a temporary cage, and devours quantities of raw liver. It is visited by bundreds of curious persons. The intention is to send it to some museum or menagerie. There are some Democrats who have an idea that the masses of the people of this country are zealous for free trade, when the lessons of the campaigus of the last six years at least demonstrate the reverse. Some say the state was carried by corrupt means, but the industrial interests of that state were a power against us. Unheeding this lesson the party went on and a month later we were beaten in the presidency. My opinion is that public sentiment has not changed in the past four years on this question. I was hardly able to attend to my business, and at times would be completely prostrated. I was also affected with incontinence of urine to an alarming degree; indeed, it demanded my attention afteen or twenty times per night, and at times it would seem impossible for me to ride down to the depot on my wagon, for every jar from the wagen would almost seem to take my life.
