WEDNESDAY EVENING, MAR. 5, 1884.

A Patent Evil.

The New York Herald calls attention to the fact that the demand for foreign iron is largely, if not chiefly, from the Bessemer steel makers, numbering some eleven concerns, which require an iron free from phosphorus for their ordinary process of manufacture.

WELL, what have the emotional featherheads, who justify the shooting down of men accused on the testimony of the shooter's female relatives, to say about this case up in Hazleton? Since the man shot by a young woman's excited uncle in this case has died, she declares that her dead lover was an innocent man and that his conduct was always that of a gentleman.

A COUNTY historical society is about organizing in Chambersburg, and similar associations have been in active operation for some years in other parts of the state.

THE Presbyterian clergymen of Allegheny county have been investigating the subject of divorce; they find an average of 80 divorces a year, or about 5 per cent. as many as marriages in that county and they are growing dubious as to whether "desertion," which now covers such a variety of real causes and is of such elastic construction, should be recognized as a sufficient scriptural justification of divorce.

THE published call for the Democratic state convention, by a slip of the pen, designates the number of electors-at-large to be chosen as six; it should be three. There are twice as many delegates to the national convention as electors.

THE colored candidate for policeman gets-left. The movement to induce the judges of Pennsylvania to don robes of office is to extend to the common pleas judges. Associate Patterson and Counsellor Atlee will, however, order their gowns until after April 12th.

Mr. Wise, of Virginia, is subjected to a great deal of criticism just now, because he unguardedly told the truth. It is true that he was on oath before a committee of Congress inquiring into the Danville riot or some such matter, and it might be supposed that he should be admitted that under the circumstances, and being a congressman, he should tell the truth.

DEAD IN THE FLAMES.

A VIRGINIA FARMER'S AWFUL CRIME.

After Killing His Wife and Three Children in His Home and Shooting Himself Dead.

On Sunday last John Glascock, a well known and popular farmer of Paquetown, Virginia, living two and a half miles from Delaplane station, on the Virginia Midland road, murdered his entire family, consisting of a wife and three children, and then committed suicide by shooting himself through the heart, in a piece of woods near his house.

No living person was found in the house, but on the bed in the family bedroom, over which coal oil had been poured and then ignited, were found the dead bodies of Mrs. Glascock and her infant son, the latter greatly disfigured by the flames.

The following executive committee was elected: On the part of the senate, Senators Garland, of Arkansas, Kenna, of West Virginia, and Gorman, of Maryland.

THE murderer and suicide was the son of a wealthy parents and had a very large and influential family connection. His young wife, Maria Glascock, was the daughter of W. H. Galloway, formerly of Loudon county, Va., and now a citizen of Missouri.

Finley Small is an employe of the Sugar Run tannery at Elkton, Pa., and boards with a family named Jordan. Elizabeth Galloway, aged nineteen, was the servant of the family.

Small returned to bed about 9:30 o'clock. He soon fell asleep, but was awakened some time in the night by a bright light shining in his eyes. It came from a lamp held by his wife.

When daylight appeared the servant left her post and went downstairs. Small then dressed and stole away from the house. When Mr. and Mrs. Jordan rose the servant told them that she had found the bodies of the family.

Society and Politics.

Mr. Wise, of Virginia, is subjected to a great deal of criticism just now, because he unguardedly told the truth. It is true that he was on oath before a committee of Congress inquiring into the Danville riot or some such matter, and it might be supposed that he should be admitted that under the circumstances, and being a congressman, he should tell the truth.

THE published call for the Democratic state convention, by a slip of the pen, designates the number of electors-at-large to be chosen as six; it should be three. There are twice as many delegates to the national convention as electors.

THE colored candidate for policeman gets-left. The movement to induce the judges of Pennsylvania to don robes of office is to extend to the common pleas judges. Associate Patterson and Counsellor Atlee will, however, order their gowns until after April 12th.
