-Scribner's Monthly. Sare Cure for Sauring.

N. Y. Times. There is precisely one cure for snoring, and it is to Sir Humphry Davy that we owe its discovery. That eminent scientific person ascertained that snoring is due to an abnormal vibration of the cords of the larynx, and that this vibration occurs only when the surface of the larynx has becom dry. A man who sleeps with his mouth open until his larynx has become dry by contact with the atmosphere is sure to more. Sir Humphry saw at once that order to cure a snorer his larynx must be kept moistened or relaxed. He found by a series of experiments upon a Methodist er of unusual snoring powers that a piece of castile soap inserted in the open mouth of the snorer effected an instant curel and wards off any further attack of snoring for at least twenty four hours. Repeated applications of soap broke up the habit of snoring, and thus effected a

According to Sir Humphry Davy, castile soap, which is composed of olive oil and soda, is decomposed the moment it comes into contact with the human tongue which has a wonderful affinity for oxygen. The olive oil being thus set free, lubricates and relaxes the larynx, while the sodium is foroibly expelled in the shape of strongly alkaline language by the snorer, who soap, which is composed of olive oil and soda, is decomposed the moment it comes alkaline language by the snorer, who awakes the moment the decomposition of administer castile soap more than three or four times; and the most obstinate case of snoring known to medical men was cured

with six doses. It might be remarked that almost any variety of soap can be used with benefit as a remedy for snoring. Castile soap is, nevertheless, much more rapid in its ac tion than any other variety, with the soli tary exception of soft soap. The laster, however, is seldom found outside of farm horses, and its administration presents certain difficulties which will hinder it from ever becoming a popular remedy.

Killed in a Street Fight.

In a street fight on Tuesday evening in Washington growing out of a difficulty between a white and a colored man, Frank Langston, a son of Professor John M. Langston, United States minister of Hayti, shot and killed James Spencer, and seriously wounded John S. Williams, two spectators, both of them colored.

Lecture from a female Physician. 191 SECOND AVENUE. NEW YORK, May 1, 1883.

My specialty is diseases of women and children. I like Alloock's Porous Plasters because they are so quick and efficient, and never irritate or mark the tenderest skin. I have found them most useful in my practice, and they are certainly the best plasters now made. To illustrate : My son of ten years of age took a bad cold and coughed incessantly no medicine would retieve him; after som twelve hours I applied an Altcock's Ponous PLASTER to his throat and upper chest. The cough ceased entirely in an hour, and the next day the boy was well.

I told the case to a gentleman who suffered in the same way ; he, too, was cured in twenty our hours of his cough by Allcock's Porous PLASTERS. Another patient suffered from pain in the small of the back-Allcock's Fosous Plastes was applied at night, and next morning the pain had ceased. Again, a young ady suffering from Neuralgia Pains around the heart, by my advice used Allcock's Ponous PLASTERS, and was entirely cured in days. Finally, a lady came to me with Cold Feet, which constantly recurred night and day-this sometimes is a symptom of Uterine Congestion-1 applied an ALLCOCK'S POROUS PLASTEIT to the sole of each foot, and her feet got and continued warm. She wore the Plus ters over a week. Thus I have recently tried Allcock's Ponous

PLASTERS, and take great pleasure in bearing witness to their remarkable curative power JANE M. BAKER, M. D.

BAD, BAD, BAD BLOOD.

Some blood is bad because it is poor and weak. Some is bad because it contains impurities. Some men have such bad blood that the wonder is it does not poison the mosquitoes Nos. 26 and 28 NORTH QUEEN STREET who come to bite them. The rich red color of good blood is owing to the iron which is present. Blood which has not enough from in it is always unsatisfactory. The person in whose veins it circulates can

The efforts of expert chemists to produce a preparation of iron which can be assimilated with the blood have resulted in that perfect preparation which is an important part of Brown's Iron Bitters. It is the only one which treely enters into the blood. It is the only one which accomplishes the desired good.

Weak, poor, thin blood may be made rich and strong, and impure blood in y be purified by the use of that Great Iron Medicine, Brown's Iron Billers.
