THE LASKER RESOLUTIONS AFFAIR. The House Committee on Foreign Affairs considers the Matter, and refers it to a Special Committee on the Fitz Porter Bill.

WASHINGTON, March 13.—The House committee on foreign affairs to-day considered the action of Prince Bismarck, upon the Lasker resolutions. Mr. Phelps proposed that a report should be submitted to the House, declaring in effect that the wise course of the secretary of state relative to the House from the necessity of any further action.

Mr. Eaton said that "the act of Bismarck was an insult, and as such should be resented in terms which would leave no doubt of its emphatic disapproval."

Mr. Rice said that, "while he believed the state department had left the matter in the best possible position, yet as the result had been directed to the House of Representatives, which body should express in dignified terms its resentment."

IN A. D. 1842.

WHAT A FARMER THEN COULD DO. Having over Two Thousand Dollars Worth of Property on an Eleven Thousand Acres.

Somebody has furnished to the German town Telegraph the following copy of an interesting letter, dated Lancaster Co., Pa., Nov. 23, 1842, which tells the state and profits of farming operation in this county over forty years ago.

In fulfillment of an old promise, I am going to give you what information I possess relative to the cost, management and yield of a Lancaster county farm, with a view to the question: Is it better for a person with moderate means and a growing family to settle in a city or in the country?

Limestone land in this county ranges from eighty to one hundred and twenty dollars an acre, according to the quality of soil, state of cultivation, location and kind of improvements.

The first year we plow down our sod for corn without manure, except probably a light dressing of plaster of Paris, or sometimes a full coat of lime (from fifty to one hundred bushels) on the second year, we sow corn or barley in rows, but generally the former, without manuring; the third year (or rather in the fall of the second) we put on a full dressing of stable manure, not less than five or four horse wagon loads to the acre, and in the fourth year, a timothy and clover seed, if the land is not in good heart; but if it is, as would be the case with the kind of farm I am describing, a second crop of wheat, with or without, or a crop of rye, without manure, would be a better course.

On April 12th, the beautiful drama of the "Lights of London" will be presented at the opera house.

Next Monday Col. Edwards Warm Spring will appear at the opera house. The show has been doing a fine business in Lancaster for some time past.

The fair and festival of the Women's working society of St. John's Lutheran church will be opened to-night in the armory.
