The repair and supply committee reported that the institute and Fifth street school buildings needed repairs, and the board ordered that such be made by the proper committee. The yard of the Fifth street school was also ordered to be graveled.

The visiting committee reported the schools as being in excellent condition. Some improvements were suggested to the board for several of the schools.

The special building committee advised that the projected new school building at Third and Poplar streets be two stories high, and large enough to contain four schools. President Meyers reported that the lot on which the new school building is to be creeted has already been paid for. The board instructed the president and secretary to sign an application for the admission of Wm. Chancy to the home for

the friendless. Superintendent Ames reported the fol lowing attendance at the schools for the month ending March 10th : Whole number attending, males, 643; females, 696-total 1,339. A number of bills were ordered to be paid and the board adjourned, Freight Care to be Ratied.

On Sunday the wreckers from this place will raise the two freight cars which fell over an embankment in the recent wreek near Peach Bottom, on the Port Deposit rathroad. The track was damaged for a distance of 400 yards during the time the wrecked cars were pulled along the track by the engine, before the latter was stopped. Woke Up the Wrong Countryman,

A countryman was captured yesterday by a party of young townsmen who attempted to get a little sport out of him. They had plenty of it afforded them. One of them was "sent to ginsa" in the fisticus that the rustic got up for their amusement. They will hardly trouble a country man again, at least not soon. Building Operations.

Mrs. Gowen replied, "Yes, very beautiful. I have been lying here watching the reflection." A minute later she exclaimed, "O, Kitty, I feel so queer, I believe I am going to die !" The dector was sent for but before his coming she was dead. Though in fairly good health she had had premonitions of heart disease. ## THE PHARMACEUTISTS.

Early Closing Poics the Druggists. At the regular monthly meeting of the Lancaster county pharmaceutical associa-tion yesterday, there was a full attendance and spirited discussion of the topics introduced. These took a wide range, among them the one of most popular interest being the early closing movement ; it was reported to work satisfactorily. The committee on unofficial formulas made its final report, and was discharged from further consideration of the subject. New formulas for Glycerite and Syrup of Tola and Koumiss, were presented and considered. The bill to prepare and publish a National Pharmacopolo, recently intro-duced into the House of Representatives, was spoken of and suggestions made that members prepare their views upon the practical bearings for consideration at next meeting. Reports upon the condition of the drug market were read, and two new adulterations of drugs, recently thrown upon the market, were reported and noted. Attention was called to two valuable works of reference lately issued from the press, Oidberg & Wall's Com-pendium on the U. S. Pharmacoposia, and Lloyd's Illustrated Materia Medica.

Elaborate Criticism of a New Popular Play Many plays are imbecile, and a very few are infamous. The reeking rubbish that was put on last night at the Comedy theatre under the name of Peck's Bad Boy is both.

People who have had the misfortune to read the extracts from Peck's Sun, in four acts, which have been making 'longshore man laugh for a year, need not be told that the screaming discovery that an impious, vulgar and brutal boy is funny was made by Mr. Peck. The facility with which this discovery could be made and handled for the delectation of base minds probably deterred other men from its use. Mr. Peck wallowed in it with porcine satisfac-tion. His "Bad Boy" alludes to his father's amours in the presence of his mother, flavors his relationship to his parents with the air of the cheap assignation house, winds the slang of the gutter round the family altar, and with the cheapest of all wit turns sacred things into ridicule. Mr. Peck having succeeded in

convincing a certain order of mind that impious rubbish to be read should only appear to be funny, Mr. Charles F. Pidgin discovered that vulgarity that is read should be represented and Mr. William Carroll last night undertook to represent it. Such stuff as Peck' Bad Boy ought to be an offense to every actor who has one lingering feeling of respect for his profes-sion. For it does all things, and does them with blind wantonness, that respec-

table actors have been alway claiming that the stage does not do. Its puerility is appalling, and its irreverence is amazing considering how careful the stage generally is to avoid giving offense in this might have kicked a better A mule

How Lincoln made the application any man can tell And if there are any high officials so troubled with the presidential gad fly that they are doing unusually well, it were a pity to disturb them now.

wider scope than even this. We are just now brought face to face with forms of juvenile vice that are believed to be the result of pernicious literature. What shall we say of the writer and the manager who invite the fathers and the mothers them selves into a respectable theatre to see juvenile deprayity gilded and coadoned, and the most reprehensible conduct and language proffered for their approbation, and with no other excuse that than it makes people laugh?

And Still They Come.

A Brooklyn boy captured in Baltimore is said to have been inspired with the idea of running away by reading flash stories; in Quincy, Mass., "Capt. Jack," seven boys who called themselves "Jesso James' Gang' and another body of juvenile rangers called "Billy the Kid Gang," have been before the local police court, and were put under bonds. The outbreak in New England is accounted for by the fact that the "all, gaunt, hollow eyed giant" is pushing his long, slim, black, coffin-shaped wheelbarrow through the columns of the Springfield Republican.
