OUR REGULAR CORRESPONDENCE. The Raiting Season Opening-1,000 Ratis Expected at Marietta this Summer

-Town Notes of Interest There are now lying at Marietta about 150 rafts, and 1,000 more are expected there before the end of the season. of them are spar and timber rafts, there being but few lumber rafts. Most of the timber sawed up the river is shipped by rail or canal. About forty rafts would have landed at Marietta yesterday had the wind and water proved favorable. Marietta is dull now, although just now is when business of all kinds should be most lively and brisk. As fast as the river men arrive they return up the river, instead of, as formerly, spending one or more days in town. The fall of a water wall at the Columbia shutes, has made that passage dangerous to rafts. The workmen en gaged in clearing away the obstructions in that channel did not succeed in remov

Several rafts have been wrecked between this place and Turkey Hill, most of those wrecked having been spar rafts, which draw a great deal of water.

Towns along the river which formerly derived prosperity from the rafting business, now look about for other sources of profit, because this decreases year by year. Fire and Indians at the Opera House,

When the cause of the alarm was at last explained the crowd quieted down and fire engine was promptly at hand but the

It is said also that some of Smith's repeated, friends are becoming weak kneed as they hear of so many politicians who were for him in former years, but are now with Hiestand. It is said that Matt Friday will announce himself as a candidate for prothonotary this evening. tiarvest for the Bums.

That the candidates are kept hard at work there is no doubt, but they all unite in stating that their most trouble is to rid themselves of the bums, who beset them at every corner, asking for "a quarter to make up a "kag," or five cents for a "hummer." This morning the hums ap

A bum who has been around the town for several years is acquainted with all the men who "solicit influence" both in the town and country and he is a politician with a great deal of nerve who gets away from an "old un" " without giving up some money or taking a ball ticket, which are aimost as plenty as the candidates' pasteboards.

There are bums of all kinds and ages. Some are well dressed and possess a good flow of language. They, in most cases, do the talking and then share the profits with their brother who wears poorer clothing or is not as "fly." Mylin and Statesman Landis waxes warm. Land's is making a personal canvass of the district and has walked hundreds of miles afoot during the past ten days. He visits every farmhouse and presents his claims for promotion. The other night after 10 o'clock he walked all the way from Leaman Place to Strasburg, along the railroad and almost broke his neck in some of the numerous "cow holes" along that abominably bad road. He has been seen in almost every hamlet from the Susquehanna to the Chester county line, and from this city to the Maryland line. To day he is in the city and, though he looks foot-sore and travel stained, and has lost some surplus flesh, he is very hopeful, and says if the people vote the way they talk he will surely win.

Mylin's friends, however, are equally if not more sanguine, and are sure of beating "Johnny " out of sight. There are rumors that Henry H. Kurtz,

> Accident at the Water works Yesterday the pumps at the city water works were stopped to enable workmen to connect the new 6,000,000 gallon pump with the 24 inch main leading reservoir. The connection was made by putting in a new "Y" pipe, just outside the engine houses. This pipe was subjected last evening to a water pressure of 65 or 70 pounds, when it burst, being defective. The accident caused a loss of some water, but not enough to cause any inconvenience

to water users. The broken "Y" was taken out, and to-day the old connection with the 3 000 000 gallon pump was re placed, and the pump will go into operation to night. It will require about ten days time to have a new "Y" made, and the Second Street Lutheran church for Gen. Welsh post G. A. RESULED FROM DEATH

The following statement of William J. Cough to, of Somerville, Mass., is so remarkable that ers. He says: "In the fall of 18761 was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and fiesh. I was so weak at one time that I could not leave my bed. In the sum-mer of 1877 I was admitted to the City Hospital. While there the dectors said I had a hole in ay left lung as big as a half-dollar. I expendst over a hundred dollars in doctors and medines. I was so far gone at one time a report west around that I was dead. I gave up hope but a friend told me of DR, WM, HALL'S HALSAM FOR THE LUNGS, I laughe at my friends, thinking my case incurable, but I got a britle to satisfy them, when to my surprises a gratification, I commenced to feel better My hope, once dead, began to revive, and to my I feel in better spirits than I have the past three years.
