#### THE AFTERMATH

REVIEW OF THE TRADE SITUATION, Husiness Done by the National and Private Banks During the April Rush-About

the Court House, From a general survey of the field, after the hub bub of the First of April, it appears that business is in a "satisfactory" but not blooming state. The banks all did a good business—the Farmers' national nearly as much as last year, while their Saturday and Mouday business was larger than the satisfactory but with the than the corresponding days last year. Their deposits yesterday cover as many pages as last year, but the totals are not so large. Money is plenty and loans are freely made on good paper. At the County bank much the same state of affairs exists. The clerks were never affairs exists. The clerks were never busier than they were yesterday, but the absence of any very heavy real estate transactions caused the totals to foot up transactions caused the totals to foot up and spealed to those in authority to an appealed to those in authority to the speak of the corner loafing and speaked to those in authority to

#### REPUBLICAN POLITICS. Bosses and Bummers Bard At J ..

There is nothing new and startling in the situation in the Republican camp, The solid men who came to town yester day were too busy paying and receiving interest, collecting and incurring debts to be bothered about politics. The candi dates were not too modest, however, to tackle them at every turn; the excite-ment among those directly inter-ested in the results of the primaries is at white heat, and all the smaller fry seem to wait for the adjustment of the 'pool " tickets to be headed with the candidates for judge, congressman, sona-tor and treasurer. The ne, etiations be tween the leaders of different factious were about closing last evening at which time it was pretty well assured that Agamemnon Sensenig and Achilles Lew Hartman were irreconcilable, and that the Hartman were irreconcilable, and that the Province of the leading factions would The Lancaster nine will meet the Province of Saturday April 12th, when candidates of the leading factions would be Hiestand, Patterson, Mylin, Gresinger and possibly Fridy, against Smith, Atae, Landis, Greider and Skiles.

#### COLUMBIA NEWS.

Frem Our Regular Correspondent. Yesterday was a very quiet first of April for business men. All interested in real estate say that but very little changed hands in Columbia. They also say that much difficulty was experienced by per sons in renting dwelling houses.

The cry for more houses still continues, but it passes unheeded. Very little build ing is now going or, and the prospects for any in the near future are poor. The outlook for persons desiring to secure houses is extremely discouraging. But a few years ago houses went begging for

### Trade Notes.

Coal merchants report that last winter's sales of coal were unusually heavy, much heavier, indeed, than for some years past. It is not surprising when the extremely cold weather and the length of time it last ed is taken into consideration. The car movement of the Pennsylvania

railroad at this place during the month of March was: Eastward, loaded, 34,743; empty, 3,183; total, 37,926. Westward, loaded, 10,954; empty, 25,268; total, 36,-222 Grand total, 74,148.

The workmen are engaged in repairing and improving the old tobacco warehouse opposite the Pennsylvania railroad depot. The work is being done by Columbia men who are employed by the Pennsylvania railroad company.

The freight business on the Penusylva nia railroad just now is very heavy; de-cided increase in what it has been for several weeks past. Railroad men now hope to make a fair month's wages. The only trouble is that the boom may not last. However, as business is good now there is no use in bewaiting a condition of affairs that has not yet transpired.

Eighty shares of the one hundred to be subscribed for a baseball club in York have been taken and a meeting will be ield to-morrow evening by which time it is expected that all will be taken. The Daily of that town thinks that "a good club will be self sustaining, perhaps profit able, and there is no reason why York should not have one. We have some good local material, and with a few proficient players from abroad, to strengthen the weak places, our city will make a good record in the national game this season."
The York people will find that they must have a good club if they expect to have any show in an association with such clubs as the Lancaster and Chester.

#### TERRIBLE ACCIDENT.

A man Mangled Beyond Recognition. This morning about daybreak the remains of a man, mangled beyond recognition, were found on the track of the Pennsylvania railroad near Mill Creek station. They are supposed to be those of Benj. Humphreyville, a resident of Harrisburg and a brakeman on extra freight No. 18 east, and it is supposed that he fell from his train about midnight at the point named and the train passed over him, as well as all the trains that followed up to 5 o'clock this morning. The remains were gathered up and brought to this city on the 9:45 a, m. train and Coroner Shiffer was notified and empanneled a jury to hold an inquest.

This afternoon the coroner's jury held meetings at 1 o'clock and at 2:20. The men attached to the train on which Hum phreyville was running were first called. Jacob Neff, the engineer, testified that they stopped at Mill Creek. Humphreyville shoveled coal on the tender and assisted in putting the water in As the train started he stepped off the engine on the right side. They first missed him at Gap, and upon deceased between 50 and 100 yards east of

death. The deceased was about 23 years of age, and his home was in Jenkintown, Mont. gomery county, but he boarded in Harris burg. He was a single man, but was to have been married shortly. This was the first trip he had made with this engine.
