WHO'S TO BE CHEATED?

All eyes fasten on the name of John B. Shook as a man to be elected county treasurer. The entries in the Republican contest have closed with but one name on the list for probatory; and this proves not only that John B. Shook is to have a walk-over for the office to which his friends (except Bill Deen) claim that he was fairly nominated in 1881.

CHANGE IN SENATORIAL RULES.

AT A MEETING of American association upholders, held Wednesday in Columbus, O., it was decided to change paragraph 8 of rule 48, so as to strike a batsman upon pitched for striking a batsman with a ball, instead of giving a batsman a base. Paragraph 5 of rule 50 was also changed, so as to force a batsman to run after three strikes, a fair hit or a walk. McKim's new rule would play in such cases possible. All the other rules remain unchanged.

A FERRY IN WHEAT.

CAUSED BY A SUDDEN DECLINE OF TWO CENTS A BUSHEL ON THURSDAY. There was considerable excitement at the commercial exchange, Philadelphia, Thursday evening, over the decline in wheat, which has been falling steadily for the last two weeks, suffering a further decline of two cents a bushel, corn fell a cent and a quarter and oats three quarters of a cent. At the close prices were somewhat higher than the lowest point touched during the day, but the net decline was about as given above.

THE SILENT NIGHT.

THE HARRISBURG PATRIOT of this morning contains the following: "Chief of Police Landis yesterday morning took into custody two young women at a house off of 14th street in the lower section of the city. They had just arrived from Columbia and had already commenced going the rounds of low houses. When questioned they had no hesitation in giving their names as Minnie Maddock and Stille Milton. The former is the wife of William Smith, now in jail in Lancaster upon a charge of murder. Both females are under twenty and seem to have little sense of shame for their conduct. They were arrested in the act of going to a house off of 14th street, which was being used by them for a rendezvous to discover their friends and their desire, but failed to give any response. They were finally discharged to go where they choose.

GENUINELY UNPARALLELED.

THE REPUBLICAN PARTY DEFEATED in the election of 1878 in this county. Our congressman contributed \$7,000 to the pool, and that in all, the Rev's friends in order to make a reform. All of these certain expended \$11,000. About \$1,000 of this amount was paid to the Rev. for printing, etc., and the rest was spent in the cause of reform. This the Examiner professes to have learned from those who were in the inner circle of the Rev's ring of that year. It is likely that in the transmissions of our local politics those who were in the Examiner ring at that time are now in the confidence of the New Era and might be able to tell it and the public what it cost the candidates of the other faction to be beaten. When rogues fall out there is a chance for them to tell the truth about each other, and if the queer shifting of Republican politics in this county would result in this it would be a grateful issue, though some hearts might bleed which now beat high with hope.

PERSONAL.

JOHN BRIGHT is suffering from a chill and a slight congestion of the lungs. BILLS says the passage of the Morrill bill would be but "a resultless form." EDWARDS is a strict observer of Lent, and among his brother senators he is frequently and kindly called St. Jerome. CHARLES READE, the rovelist, who has been passing the winter at Cannes, has returned to London in very ill health and is said to be rapidly sinking. MISS GORDON, an American, was married Thursday, in Paris to Prince Piotrowski. The register was signed by Mr. Morton, the United States minister, elected to the Senate, in the Republican national convention from the Eighteenth district conditioned upon his support of Blaine.
