The Removal of Some Threstening Sullers-The New Council-Matters Requiring

Police Interversion. A large force of workmen of the Penrsylvania railroad cor.pany, under the di-rection of R. E. W. liams, chief official o that road here, were engaged yesterday in dislodging at immense mass of rocks which overb' and the track of the above soud at a r oint south of the Henry Clay furnace above Columbia. These rocks were considered dangerous to trains, as they gave indications of falling, and yeser ay they were removed. An or see the er awd of people were on the spot to see the they were removed. An immense operations. Immense chains were wound about the main rock, which was nearly a hundred feet above the tracks, and by means of block and tackle connected with a locomotive which stood on the tracks, When this moved the great mass, weigh ing over three hundred toos, fell with a tremendous crash. A track at the foot of the hill was crushed to pieces. A force of workmen were engaged all day in clearing away the debils and are yet at work. The removal of the rock was conducted in a most novel and ingenious manner by Mr.

A NATURDAY EVENING PIRE. The Printing Office of John H. Barnes Sadly Damaged.

Saturday evening between 5 and o'clock, a rather serious fire occurred in the three story brick building, owned by Amos S. Henderson, and situated on North Duke street, next door to the bank. The first floor of the building was occupied by George M. Kline and George Nauman, esqs., as lawyers' office. John H Barnes had a job printing office on the second floor and Robert McDonneli man ufactured awnings on the third story. Thefire was discovered about half past five 'clock by some boarders at the Leopard hotel, who saw smoke issuing from the third story windows. The only person in the building at the time was Mr. McDonnell's son, Edward, who was at work in his father's room when he noticed smoke coming up through the floor, from the second story. As soon as he was convinced that there was a fire he began throwing goods from the windows and succeeded in getting most of them out. The alarm was struck from bex 15 at Duke and East King streets and the firemen responded promptly. The whole department was on the ground in a short time. Young Mo-Donnell kept at his work up stairs for a time after their arrival but upon fluding that he could no longer remain there for the smoke, he ran to the window and cried for help. A long ladder was taken from the truck and placed to the third story window from which the boy was taken without being injured in the least. Several streams were then put on in the second and third floors. The fire, at first seemed to be in the third story, as all the smoke

at length to be in the north eastern corner of the second story room and it was ex tinguished in a short time. In the corner where the fire started there was a shelving with books, &c. It was burned, with all that was on it. building was badly damaged by the fire, the ceiling, window frames, floor and wood work being burned Among the papers were some that were valuable. The cabinets, containing type, were burned so as to be unfit for use. The type, machin ery, &c , was damaged by fire and water, with which the room was flooded. What the loss in the room will be canot be esti

mated as yet. The contents were insured

with Shenk & Bausman in the Fire As

sociation of Philadelphia for \$1,500, and

the Reliance company of Philadelphia for The loss of Mr. McDonnell, to what goods were not removed from the building, was entirely from water, as the fire did not reach the third floor. It may reach \$100, and there is no insurance, the policy having expired a few days ago. In the offices of Messrs. Kline and Nau man there were valuable libraries of law

books. The firemen and bystanders saw a a glance that this property was liable to be injured by the water. All who were allowed inside of the ropes went to work with a will and began removing the books to neighboring offices. By the time the fire was extinguished the litraries were removed and the owners state that although there were many valuable papers &c. in the offices all were taken out rafe'y and nothing is missing. Their loss will be slight and mostly from inconvenience as they will be compelled to compy other fuces until the building is repaired.

The firemen certainly deserve credit for the good work that they did. Had it not been for their promptness a great fire might have resulted, as there was a stiff wind blowing at the time. A great crowd was present at the fire, but it was very quiet and orderly, and but few besides the tiremen were allowed inside of the ropes, which were guarded by the police. Those who did go in did valuable work in saving A hot coal dropping on the floor of Hiteshue's tailor shop nearly caused a conflagration yesterday.

A hot coal dropping on the floor of property while the firemen were at work on the building. Frederick Brimmer, the liveryman, and Harry Gensemer, a hoseman of engine No. 4, had their hands badly out by glass from the windows

The origin of the fire is unknown. There was no one in the room of Mr. Barnes after 4 o'clock at which time the young man employed there locked everything up and went home. There was a hot fire in the stove which stood some distance from the place where the fire occurred.

Big Fire in Christians. On Saturday night between 9 and 10 clock, incendiaries set fire to the frame work of John Acres' new tavern stable in course of erection on the east side of the village of Christiana, and there being some breezs stirring at the time the fire was communicated to the Masonic hall and John D. Harrar's store, and at one time serious conflagration was threatened. Sheeler's carpenter shop was also burned with its contents. The loss has not been ascertained. The fire apparatus and department were however called out and did good service, saving everything but the stable. There is talk of organizing a vigilan' committee at oree, as this is

third attempt to burn the town. Notes of the New and Old Police. At one o'clock the members of the new city police force were called together in the station house, where they were met by the mayor and Chief of Police Haines. They were all sworn in by the mayor, who then told them that they should respect all orders coming from their chief as though they were given by himself directly. The chief then read the rules governing the police force as adopted by city councils, and gave them instructions in their various duties, &c. Heannounced Plum and Chestnut, Marshall and that shift No 1 of the new force would go on at 3 o'clock this afternoon. It would consist of the following officers : Swenk, Creamer, Stormfeltz, Eicholtz, Heisse, Roadman, Merringer, Ritchie and Speec.

They are black in color and of the helmet shape, being the same as those worn in is also of silver. The hat of the chief has

the word "Chief" in the wreath. The old police will give their ball this evening and among the notables expected to be present are Mayors Rowe, of Reading, nion and baptism immediately after to be present are Mayors Rowe, of Reading, and Wilson, of Harrisburg, and officers from these cities, Philadelphia, York and other places.

Confirm ation at it Biephens. The solemn rite of confirmation was administered by Rev. E. Meister in St. Stephens' Evangelical Lutheran church yesterday morning. The large church was filled with people, not only the members of the congregation being assembled, but also friends of the catechumens being present to witness the sacred rite. The services, which were very impressive, were opened by an anthem. The gospel for the day, Matthew 21, 1-9, was read. The sermon preached by the pastor, based on St. John x, 10: "I am come that they might have love, and that they might have it more abundantly," told why catechumens should cheerfully take their stand on the side of the Lord and confess him before the world. After the sermon the catechumens came up to the altar, where they made their public profession and were received by the imposition of

THE NEW WORTHINGTON PUMP.

It Was Tried on Saturday and Found to Work Admirably. Saturday afternoon Mayor MacGonigle, Mayor elect Rosenmiller, the water committee and several members of city councils and other city officers together pump a first trial. The party were met by Superintendent Halbach and shown through the works. The room in which the new pump is placed is a very fine one. It is unfinished, a ceiling of yellow pine being yet to be put on and the wall to be plastered. The new pump is an immense affair, having about the same proportion

does to the baby elephant. Everything being in readiness the may and mayor elect put their hands to the wheel and set the machine in motion. It went off at the first as though it bad been need to it. The agent sent on by Mr. Worthington to superintend the erection was overjoyed at the manner in which the machine worked, and while he is naturally proud of all Mr. Worthington's pumps, declared this the best one yet built. The connecting the pump with the main leading to the reservoir being not yet in place, owing to the break reported last week, there was no water pressure against the pump, the water being thrown into a ditch outside the pump house instead of into the reservoir. The stream was an immense one, and satisfied ev ryous present that the pump will do all that its builders have warranted.

The "logging" has not yet been placed in the new pump, but this in no way interferes with its working. The new "Y" will be finished within a few days and shipped from Reading to this city, and

After inspecting the new pump and the other machinery the visitors partook of refreshments furnished at their own ex pense. In this connection we may say that during Mayor MacGonigle's six years and a half administration not one cent has been taken from the city treasury to pay the expense of any of the little set-ups enjoyed by committees engaged in official

SPECIAL NOTIONS

Many men daily polish their boots who never give a thought to the condition of their hair, except to he ow it casually with brush and comb. or submit it to the nearsh zing attention of the average barber. What happens? Why this: From neglect, mental auxiety, or any of a score of causes, the hair turns prematurely eray and begins to fail out. Parker's Hair Balsam will at once stop the latter process and restore the original color. An elegant dressing, free from grease.

" Most of the eminent doctors in the East, as well as several of the medical faculty in New York City," writes Rev. P. P.
