It Always Leads. There isn't a new or novel net presented in any circus in the country that was not origi-

nally produced in our Great Circus-nor is there an arente artist of European fame, who in coming to this country, did not not make his first tour of America with the Great Fore-A Handsome Fourtain. H. B. Cochran, druggist, has fust placed or

his counter an elegant interal water foundain made in Boston to his order. It is shaped somewhat like a fancy cottage and is com-posed of several fine varieties of marble -the base being black Irish, the sides white Italian, the panels of onyx, the rafters Italian Bordillo, the tablets and the root Star Sevier. These several colors contrast very prettily. From a large number of silver-mounted faucets is drawn pure interal water flavored with all the favorite syrups. Drop in and look at the tountain and test the waters.

CHARLES READE. tils Place in Contemporary Literature. N. Y. Sun.

When the future critic, warped, it may be, by the tastes and standards of his hour, surveys the age in which Charles Reade achieved a reputation he must at least acknowledge that there were glants in those days. It was no sham tourney in which the tyro author of "Never Too Late to Mend" had to test his mettle and his prowess. There were men still living who had snatched damp from the press the magic pages of "Ivanhoe" and the magic pages of "Ivanhoe" aud "Kenilworth," and the children of those men were watching the fantastic flashings of "Pelham's" erratic pen, or hung spellbound upon the lips that woke to life Sam Weller, Dick Swiveller, and Little Nell. The outsoaring and outdax zling career of the great satirist, in whose zing career of the great satirist, in whose "Vanity Fair" the diverse powers of Fielding, Sterne and Addison seemed blended, was almost contemporary with Reade's. The latter's light, moveover, was colleged throughout the middle course of his productive labors by that majestic woman, whose mind held richer stores and had fathomed deeper mysteries than those known to any masculine intelligence that has sought a voice in that form of composition which is aptly termed the epic of modern times. It was not, of course, by the side of Thackeray, of

BIRMINGRAM, England, April 12.—James Egan, who was arrested yesterday on suspicion of being an accomplice of Daly, was brought before the court this morning, charged with conspiring with Daly to cause an explosion. He was remanded to prison to await trial. Egan's wife declares the papers belonging to Egan, which the police secured, refer to the operations of the Home Rulers and not at all to dynamite. The police in spector testified that he had been watching for the critic.

No English writer of fiction of our day presents such an interesting combination of Saxon temper and Gallie sensibility as Charles Reade who has just passed away. His best stories have a muscular frankness in them which we do not find the early brilliancy of "Peg Woffington," which was more French than English, was almost forgotten in the breezy protest and vigorous action of "Never Too Late to Mend" and an old time fervor of love that beat and glowed in "Love Me Little, Love Me Long" The aggressive honesty of Reade's convictions made most of his books which were aimed at social wrongs to the operations of the Home Rulers and not at all to dynamite.
