THURSDAY EVENING, MAY 29, 1884

BARBED WIRE.

A Purmoe relates Objections to it. Hudson Tuttle, of Berlin Heights, O., writes as follows to the Germantown Telegraph in relation of his experience with barbed wire fences. It is not at all exceptional among farmers:

My horses became acquainted with the fence by rubbing their heads and scratches, and I began to think there was no danger, when a work horse, a splendid fellow, except blood, ran into the fence and received a fearful gash in the breast. This maddened him, and turning he, and kicking his legs off, and probably would have done so if the wire had not broken. Well, I said, the fence was not to blame; a horse with good eyes would not be in danger. The next adventure was by a large flock of sheep rubbing their heads through, and here allow me to say that the fence was made of five wires, posts twenty feet apart, with two stays between. The whole flock was inside, and made a dash to get out. They accomplished the feat, but they were a rough looking lot, and for several rods the wires looked like big woolen ropes. Of course the neighbor was down on the fence—not literally, of course—and the owner.

The next experience was far worse. A valuable Kentucky colt with a curiosity peculiar to the breed investigated the fence by attempting to paw it down. She struck over the fourth wire and it caught and held on to the fetlock. A horse's foot is made expressly to catch when drawn back. Well, if a boy and he, he would have probably cut her foot entirely off. As it was the gash will never be outgrown. The wounds by the bars are of the most ugly kind. They are bruised and ragged and accompanied with a great deal of sloughing under the most skillful treatment. After this the safety of the stock when exposed to the fence was constantly on my mind. A dozen times a day I would voluntarily look over the fence, expecting to see some animal "caught out," and in the morning the duty was to make the same examination. In fact, I could not sleep well, not knowing but some animal was in agony, wound up or fastened to the wires. If one colt would paw at the fence, another would rub his head, and the same, and the thought was not provocative of sleep to one who had any solicitude for his stock, not to say anything about pecuniary considerations.

The next news from the wire was from a gentleman four miles away. He sought to make an old fence good by stretching a barbed wire along the top. A horse valued at five hundred dollars ran against it and died to death before found. The railroad crossing an adjoining farm fenced like that with wire, and a space of three horses attempting to go through cut themselves in a fearful manner. These accidents coming directly under my personal notice and all within the last four months, were not commendatory to the barbed wire. It is probably highly useful in the West, and not particularly dangerous to cattle. Two or three wires are quite sufficient except against sheep, and to make it sleep proof, six wires must be used, and the posts placed near together, besides intervening stays, and thus the fence becomes nearly as costly as a hard fence.

On the small farms of the East, however, where valuable stock is reared, especially horses, I regard the barbed wire as entirely too dangerous. One might almost as well surround the fields with spring guns, for if a horse attempts to jump the wires, or runs against them, or paws or kicks at them, he is sure to receive great if not fatal injury. Fence made with boards or bank of earth at the bottom and wire at the top, is more dangerous than any wire, as horses running, not seeing the wire will attempt to jump the low boards or bank and be caught by the wires. The use of a top board with wires does not prevent the horses striking into the bars with their feet, which is the greatest of all dangers connected with the fence.

Ex-Speaker James W. Huston, of the New York Legislature, writes a new article.

You did not go to Florida for your cough and cold, as you proposed?" "No; I found the necessary cure and pine aroma in our Florida factories, and on my back and throat my chest. I was quickly cured; they proved a perfect shield against pneumonia. These plants also cured my son of rheumatism, and my wife of several months defied medical skill. I have found them very quick to cure and absolutely painless. In bruises no external remedies can be more effective."

"Alcock's" is the only genuine Florida Plaster; buy no other and you will not be cheated.

American Art. Photographs, Engravings, etc., can be exquisitely colored with light and delicate tints from Dresden by the use of the new color cabinet photo sent with a notice for 10 cents. WELLS & RICHMOND, Burlington, Vt.

"My Mother Has been using your Barbed Blood Bitters as a liver remedy, and finds them very efficacious." Mrs. Adair, of York, Pa. Indiana, Ind. For sale by H. B. Cochran, Druggist, 127 and 129 North Queen Street.

I wish everybody to know. Rev. George H. Taylor, an old citizen of this vicinity known to every one as a most influential citizen and christian minister of the M. E. church, just the same, has returned to us here to say, "I wish everybody to know that I consider that both myself and wife owe our lives to your Barbed Blood Bitters. It is a medicine that will cure any case of Lung Disease, such as nothing else has done." Mrs. M. C. HAZEN & FRANKLIN, Sold by H. B. Cochran, Druggist, Nos. 127 and 129 North Queen Street, Lancaster, Pa.

A Policeman Healed Up. D. F. Collins, member of police, seventh ward, Reading, Pa., tells his story: "I was severely from rheumatism; nothing did me any good till I used Thomas' Electric Oil. It is a pleasure to recommend it. For sale by H. B. Cochran, Druggist, 127 and 129 North Queen Street."

WOMEN ARE BEING FULLY AND EXHAUSTIVELY examined and all diseases of the female system cured. Dr. J. H. H. COCHRAN, Druggist, 127 and 129 North Queen Street.

NEVER FAILS.

SAMARITAN NERVEINE.

YOU CLAIM TOO MUCH FOR SAMARITAN NERVEINE, says a skeptic. "How can one medicine be a specific for EPILEPSY, DYSPEPSIA, ALCOHOLIC NEURALGIA, HEADACHE, RHEUMATISM, SPERMATORRHOEA, or SEMINAL WEAKNESS, and fifty other complaints? We claim it is a specific, simply because the virus of all diseases arises from the blood. If the blood is pure, all the conditions herein referred to, it is known world wide.

THE GREAT Nerve Conqueror.

It quietes and composes the patient—not by the introduction of opiates and drastic cathartics, but by the restoration of the normal condition of the nervous system, whereby the brain is relieved of morbid fancies, which are created by the causes above referred to. To Physicians, Lawyers, Literary Men, Merchants, Bankers, Ladies, and all whose sedentary employment causes nervous prostration, irregularity of the bowels, stomach, bowels or kidneys, or who require a nerve tonic, aperient or stimulant, SAMARITAN NERVEINE is invaluable. Thousands testify that ever sustained the striking system. Also sold by all Druggists. The Dr. S. A. RICHMOND, MED. CO., 213 N. 10th St., Phila., Pa. G. H. S. CHITTERTON, Agent, 424 York St., New York City. (4)

KIDNEY-WORT.

THE SURE CURE FOR Kidney Diseases, Liver Complaints, Constipation, Piles and Blood Diseases. PHYSICIANS ENDORSE IT HEARTILY. "Kidney-Wort is the most successful remedy I ever used." Dr. F. C. Ballou, Monkton, Vt. "Kidney-Wort is always reliable." Dr. R. S. Clark, No. Hero, Vt. "Kidney-Wort has cured my wife after two years' suffering." Dr. C. M. Summerlin, Sun Hill, Ga.

IN THOUSANDS OF CASES.

It has cured where all else had failed. It is not a stimulant, but harmless in all cases. It cleanses the blood and strengthens and gives new life to all the important organs of the body. The natural action of the kidneys is restored. The Liver is cleansed of all disease, and the Bile flows freely and healthfully. In this way the worst diseases are eradicated from the system. Price \$1 Liquid or Dry. Sold by Druggists. Try one bottle by mail.

PROPOSALS.

PROPOSALS WILL BE RECEIVED AT THE MAYOR'S OFFICE up to THURSDAY, MAY 29th next, at 7 p. m., for digging trenches on the following streets, for the purpose of laying gas pipes. 1. East Chestnut street, between Ann and Plum streets. 2. Poplar street, from the present terminus westward 50 feet. 3. Poplar street, between Mulberry and Concord alleys, a length of between 50 and 60 feet. 4. North Marshall street, from Chestnut north to Walnut, and on East Walnut 25 feet. 5. 3d Street, from Low's Lane, a distance of 50 feet. 6. North Ann street, from Marion alley to Chestnut street. 7. West Chestnut street, from Pine to Lancaster street. Bidders will state how much per cubic yard for earth and how much for rock. Trenches to be two feet wide and four feet deep. Bidders will be required to replace the streets in the same condition as they were before the work is done. The committee reserve the right to reject any or all bids. D. P. ROSENTHAL, Chairman Water Committee, 202 N. 2d St., N. Y.

PROPOSALS FOR ELECTRIC LIGHT.

GAS, COAL OIL, OR OTHER MATERIAL FOR LIGHTING, AND LAMP. The Lamp Committee of the City of Lancaster will receive sealed proposals for the lighting of the city by gas, coal oil, or other material. The party furnishing the light will bid for the complete plant, including gas pipes, lamps and power terminals to run. Contract to commence December 1st, 1884. Also, sealed proposals for the furnishing of gas per thousand cubic feet for the Mayor's office, the Board of Commissioners, Chambers, Market House and Station House, and also for Street Lamps, at a fixed price per lamp, with fuel for one year, to be paid for on or before July 1st, 1884—excepting that part of the city which is now lit with Electric Light, which shall commence from December 1st, 1884. The company furnishing the gas shall light all the lamps, make all connections to the lamp posts at their own proper cost, and disconnected without charge to the city. Also, sealed proposals for the furnishing of Lamp Posts and Lamps for gas, complete and ready for use, which may be used during the year. Posts to be of the same style and kind as those now in use in this city, and Lamps of a style similar to those in other sections of this city. Bidders are required to furnish a plan to be of iron and weigh at least 50 pounds. Also, sealed proposals for the furnishing of Coal Oil or other material for lighting all the street lamps, or any portion thereof, at a fixed price per Lamp for the period of one year from the starting day, 1884—excepting that part of the city which is now lit with Electric Light, which shall commence from December 1st, 1884. The person, individual or company who bid to supply coal oil, gas, or other lighting material, shall light the street lamps to be so supplied, every night throughout the year at sunset, and all lamps must be kept in good order, and the contractor shall keep the same clean and in repair until they are replaced. Bidders are required to accompany their bids with the proposal at which they will furnish during the year. The person, individual or company, who bid to supply coal oil, gas, or other lighting material, shall be held responsible for the faithful performance of the contract, and to be removed without expense to the city. The contractor shall also be held responsible for the faithful performance of the contract, and to be removed without expense to the city. All bids or proposals must be made on or before June 1st, 1884, at 10 o'clock p. m., and addressed to HARRY M. CHILLER, Chairman Lamp Committee, Mayor's Office, Lancaster, Pa., and to be enclosed "Proposals for Lighting the City." By order of the LAMP COMMITTEE. Attest—JAMES M. CHILLER, CLERK. 202 N. 2d St., TOWNE, Pa.

Also, sealed proposals for the furnishing of Lamp Posts and Lamps for gas, complete and ready for use, which may be used during the year. Posts to be of the same style and kind as those now in use in this city, and Lamps of a style similar to those in other sections of this city. Bidders are required to furnish a plan to be of iron and weigh at least 50 pounds. Also, sealed proposals for the furnishing of Coal Oil or other material for lighting all the street lamps, or any portion thereof, at a fixed price per Lamp for the period of one year from the starting day, 1884—excepting that part of the city which is now lit with Electric Light, which shall commence from December 1st, 1884. The person, individual or company, who bid to supply coal oil, gas, or other lighting material, shall be held responsible for the faithful performance of the contract, and to be removed without expense to the city. The contractor shall also be held responsible for the faithful performance of the contract, and to be removed without expense to the city. All bids or proposals must be made on or before June 1st, 1884, at 10 o'clock p. m., and addressed to HARRY M. CHILLER, Chairman Lamp Committee, Mayor's Office, Lancaster, Pa., and to be enclosed "Proposals for Lighting the City." By order of the LAMP COMMITTEE. Attest—JAMES M. CHILLER, CLERK. 202 N. 2d St., TOWNE, Pa.

PROPOSALS FOR ELECTRIC LIGHT.

GAS, COAL OIL, OR OTHER MATERIAL FOR LIGHTING, AND LAMP. The Lamp Committee of the City of Lancaster will receive sealed proposals for the lighting of the city by gas, coal oil, or other material. The party furnishing the light will bid for the complete plant, including gas pipes, lamps and power terminals to run. Contract to commence December 1st, 1884. Also, sealed proposals for the furnishing of gas per thousand cubic feet for the Mayor's office, the Board of Commissioners, Chambers, Market House and Station House, and also for Street Lamps, at a fixed price per lamp, with fuel for one year, to be paid for on or before July 1st, 1884—excepting that part of the city which is now lit with Electric Light, which shall commence from December 1st, 1884. The company furnishing the gas shall light all the lamps, make all connections to the lamp posts at their own proper cost, and disconnected without charge to the city. Also, sealed proposals for the furnishing of Lamp Posts and Lamps for gas, complete and ready for use, which may be used during the year. Posts to be of the same style and kind as those now in use in this city, and Lamps of a style similar to those in other sections of this city. Bidders are required to furnish a plan to be of iron and weigh at least 50 pounds.
