THE TOBACCO TRADE.

THE STATE OF DIFFERENT MARKETS. Transactions to New York and Philadelphia

-Timely Suggestions to Growers-The Local Market. The Tobacco Leaf furnishes the follow

ing resume of the market:
Seed Leaf.—The demand for this article resulted in sales of 1,150 cases, which indicates dull trade, after making allowance for the loss of a day in the business operations for the week. Sumatra-150 bales were taken at from 125 to 165c. A reporter for the Leaf adds the following : Sales amount to 280 bales ;

125 to out of town buyers, and the balance to city trade. Quite a number of sales are reported as having been made on sample for future delivery. The next subscription sale of Sumatra will take place at Amsterdam early in June. Spanish—Havana fillers have been sold

to the extent of 300 bales at from 80 to 115c. Virginia Leaf.—No sales of importance are reported this week, though the op

portunity for making desirable selections from the stock in band is good. Plug.-This market continues quiet, though dealers have felt more encouragement this week, owing to the receipt of increased orders for tax paid goods from some of the jobbers. These buyers, however, seem to neglect fine goods of the navy styles, and we find low priced goods are the ones at present desired by them. We have had out of town inquiries for cheap bright 11 inch, but our market is destitute of stock. Several hundred packages could have been placed if they could have been procured. The experts were 95,090 pounds.

Smoking.-Popular grades and brands n fair demand. Cigars .- A steady but not appreciably

active inquiry is reported. Advice to the Trade. From a long editoral in the Leaf we take the following extracts: The present situation of the tobacco industry is good in all departments, and it will continue good in the immediate future if the prospeet be not impaired by over production of leaf this summer. Should there be an increase in the product this year over that of last year to the extent of from twenty five to thirty per cent, as is foreshadowed in the estimates of correspondents, the effect upon growers will be prejudicial in the extreme. The range of prices now established can be maintained, and growers and dealers be insured a fair profit, provided it be let alone; but if growers, by reason of their improved fortune the past year, are tempted to disturb it by raising more tobacco than is required, they will be likely

to find before August is passed a very material decline in quotations. Though mainly out of growers' hands, the crop of 1883 will not for some months be entered for consumption. It and the remainder of old crops are still in the warehouses of prizers, packers and dealers and no one knows how much the total available supply amounts to. Estimates in this connection are guesswork from beginning to end, and are as likely to be under as over. It is certain that, excepting the poorer grades, there is no weighty surplus of leaf in either the home or foreign markets, yet neither manufactur 45; 200 cases 1883 New England, 11@30. ers nor exporters are buying freely in the | Total, 1,150 cases. markets, as may be learned by a perusal of the weekly market returns Packers and dealers have been the principal buyers of late, and their operations have made it appear as if business was very active. But it is not. It will be, however, before

close of this summer, if moderation is exhibited in this matter of planting within he ensuing few weeks. In the interest of the whole tobacco industry, we advise only an average annual setting of plants. With the stocks how in hand there should be grown this year not more than 225,000 cases of seed leaf, including Havana of all domestic varieties, and 250,000 hogsheads of to-bacco manufacturing leaf, including Maryland, Virginia, Ohio, Indiana, Ken tucky, Tennessee, Missouri and North Carolina. This will yield an aggregate of Cariona. This will yield an aggregate of caster, Lawrence, Lebanon, Lehigh, Lycoming, Mercer, Mifflin, Montgomery, Monteny, Northumberland, Perty, about 400,000,000 pounds of leaf, which is as much as should be produced this year, if it is desired to keep prices at the pre-

sent range and protect growers, prizers, packers, dealers and manufactueers, How much seed leaf is available in the markets, in the growing and packing sections, and in manufacturers' storerooms cannot be told, but it may be taken for granted that the quantity is full rather an deficient, except in respect of the

finest grades of wrappers, therefore there s no necessity for the planting of more thau an average crop.

The supply all round is about right as it is ; don't load it down this sesson. That and that only, is what we want to impress upon the minds of growers. Now that there is a fair opportunity for all, keep the

To seed leaf growers, furthermore, we would, in conclusion, again say, don't rush Havana seed! You are rushing it now, but our idea is that it will be well to "go slow." If you must increase your Havana acreage to be up with the times, make your limit one half of your entire planting, instead of two thirds or more, So will you maintain prices, and so will you be able to supply the future demand, which will continue to embraca the old

The market this week is only moderate ly active. No large sales have been made, yet the amount of business done in small lots foots up fairly well. The manufacturers and jobbers are buying in this, very much as in other trades, just to meet immediate requirements. There is H. GERHART'S WATER COOLERS, meet immediate requirements. There is nothing of a speculative tendency in the market. Some manufacturers who are given to a little croaking are apprehending a failing off in demand, and talk about lower prices, and poor stocks, and a host of other cylls; but in spite of these

very little of the '83 crop has arrived in this market, and every lot is offered is taken up promptly. Good grades of 1881 and 1882 in Pennsylvania and Connecticut are beld firmly and are considerably sought after. A number of our dealers report a considerable movement in Ha vaua. Some little is also doing in Su matra, of the old crop, that was brought in before the increase of duty. There is not much in the market, and the price is

One of our large dea's a reports a sale

Cigar manufacturers report a little

of nearly 100 cases of Havana reid.

slackness in orders during the past week. Most of the firms have their salesmen on the road, and anticipate a fair improve-ment in business inside of the month. Receipts for the past six days were 514 packages of leaf and 2,743 of manufactured tobacco.

The Lancaster Market.

high.

rather too cold to warrant farmers to push their plantings. Indeed, not only in Lancaster county, but in other districts there have been two or three heavy frosts which did some damage to the plants set out as well as to those in beds that were left uncovered, but there are enough plants left to supply the place of those injured

left to supply the place of those injured by the frost.

We hear some complaints of injury by the fica beetle which is again playing havoc with the young plants. A grower who has had experience says that two table spoonsful of paris green to one half bushel of plaster will destroy them and the cut worms. It should be put on the plant right after it is planted. The best method of applying it, so as to get it on evenly and not too much, is to get a pipe made at the tinsmith's twenty inches made at the tinsmith's twenty inches long, four inches in diameter, having the bottom perforated and a handle on the top. A boy can do such work, and a shake or two over each plant will be sufficient; an overdose of it has destroyed many plants as well as the beetle.

As stated last week the crop of 1883 in our county has been very closely bought, and most of it has been delivered at the warehouses of the purchasers, where packing still goes on briskly, and will

continue for a week or two longer. Over in York county business continues brisk. Messrs. Kendig & Son, of Lancaster, received a large lot purchased in Manchester, North Cederus, Jackson and other townships in that county. The purchases had been made some time back. The prices ranged from 81 and 2, to 15 and 5.

The following are the names of the parties who delivered their tobacco and the prices paid : Jacob Schroll, 600 pounds, at 7 and 2; John Brown, 1,500, at 7‡, 2, 2; Zack Gross, 700, at 11, 2, Zack Gross, 4,000, at 8, 2, 7, 2; George Gross, 1,500, at 10, 2; George

Snyder, 2,500, at 9, 2, 2; Edward Snyder, 1,800, at 7, 2, 2; Edward Snyder, 1,500, at 6½, 2, 2; Daniel Kohr, 5,000, at 10½, 2; Daniel Kohr, 3,500, at 9½, 2; Daniel Kohr, 2,500, at 9½, 2; Daniel Kohr, 1,800, at 8, 2; Wm. Whorly, 800, at 7, 2; T. W. Gross, 400, at 8, 6, 2; Moses E. Bare, 2,000, at 7½, 2; Wm. Quickle, 200, at 10, 2; Levi Shellenberger, 4,000, at 9, 2, 2; Samuel Wagner, 3,500, at 7½, 2; Jos. G. Wallace, 900, at 8, 2, 2; John E. Harris, 1,200, at 7, 2, 2, 2; Frank Wilson, 2,500, at 9, 2, 2; 2, 2; Frank Wilson, 2,500, at 9, 2, 2; 7, 2, 2, 2; Frank Wilson, 2,500, at 9, 2, 2; S. Adams, 3,000, at 8, 2, 2; S. Adams, Havana, at 18; J. W. Campbell, 3,200, at 5; Elias Boyer, 6,500, at 5; Henry Hershey, 5,000, at 8, 5, 2; John Lehr, 4,500, at 7, 2; E. Martin, 1,500, at 6, 2; Wm. A. Ness, 2,500, at 8, 2; Joseph Hershey, 3,600, at 8, 2; Jacob Hershey, 1,600 at 5, 2; Henry Hershey, 1,600, at 15, 5, 2, and about 5,000 to 6,000 pounds not given above, whose names we could not learn.

Gane' Weekly steport

Following are the sales of seed leaf tobacco reported for the Intelligencer by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending June 2, 1884: 560 cases 1882 Pennsylvania, 5@25; 200

THE STATE WHEAT CROP.

A Great Majority of the Counties Show an Increase of Froduction.

Secretary Edge, of the board of agricul ture, has just received and tabulated the official crop reports of his 450 state reporters up to Jane 1. If present indications are taken as a guide the counties of Beaver, Elk, Franklin, Jefferson, Luzerne, Monroc, Northampton, Philadelphia, Snyder, Susquehanna and Westmoreland may be de-Montour, Pike, Somerset, Tioga, Union, Ve-nango, Warren, Wayne and York will tucrease the coming crop over that of last year in amounts varying from 1 per cent in Adams, Cambria, Somerset and Warren to 11 per cent. in Allegheny and Venango. The greatest falling off, when compared with the crop of 1883, is in Washington, where the average estimate of all the reports indicate a possible deficiency of 20 per cent lu acreage Adams, Bedford, Berks, Centre, Chester, Clinton, Fulton Monroe, Susquehanns, Union and West-moreland report a falling off, varying from 2 per cent. in Crawford, Dauphin, Greene and Potter to 11 per cent. in Luzerne With these estimates as a basis, and mak

ing no allowance for possible damage done by the recent cold snap, it is estimated that the wheat crop of 1884 will reach 223,500,000 bushels. Western estimates place the wheat crop our state at 250,000,000 bushels, but since the results of the local reporters have come these estimates have been reduced to

a point which more nearly corresponds with that of our state department. No Deception Used.

which will continue to embracathe old tashioned seed leaf whether you choose to grow it or not. If we were growing cigar leaf tobacco, half our product should be seed and half Havana for some years to come.

Philadelphia market.

No Deception Used.

It is strange so many peope ill continue to suffer day after day with Dyspepsia, Liver Complaint, Constitution, Sour Stomach, General Debility, when they can procure at our store SHILOH'S VITALIZEK, free of cost if it does not cure or relieve them.
