After his three companions had landed they searched for him, but were unable to

KEMUED FROM DEATH. The following statement of William J. Cough in, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fall of 18761 was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the sum-mer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expendover a hundred dollars in doctors and medcines. I was so far gone at one time a report went around that I was dead. I gave up hope but a friend told me of DE. WM. HALL'S BALSAM FOR THE LUNGS. I laughe at my friends, thinking my case incurable, but I got a bettle to satisfy them, when to my surprise av d gratification, I commenced to feel better My hope, once dead, began to revive,

and to lay I feel in better spirits than I have the past three years.
"I write this hoping you will publish it, so that every one affiteted with Diseased Lungs induced to take DR. WM. An old gentlemau was speeding up lower Broadway in the sharp shower of Sunday evening, anxiously seeking a place of shelter. At the corner of Maiden lane a little boy with a large voice shouted:

"Hey, Mister! Hey, Mister!

The wild, red flag out-danger ahead look upon the boy's face impelled the old gentleman to stop.
"Well, what is it?" he demanded breathlesly, "what's the trouble, boy? Speak quick!"

Reigart's Old Brandy, Reigart's Old Brandy,

Sold by our enterprising triend, H. E. SLAY MAKER. This brandy has stood the test for years, and has never falled, as far as our experience extends, and we therefore give it the preserence over all other Brandies—no matter with how many law breaking French titles they are branded. One lourth of the money that is yearly thrown away on various impotent dyspepsia specifics, would suffice to buy all the Brandy to cure any such case or cases, in proof of the curative power of

Reigart's Old Brandy In cases of Dyspepsia we can summon num-bers of witnesses—one case in particular we bers of witnesses—one case in particular we will cite:
A hard working farmer had been afflicted with an exhausting Dyspepsia for a number of years; this stomach would reject almost every sind of food; he had sour cruetations constantly—no appetite—in fact, he was obliged to restrict his diet to crackers and stale bread, and as a beverage he used McGrann's Koot Beer. He is a Methodist, and then, as now, preached at times, and in his discourses often declaimed earnestly against all kinds of strong drink. When adviced to try

Reigart's Old Brandy In his case, he looked up with astonishment; but after hearing of his wonderful effects in the cases of some of his near acquaintances, he at last consented to follow our advice. He used the Brandy faithfully and steadily; the first bottle giving him an appetite, and before the second was all taken he was a sound man, with a stomach capable of digesting anything which he choose to cat. He still keps it and uses a little occasionally; and since he has this medicine, he has been of very little pecuniary benefit to the doctor.—A Practicing Physician.

"That is a preity illustration," remard the friend musingly, gazing into the glowing coals which radiated a pleasant heat from the many-windowed stove. "You know we cannot stop tolling up the hill, though."

"Surely we cannot, and for myself I don't find fault with that necessity provided the advance in life is not attended with calaunity or suffering, for I have had my share of that. Not long since my health utterly broke down, My system was full of malaria. My digestion became thoroughly disordered and my nerves were in a wretched state. I was languid, ate little and that withoutenloying it, and had no strength or ambitton to perform even my light household dutes Medical treatment failed to reach the seat of the trouble. The disease—which seemed to be weakness of sill the vital organs—progressed until I had several attacks which my physicians pronounced to be acute congestion of the stomach. The last of these was a desperate stringgle and I was given up to die. As the crists find partially passed, my husband heart of the merits such cases as mine. I took it and felt its good effect at once. It appeared to parvade my body, as though the bleesing of new life had come to me. Taking no other medicine I continued to improve and am now in better health than I have been for a long time."
