**DR. LA GRANGE,**  
105 FILBERT STREET, PHILADELPHIA, PA.

**THE TOBACCO MARKET.**  
STILL FAVORING THE CROP OF '83.  
The Crop of '84 Pretty Well Harvested and of Good Promise—New York and Philadelphia Markets.  
During the past week 200 cases of 1881 and 300 cases of 1882 tobacco were sold on private terms. Sampling of 1883 tobacco is still going on and the tobacco is turning out well. The 1884 crop is pretty well looked up by farmers, especially well of their Havana seed.  
New York Market.  
From the U. S. Tobacco Journal.  
Another and drier week has passed, October 24 tobacco a sale of 100 cases Wisconsin Havana seed at 25 cents has been reported. Philadelphia jobbers took about 350 cases of '82 Pennsylvania wrappers which sold at low as 12 1/2 cents. Connecticut wrappers, the sale of which reached 300 cases, sold mostly at from 14 to 16 cents. Some thin and unswayed wrappers but suitable for binder purposes brought 22 cents. For good thin binders everybody in the market is on the lookout for anything. The goods are fairly thrown away to the few struggling buyers, and the losses to the sellers are enormous. Old tobacco, except binders, are a drug on the market. The cheapness of this article, the desire to sell it before the season nominal figures, has caused an immense glut in the cigar market in cheap and medium grades of cigars, an illustration of which can be found in our Chicago correspondence of to day. Sampling of '83 stock is still progressing, and it is mostly confined as yet to Pennsylvania and Wisconsin Havana seed packings. In Sumatra a moderate business was done; prices ran from \$1.15 to \$1.25; the average grades in demand are such as sell from \$1.20 to \$1.30 in lots.  
Havana—Quiet; sales 400 bales, at 85 cents to \$1.35.  
Leaf—We hear of sales made the past week for all the ordinary destinations, including Legies, but do not know the aggregate nor the grades purchased. When we publish the monthly circular next week perhaps some light will be shed on the subject which is doing in this market. In common with our readers, we patiently await such revelations as may be graciously vouchsafed a week hence.  
Seed Leaf—The seed leaf market is without feature, except that of dullness, as of late, the reported sales amounting only to 800 cases. There is, however, general inquiry, and "looking around" is the order of the day, which would seem to augur a good business for leaf dealers at an early day.  
Virginia Leaf—Very little business doing this week. Nothing sold except a few bales of light cutters from 18 to 25 1/2 August has been about as dull as July. No business of any account done.  
Havana—Havana seed packings have been sold to the extent of 300 bales, at from 75 to \$1.25.  
Sumatra—About 100 bales have been reported sold at from \$1.25 to \$1.75.  
Sumatra wrappers \$1.20 to \$1.40.  
Plug—the past week has shown a slight improvement, in that several orders have been taken from unexpected quarters but there is no boom yet. Travelers who are now returning promise a fine business this fall, and they bring some orders with them. There is a slight improvement in the export trade, which has been about in dead the past month, orders coming in from the right quarter. Prices continue high, and we see no prospect of their being lower if the quality is kept up. Exports for the week, 95,710 pounds, and for the week preceding, 170,813 pounds.  
Smoking—Popular brands have been as usual, in good request, and we note an increased inquiry for assorted grades.  
Cigars—The demand for cigars is moderate active, both for domestic and imported.

New York Market.  
From the U. S. Tobacco Journal.  
Another and drier week has passed, October 24 tobacco a sale of 100 cases Wisconsin Havana seed at 25 cents has been reported. Philadelphia jobbers took about 350 cases of '82 Pennsylvania wrappers which sold at low as 12 1/2 cents. Connecticut wrappers, the sale of which reached 300 cases, sold mostly at from 14 to 16 cents. Some thin and unswayed wrappers but suitable for binder purposes brought 22 cents. For good thin binders everybody in the market is on the lookout for anything. The goods are fairly thrown away to the few struggling buyers, and the losses to the sellers are enormous. Old tobacco, except binders, are a drug on the market. The cheapness of this article, the desire to sell it before the season nominal figures, has caused an immense glut in the cigar market in cheap and medium grades of cigars, an illustration of which can be found in our Chicago correspondence of to day. Sampling of '83 stock is still progressing, and it is mostly confined as yet to Pennsylvania and Wisconsin Havana seed packings. In Sumatra a moderate business was done; prices ran from \$1.15 to \$1.25; the average grades in demand are such as sell from \$1.20 to \$1.30 in lots.  
Havana—Quiet; sales 400 bales, at 85 cents to \$1.35.  
Leaf—We hear of sales made the past week for all the ordinary destinations, including Legies, but do not know the aggregate nor the grades purchased. When we publish the monthly circular next week perhaps some light will be shed on the subject which is doing in this market. In common with our readers, we patiently await such revelations as may be graciously vouchsafed a week hence.  
Seed Leaf—The seed leaf market is without feature, except that of dullness, as of late, the reported sales amounting only to 800 cases. There is, however, general inquiry, and "looking around" is the order of the day, which would seem to augur a good business for leaf dealers at an early day.  
Virginia Leaf—Very little business doing this week. Nothing sold except a few bales of light cutters from 18 to 25 1/2 August has been about as dull as July. No business of any account done.  
Havana—Havana seed packings have been sold to the extent of 300 bales, at from 75 to \$1.25.  
Sumatra—About 100 bales have been reported sold at from \$1.25 to \$1.75.  
Sumatra wrappers \$1.20 to \$1.40.  
Plug—the past week has shown a slight improvement, in that several orders have been taken from unexpected quarters but there is no boom yet. Travelers who are now returning promise a fine business this fall, and they bring some orders with them. There is a slight improvement in the export trade, which has been about in dead the past month, orders coming in from the right quarter. Prices continue high, and we see no prospect of their being lower if the quality is kept up. Exports for the week, 95,710 pounds, and for the week preceding, 170,813 pounds.  
Smoking—Popular brands have been as usual, in good request, and we note an increased inquiry for assorted grades.  
Cigars—The demand for cigars is moderate active, both for domestic and imported.

**THE TOBACCO MARKET.**  
STILL FAVORING THE CROP OF '83.  
The Crop of '84 Pretty Well Harvested and of Good Promise—New York and Philadelphia Markets.  
During the past week 200 cases of 1881 and 300 cases of 1882 tobacco were sold on private terms. Sampling of 1883 tobacco is still going on and the tobacco is turning out well. The 1884 crop is pretty well looked up by farmers, especially well of their Havana seed.
