Magic No More a Mystery-Seen

From Across the World. "Haroun of Aleppo," said Sir Philip Derval, "had mestered every secret in nature which the nother magic seeks o inthom. He discovered that the true art of healing is to assist Nature to throw off the discose—to summon, as it were, the whole system to eject the enemy that has lastened on a part. His processes it included the reinvigoration of the meiple of life."

In this the Kastern and mercily as United States for his individual profit. His

sli incluesi the reinvigoration of the inciple of lile."

In this the Eastern sage merely authorated the practice of the best physicians of to day. In this the Eastern sage merely authorated the practice of the best physicians of to day. What lile itself is, nobody knew then—nobody knows now. But we have learned something of the reasons why the mysterious tide rises and halfs. Provided the great organs of the body are not irreparably destroyed, medical science can aiways relieve, and often save. Yet no reputable physician now adheres to the barbarous and stupid processes of depiction, such as bleeding, by which it was attempted to cure disease by reducing the pattent's ability to cests it. Nowadays we do not tear down the fort to help the garrison—we strengthen it. In this intelligent and beneficent work, it is conceded that PAhK-BKS TUNIO leads sail other medicines. As an invigorant it acts immediately and powerfully upon the circulation and the organs of digestion, thus giving Nature the assistance sho calls for. It follows that all allments of the stomach, kidneys and liver are at once relieved or cure). No other preparation embodies the same qualities or produces similar results. DEMOCRATIC COMMITTER'S ADDRESS. the Duty of the Democracy in the Pending Struggle-Jingo Blaine's Public Record Assailed The nati nal Democratic committee has

Twenty fou th street, New York, the folowing address : To the People of the United States : The result of the elections on Tuesday

last in the states of Oh o an i West Virginia is before you. Obio chose Republican electors in 1868, 1872, 1876 and 1880; West Virginia chose Republican Presidential electors in 1868 and 1872, and Demo-oratic electors in 1876 and 1880. Garfield obtained a plurality in Ohio in 1890 of 84,227 votes. The Republican candidate in the late election for secretary of state was a gallant soldier and a reputable man. The vote of the Republican party in the election was broken down by the weight of Mr. Blaine, a factional seeker after the presidency. The people elected a Democratic majority of the congressional delegation of the state, and we may confident. ly expect a majority in Ohio for Cleveland and Hendricks in November. West Virginia has, by its splendld and decisive majority for a Democratic governor at the October election, already declared its

purpose to give her electoral vote for our candidates in November. The Blaine managers employed extraordinary methods in both states. They ex-pended not less than \$500,000 in West Virginia in their political work. They did not use money only. They called from every state the officeholders best fixted to do the work at which they were put. They crowded these two states with such meo. They employed in political jobs men engaged in the postal service of the United States. They left the veterans who had saved the life of the nation without the pay to which they were entitled, under the pretense of having an insufficient clerical force in the pension bareau, and then used the comnissioner of pansions and a great number of his clerks as parts of their political machinery in the late elections in Ohio and West Virginia. It has been openly charged, without denial, that the pay ment of the veterans by the dom-missioner of pensions has been do layed by him with the purpose of coercing them to vote for Mr. Blains These abuses of political power have been committed under the overlooking eye of Mr. Blaine, and with his full sauction, they show the manner in which, it he elected, public offices would subordinated to his personal service and the bounty of the country be made the means of advancing his personal interest-They made the marshals of United States and their deputies, who ought to be the guardians of the rights of every citizen of force. They armed and incited them to

the United States, a part of their muchina violence and outrage. They expect to pay for the weapons and services of these men out of the treasury of the United States. They made Mr. Blaine one of their county and ward workers in Ohio and West Virginia, and he entered with zest upon the familiar duties. They devised with his knowledge methods of compelling workevery disreputable plan which they de. there to out down the prickly evergreen vised to promote his success. He could oak which covers it as fodder for their not have been a stranger to their purpose, to make gains in Cincinnati at the elec-tion of Tuesday last by using armed deputy marshals and armed negroes to drive voters from the polls. The methods of their campaign in Ohio and West Vir-ginia, and the share of their candidate in

these methods, have added to the opprobrium already resting upon his name. and have assured his defeat at the general election in November.

Mr. Blaine has been a member of the sentatives for his individual profit misconduct has been proved by his own letters. These have confronted him wherever he has some. He has attempted no explanation. The phrases of these letters are so well known that they are the by words of the streets and jests upon the stage. A speaker of the House of Representatives, a member of that House, who would barter his influence for money or property, might avail himself of the larger opportunities which the office and powers of a president afford. These are not words dictated by party rancor; they sum up the judgement of that independent press which is and always will remain the bulwark of good and constitutional government. They express the convictions of the leading Republican journals and the belief of those distinguished Republi can statesman and citizens whose love of country has forced them to de-clare that the nomination of Mr. Blains

was one not fit to be made. There is reason for our confidence that we will schieve a victory in November. 'The arm y of offceholders engaged for a month past in the business of manipulating votes in Ohio and West Virginia must now dis-band; each man of the number must go to his own place. The commissioner of pensions and his bureau of clerks cannot LOTZ & CO.'S TONIC,

FOR

LIVER COMPLAINT, DYSPEPSIA AND CRAMPS.

DITIOLS, pensions and his bureau of clerks cannot be concentrated for political uses in the November elections; when they are acting individually in their several states they will be unable to do mischief. The Marshalls of the United States, by reason of the powers which they exercise, may again do harm in November. They ought to understand that for what they may do they will be hereafter held to the strictest account by a justify indignant people. The account by a justly indiguant people. The hopes of reward and the promises of indemnity which have been held out to them will not avail them in the days which are close at hand. The country is fully aroused. It is alarwed by

the corrupt influences surrounding Mr. Biaine, and will reject him as president. Mr. Blaine has grown rich. The men around him have grown rich. The specaators whom he has aided by framing laws to suit them are rich. The corporations which he has helped have monopolized the public lands. But trade is stagnant; the commerce of the country has decayed; mill are standing idlo; where wages have not been stopped they are reduced; mechanics and laborers go about seeking employment in vain; women and children are beginning to want bread, and yet the farmer can find no profitable market for his grain. These circumstances furnish conclusive proof that a few interests have been cared for by the Republican managers at the expense of the interests of the great body of people. The creation in this favored land of such extremes of wealth and poverty, and the evil days which have overtaken all who are engaged in labor are not your fault. in labor, are not your fault. It has been, and is, the fault of those soldish men who the powers which you gave for their own advantage leav-

ing you to fare as best you could. It is for you to determine whether these evils shall continue and increase or di-

minish and end in a general prosperity shared in by all alike. You have a right to expect that your party leaders, to whom

you have given support and accorded honors in past years, will lay aside all differences and establish a lasting claim upon your gratitude by making common cause in your supreme efforts to obtain the b'ersings of a good government. You will not be disappointed. Remember that victory in November over the unscrupulous sued from the headquarters, No. 11 West men who are now endeavoring to seize the presidency can only be assured by your complete organization. When men are of one mind and want to impress their opinion upon the community in which they live they must stand together. The highest and best organization of which men are capable is that in which every man wants to do that part of the common work which he can do and does it with all his might Your organizations ought to be of such a rature, and, if they are, Grover Cleveland will be elected in November by

an unparalled majority.

Macmilitan's Magazine. The position chosen for this convent is most extraordinary. A long line of cliff, about two miles from the town, runs sheer down 1,000 feet into the sea; a narrow road or ledge along the coast leads along this chiff to the convent, which is built half way up. Nothing but the outer wall is visible as you approach. The church and cells are made inside the rock. This convent was founded by the Byzantine Emperor, Alexius Comnenus, picture existed until lately, but they raffer here frequently from rocks, which fall from above, one of which fell not long ago and broke into the aspe of the church and destroyed the picture of the emperor. We entered by a drawbridge, wi h fortifications against the pirates, and were shown into the reception room, where the Sautorin, met us and conducted us to the cells in the rock above, to the storehouses below, and to the narrow church, with three of which were to be the object of such extraordinary veneration dur-ing Easter week. The position of this convent is truly awful. From the bal-contes one looks deep down into the sea,

and overhead towers the red rock, black-ened for some distance by the smoke of the convent fires; here and there are detted holes in the rocks, where hermits nsed to dwell in almost inaccessible cyries. It is, geographically speaking, the natural frontier of Greece. Not twenty miles off we could see from the balcony the Turkish islands, and beyond them the coast of Asia Minor. Our friendly monks looked too sleepy and mert to think of suicide. otherwise every advantage would here be within their reach. Three of the five silver nikens in this church were to be the object of our veneration for seven days to come. One adorns the portrait of the Madonna herself, found, they say, by some sailors in the sea below, and is beautifully embossed and decorated with silver one of St. George Balsamitis, the patron saint of the prophetic source of Amorgos, or which more anon; and the other is an iron cross set in silver, and found, they men to vote as their employers dictated.
