Magio No More a Mystery-Sees

From Across the World. "Maroun of Aleppo," said Sir Philip Derval, "had mastered every secret in nature which the nobler magic seeks to rathom. He discovered that the true art of healing is to asian Nature to throw off the discoso—to summon, as it were, the whole system to eject the enemy that has isstened on a part. His processai included the rainwigoration of the inciple of lite."

all included the rainvigoration of the interplaced the practice of the best physicians of to-day, what his itself is, nobody knew them—nobody where we have learned something of the reasons why the mysterious tide rise and talls. Provided the great organs of the body are not irreparably destroyed, medical elegans can always relieve, and often away yet no reputable physician now adheres to the barbarous and stepid processes of depiction, such as bleeding, by which it was attempted to cure disease by reducing the particular down the tort to help the garrison-we strongthen it. In this intelligent and beneficent work, it is conceded that FARK-X-TOMIC leads all other medicines. As an invigorant it acts immediately and powerfully upon the circulation and the organs of digestion, thus giving Nature the ametical elevation of the stomach, kineys and liver are at one relieved or cured. No other preparation cubodies the same qualities or produce affinity results, It is delicious to use, and the his intelligent and bother the same and results, It is delicious to use, and the his knewn anti-intoriesant.
