WEDNESDAY EVENING OCT. 29, 1884.

An Artistic Evasion.

The Republican party has passed through some severe trials since the day of its birth, but it seems now to have reached the rocks on which it will be wrecked. It is a corpse and the effort to galvanize it must necessarily be futile.

Here is the case of James F. Joy, who charged, according to the testimony of Mr. Beecher, that Mr. Blaine, when speaker, offered to form a committee as Joy desired it, if the latter would take off his hands at par certain depreciated bonds.

It is believed that Logan will never murder English in the chair of the president of the United States Senate.

It is believed that Logan will never find 'obstacles in which to make himself useful' as an occupant of the presidential chair.

THE typhoid in Japan and the zales in the British Isles will be miniature zylphs compared with the Democratic cyclone that will sweep the country next Tuesday.

THE Toledo base ball club disbanded after sinking \$30,000. Will anyone assume that Frank Hurd's free trade proclivities had anything to do with thwarting the protection it didn't receive?

IN Virginia two colored preachers lately engaged in a praying match for a purse of \$500 to the one praying the loudest and longest. This latest addition to the many ridiculous forms of contests is destined to be the novelty that will draw at the campaigning of the future.

A SHORT time before every presidential election there come from various points in the country stories of wavering Democrats. A correspondent at Brecknock has striven to make it appear that there is enormous defection among the Democrats there. It is all a myth.

WHATEVER views may be held on the subject of temperance, those who have honest convictions on the subject and are fearless in expressing them, are entitled to the credit that belongs to people who have the courage of their opinions.

MR. JOY GIVEN THE LIE.

MR. JOY'S LETTER FROM THE FLYING PATROL TO WHICH THE LITTLE ROCK AND FORT SMITH BONDHOLDERS ARE REFERRED.

Mr. J. F. Joy has written a letter from New York in answer to Rev. Ward Beecher's charges, in which he says: 'Knowing full well the present state of the controversy, and knowing, also, perfectly the conversation which did take place at that time, I can state with the most absolute certainty that I never said in that or in any other conversation with anybody, that Mr. Blaine, when speaker, made an offer or proposition directly, or through a third person, that he would appoint a committee to suit me or put a man upon that committee such as I wished, if I would buy Little Rock and Fort Smith bonds for my own use.'
