THE GRAY MEDICINE CO., Buffalo, N. Y

A FULL LINE OF LORILLAND'S PLUG and Fountain fine cut Tobaccos. Aiso, articless Suncting Tobaccos at HARTMAN'S TRILLOW FRONT CIGAR

There has not been much doing in Lancaster during the past week. Political excitement ran high and nobody had time to attend to business. Only about 200 cases of old tobaccos have been reported sold, and a still smaller quantity of '83 leaf. No sales of '84 are reported. Indeed very little of it has been as yet stripped. Two-thirds of our tobacco farmers are Republicans, and they have not yet recovered from their stunning defeat. The other third are Democrats, and they are keeping up the jubilee they have been waiting for for a quarter of a century. Both sides will probably settle down to business and get their leaf in condition to meet the fastidious tastes of the buyers. The crop is a good one and if properly cured, stripped and baled will bring good prices, especially that part of it which is Havana seed.

By the way, how many of our tobacco growers tobacco

By the way, how many of our tobacco growers, tobacco packers, or cigar manu-facturers are going to be represented at the great New Orleans exposition? Those of them who desire to send samples may do so without charge, by addressing the state agent, R. H. Thomas, at Mechanics-burg, Cumberland county, who will for-ward the goods to their destination.

THE NEW YORK MARKET. Hammerstein, of the Tobacco Journal, reports the trade of the past week as fol-

With the exception of sales of about 400 ases '82 Pennsylvania at prices ranging from 83 to 93 cents for export the market offered no noteworthy feature.

Doubtless business will improve soon. Stocks of leaf in manufacturers hands are very much reduced, and while there still remains a widespread complaint among them as to the absence of encouraging they will enter the market for fresh supplies.

In the meantime Sumatra carves chunks of business out of the body of the seed leaf trade. The sales of Sumatra run up to 200 bales this week. The reign of Sumatra is bound to come to an end, and before another six months elapse; pressure for an increase of duty will be so strong and the opposition so week that by May next a duty of \$1 a pound will very likely be inaugurated; if not that, the trade may be sure of a duty of 75 cents on all Sumatra wrappers. The total business of the week is too light as to require

specification.

The Tobacco Leaf thus summarizes the past week's trade: Western Leaf-Nobody in this market western Lear—Accordy in this market condescends to report any sales for the week just ended, but some have been made, nevertheless, to all the regular buyers. A reportorial glance into the various salesrooms showed piles of samples on the floors and busy hands looking them

Virginia Leaf—We can report a fair de-mand this week for export leaf and bright cutters. Some sales were made of Bur-ley fillers at from 12 to 14c. Nothing

doing in bright wrappers. Seed Leaf—There is, as yet, no improvement in the demand for seed leaf; in fact, the inquiry was uncommonly light the past week. It looks now as if the year was going to end with a very poor ex hibit of sales. It will be an off year with the best that can be done between now and December 31.

Spanish-Havana fillers are following Sumatra—The demand for this specialty has greatly diminished; sales 150 bales at

\$1.30 to \$1.68. \$1.30 to \$1.68.

Sumatra wrappers \$1.30 to \$1.68c.

Plug—The election being over, there are indications of a revival of trade, people now attending to business more than to politics. During the week there was some demand for bright 11 inch and navy styles, common grades. Jobbers are holding out for slight reductions in prices, which manufacturers seem reluctant to which manufacturers seem reluctant to grant, as they claim that desirable old

leaf is very scarce and high. On common grades a slight reduction may be accorded soon. Export goods, made strictly of Virginia leaf, cannot well be lower in price until the next crop is fit to work, which will be some time next spring. Exports amounted to 79,889 lbs.

Smoking—Increased activity was observable in the smoking tobacco trade. Cigars-Both manufactucers and impor

BALTIMORE MARKET.

Maryland tobacco is coming forward more freely since the weather has been favorable for handing. We continue to note a firm and active market for all desirable samples. Shippers generally are ready buyers. All the good ground leaves offered are taken at 8@10s. Of Ohio receipts are nominal and stock steadily being reduced. Nothing worthy of note in the way of sales the past week. Holders

SOUTHERN MARKET. The Henderson, N. C., Gold Leaf says. There were large breaks of tobacco a our warehouses last week. It was remarkable that the break of Saturday was able that the break of Saturday was unusually large for the last day's sale. The big prices being paid is a stimulus to the farmers to bring it in. Our warehouses had the biggest tobacco sales of the season last Friday There were several loads here from Nash county, all nice tobacco and sold well. The farmers returned home pleased with the prices obtained."

The markets in Riehmond and Danville, a, are reported dull. WESTERN MARKETS.

In Edgerton, Wis., the election excitement has had but little effect upon the tobacco market. Buyers are still busy riding the country over, and sales are being made whenever satisfactory terms can be greed upon between growers and dealers

THE INTERNAL REVENUE.

In a leading editorial, Mr. Edward Burke, editor of the New York Tebacce Leaf, gives his views on the internal revenue tax on tobacco. In the course of his remarks, he says: "I want to see the tobacco interest of this country, from grower to dealer in tobacco manufactures, expanded to the utmost capacity. Feeling so inclined, I believe all interests will be best served by ascessing the duty on Sumatra tobacco exactly as it is ascessed on other foreign tobaccos in leaf; and this is just the way it is now assessed by official ruling and the law as interpreted. I do not approve of making fish of one and flesh of another, to use a homely expression. If for the protection of our growers Sumatra leaf should be dutiable at seventy-five cents a pound, in common equity Havana leaf should be dutiable at the same figure, and so of other mon equity Havana leaf should be dutiable at the same figure, and so of other foreign leaf, and to this high rate the majority of cigar manufacturers, who consume now almost all our seed leaf, naturally object. In their conversion of seed leaf into cigars, they desire to use ad libitum Havana and Sumatra tobacco, and to buy both as lightly burdened with duty as possible. In this great question the preferences and needs of our great, vary great, cigar industry must be regarded as well as the industry of growing domestic cigar leaf. As taste, fashion and practice go, foreign leaf is a help to the consumption of domestic leaf, and will probably continue so. With our treaty as it is with the Netherlands, Sumatra tobacco cannot be taxed higher than tobaccos from other countries, except by a futile subterfuge, such as we have in the present tariff.

I would approve an effort to get rid of the existing muddling, mongrel tariff rates on leaf tobacco, and recommend an uniform duty, be it high or low, on all foreign leaf, making no invidious distinctions, which was often treablement and always.

leaf, making no invidious distinctions, which are often troublesome and always unjust.
I think the tobacco industry has paid its

I think the tobacco industry has paid its share of the national obligations incurred by the-late war, and that the time has come when the tax levied upon it should be abolished. With my opinion in this respect, possibly many tobacco tradesmen cannot agree. I conceive, however, that most people identified with the tobacco interest in its various forms would gladly welcome immediate abolition it coupled with rebate. The taxes themselves are not now bur-The taxes themselves are not now bur-densome, but the trammels of the internal revenue system are, and more opportunity for expansion would be afforded if those trammels were removed. I could heartly rejoice in once again seeing the tobacco trade as free as it was when I first became connected with it.

connected with it.

I also advise, in conclusion, just as I always have said, don't let Sumatra bother you or your and my friends, the growers. Seed leaf and Havana seed leaf as now grown in this country will steadily main-tain their popularity despite all the Su-matra lent that ever may come here. To harp on the Sumatra string so continually is to decry by implication the merits of

A sense of Goneness.

"Goneness" is hard to define scientifically, yet you know what it is when it overcomes you. It is a compound of lassitude, debility and "the miserables;" Havored with a seasoning of "the blues." Now you know. To get rid of "gonenes," take Brown's Iron Bitters, and be well and strong. Mr. J. M. Gentry, Hannibai, Mo., says. "I took Brown's Iron Bitters for pain in the back, loss of appetite, kidney disease, with good results."

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes: "I was afflicted with lung fewer and alseess on lungs, and reduced to a scaleing skeleton. Got a free bottle of Dr. King's Rew Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to beatth, with a hearty appetite, and a gain in fiesh of 45 pounds."
