A Boom in the Matrimonial Market-Other

The season of marriage and given in marriage is upon us. Last Thursday witnessed the wedding of Rev. Robert Boyd to Miss Lucy McKinnon, the bride of York; Mr. Henry Bowers to Miss Ella Wright, and Mr. Chas. Shoemaker to one community in one week. Change of administration does not affect them it ing. seems, and as the male portion of the con-tracting parties are all of the Republican faith, they no doubt view the situation with current philosophy that a change will be a good thing. Anyhow they have all the good wishes they can utilize.

An Important Arrest Near Labauon. Constables Gates and Pink, of Lebanon, made an important arrest in the person of William Bishop, at Annville, Lebanon county on Saturday charged with robbing the house of Michael Shaeffer, a short dis-tance above Annville, bucking and gagging him, and then firing the building. The affair occurred early in the morning, and an early riser, seeing smoke and flames emerging from the house, went to the scene of the conflagration and rescued poor Shaeffer from his perilous situation. The men who committed the outrage, which took place last spring, were masked, so that Shaeffer was unable to recognize the perpetrators. Recently, information reached the officers which points to Bishop as one of the guilty party. Constable Gates left town to arrest him, but not finding him at home, was compelled to wait until Saturday. Bishop is the man who turned state's evidence in the Horst burglary case. He was brought before Squire Thomas, Sunday morning and committed to prison until next Thursday, when a hearing will be given him.

Strengthening too Baptist Canse, Steps are now being taken by the de-nomination at large to strengthen and support the Baptist cause in this city, and for this purpose committees have been ap-pointed by the North Philadelphia Association of Baptist churches (with which association the First church is connected), by the Reading association (with which the Olivet church is associated) and by the Pennsylvania General State association. committees will meet in joint session with the Olivet church to morros (Tuesday) afternoon at 2 o'clock and with the First church at 8:30 o'clock. A meeting of both churches has been appointed, for the First church in the evening, at which time a sermon will be preached by some eminent divine. Rev. Patent Granted. A patent, No. 808,101, was issued to Martin Shirk, of Ephrata, on Tuesday last, for an improvement in a tobacco granulating machine. The novelty in this patent consists in a concave breaker bed, the bottom of which is formed of a seive, having a cylindrical breaker working therein, the breaker and the breaker bed being provi-ded with teeth for the purpose of cutting the tobacco into small particles, together with a reciprocating seive working and delivering at right angles with each other. The patent was secured through W. R. Gerhart, patent schoitor, of this city.

A new telephone company is now being organized by a party of gentlemen of this city, and they expect to have it in operation in a short time. Already over three hundred subscribers have been secured and the villages throughout the county will be connected with the line. The telephone, which was patented by James W. McDonough, of New York, will be used. Two of the instruments have been received and will be placed in the offices of the American Rapid telegraph company on North Queen street and the Stevens house. A wire will connect them and they will be on trial for a short term in order that subscribers and others may see how they work. The price for the telephone per year will be between \$26 and \$30. The price of the telephone furnished by the Pennsylvania company is \$45 per annum. A New Telephone Company.

There is very general complaint among the patrons of the Reading & Columbia railroad and especially from passengers over the joint line to Lebanon, that the train which leaves this city at 12:50 p. m., leaves from the outer depot only and that the train arriving at 2 p. m., does not run down to the King street station. Persons are much hurried in their business, patrons of the road are inconvenienced and much traffic is doubtless lost for the lack that has been completed in the United states, the Le Moyne, at Washington, Pa., of better accommodations in the matter complained of.

pistoe's Weakness,

From Harper's Weekly. There were four doubtful states upon whose votes the election turned ; but Mr. Blaine did not carry one of them. Massabusetts is the original and representative Republican state. In three presidential elections the average Republican majority has been 56,000; but Mr. Blaine gets less than half of the votes cast, and except for the diversion of his ally Butler, he would have lost the state. Four years ago Gar-field carried Michigan by 53,000. This year, week after the election it was not clear that Mr. Blaine had carried it all. Iow: that Mr. Blaine had carried it all. Iowa gave Garfield a majority of 78,000. Mr. Blaine may receive a majority of 18,000. Illinois cast 40,000 majority far Garfield. It has possibly given Mr. Blaine 28,000. The Garfield majority in Wisconsin was 29,000. The Blaine majority may be 5,000. Garfield carried Iediana by 6,600. Mr. Blaine loses Indiana by 7,000.

The report of General Sheridan, in which he points out the inadequacy of the United States coast and harbor defenses, has attracted a great deal of attention in England. The Conservatives find in it a justification for the outery which they have made against the defenseless condition of England's seaboard, and say that it is time the English government took warning when even an isolated and peaceful country like the United States is becoming slive to the danger of invasion. The St James' Gazette treats the matter in a vein of sarcastic consolation. It flads comfort in the fact that England is not alone in her fears of foreign fees, and hopes that the "battle of Dorking," if it is ever to be fought, will be fought in Yankeeland. It proffers its sympathy to America in her expected troubles, and suggests that England and America both arrange with some enterprising contractor to remedy matters and guarantee their safety. This, it says, would simplify matters, save expense, and at the same time promote nternational amity.
