the Stable Attached to the Lamb Hotel Totally royed-Timely Discovery of a Dasardly Attempt to Burn the Fremises of William Bons.

Tuesday evening about 9 o'clock a frame stable in the rear of the Lamb hotel, Nos. 105 and 105 South Queen street, was discovered to be on fire. An alarm was at once rung and the fremen and a large crowd of citizens were score in attendance. Great excitement prevailed among those assembled, as the burning stable was close to St. Mary's burden on the opposite side of Beaver demy, on the opposite side of Beaver set, and which was so badly damaged by

fire less than a year ago. On that occasion a stable adjoining the one set on fire last night was fired and burned,

but on fire last night was fired and burned, the flames spreading to the academy. It was four the promptings with which the firemen responded, and poured water on the building, soon allayed all fears for the safety of the academy and other adjoining property, as the flames were confined entirely to the building, and the flames were confined entirely to the building in which the fire originate. The burned stable was about 75 feet in forgth by 17 in width. It contained nothing fired in the mow, in which this was stored the building is totally destroyed, but a long hote was saved. The stabiling was insured with Rife & Kaufiman in the Phoenix, of prookiym, for which will probably core. ANOTHER BUILDING FIRED.

ANOTHER BUILDING FIRED.

A short time before the fire above men A short time before the fire above men-tioned broke out, Wm. Boas, dealer in fish, oysters and groceries, No. 114 South Queen street, two doors below the Lamb hotel, smelled something like burning cloth in his premises. He took a light and went all through the house, but could discover no fire. Later smoke was discovered issuing from beneath the flooring of a second story balcony in the back part of the premises. The floorin the back part of the premises. The floor-ing was torn up and it was found that the smoke came from under the floor inside the and the discovery was made that the smoke came up through a partition from the room below. A further examination showed that the incendiary had broken into the cellar and discovery below. and placed in the joists some old clothing, saturated with coal oil. These rags had burned slowly and failed to do any serious damage before the fire was discovered. The property belongs to John Brock, and is in-sured.

sured. It is supposed the same parties fired both buildings, and that it was intended to have both burn simultaneously. Had this been the case a disastrous fire would probably have occurred, as in the rear of the building occupied by Bous there are large frame stables, and ad-jacent to these are the stables of the Fourth ward hotel, occupied by Wm. F. Rehm.

Fire Caused by a Red Hot Stove.

Between 12 and 1 o'clock this morning. Special Officer Shubrooks discovered fire in Facegley's confectionery store, at the corner of Walnut and North Queen streets. The store door was broken open by Officers Spece and Roadman and the fire extinguished with a few buckets of water. The fire origi-nated from the stove, the door of which was left closed, causing the stove and pipe to be-come red hot. The damage was trifling.

All-Day Meeting at Duke Street M. E. C. urch.

Is common with many persons in this city we have recently given the "Pearl" flour from the steelton mills a fair trial in bread, cakes, rolls and every variety of family me. It is found to the fourth of the fourt and every variety of family use. It is found to be of very superior quality and in every test of baking gives the highest satisfaction. The sale of this brand has rapidly extended of late ; me markets it has occupied almost exclusively, and nowhere does it suffer from any compe-tition in which it has been entered. A number of Lancaster grocers have the sale of it and they report universal satisfaction with it.

tired at once to her own room with a head-ache, so the oysters were ordered for only one. "How many will you have?" asked the waiter. "How many?" said the lady, at the same time thinking. "I teel as if I could eat a thousand, I am so hungry," but only ad-ded—with a manner indicating that she had lived on oysters all her life—"you may bring a hundred !" She noticed on replying that a manner indicating on replying bring a hundred 1°. She noticed on replying that a surprised expression covered the face of the servant, about which she only men-tally questioned, and took up a foreign paper while the man was leaving the room. Some time passed, the lady wondering at the delay when a knock came at the door and in walked five men bearing trays half filled with plates containing ovsters on the half shell. Lemons. containing ovsters on the half-shell, lemons, crackers, water, napkins, etc. A single glance at the first tray explained to the lady the surprise she had noticed on the face of the servant who had answered her bell ; but not a question was asked nor a word spoken. The plates, glasses, etc., were arranged on the various tables in the room, and the lady was left alone with her feast. She real was left alone with her least. She real-ized that that she had unwittingly played a joke upon herself which she determined no one in the hotel should know. Her feast ended, and she wondered how in the world she could dispose of the dozens of great oysters left there untouched. In a moment more she opened the window, and, one by one toek the oysters at the end of her fork and threw them out as far as the could in all dithrew them out as far as she could, in all di-rections, until each shell was emptied. An-other knock was heard, and answered. The waiters again entered, found the lady alone at the table, reading as before, and not a vestige of an oyster in sight. The look of surprise which not the lady as she glanced at the faces of the servants, was ample compensation in every respect for the mistake she had made. She has often told the story since, and assures her friends she can never forget nor cease to enjoy her first feast of New York cysters

A Patent Car-Starter.

On Tuesday a patent, No. 311,627, was issued to Abrus. R. Witmer, of Safe Harbor, for a car-starter. This invention is an improvement on a patent obtained by him a few years ago, in which by means of stationary clutches attached to the axle and shifting clutches fixed to a coiled spring and a shifting frame, the momentum of the car was accumulated and held to aid in starting the car or assisting to ascend a grade. The present improvement consists in dividing a sleeve surrounding the axle and about which the spring is coiled into two sections connected by interlocking arms which move back and forth between each other. One of the sleeve sections has a clutch firmly attached to it, whilst the other has one connected with it by means of a screw threaded sleeve, the play of the interlocking arms and the length of the threaded sleeve limiting the amount of strain which can be put upon the coiled spring. This ratent was obtained through Wm.R. Gerhart, solicitor of patents, of this cuy. of this city.

False Preterse and Conspiracy.

Wm. E. Kendig, charged on oath of Gotlieb Wenninger with false pretense, and who atter being arrested escaped from Constable Shaub, gave himself up yesterday and went to Alderman McGlinn's office in com-pany with Chas. E. Crawford and George L. Kendig, who are charged with conspiracy in assisting him to escape. The parties waived a hearing and entered \$300 ball, each, to an Swor at court

Assessments of Real Estate.

The county commissioners to-day heard and disposed of appeals from the following districts : First, Third and Seventh wards, city ; Sadsbury, West Lampeter, Concetoga city i Sadsbury, west Lampeter, Conestoga and Penn townships, and Marietta borough. This not being a triennial assessment, under the law there can be no change in the valua-tion of real estate, except where improve-ments have been made or destroyed. Next year the triennial assessment will be made.

The Ellis Bell Ringers.

The entertainment given Tuesday evening in the Baptist church by the Ellis family of bell ringers, was fairly attended. The musicians performed on a number of instru-ments be ides the bell, including the zither, guitar, steel burs and copophone. They sang a number of fine selections in good voice and gave several popular recitations. The audi ence was well pleased.

Wintry Winds.

Its all right for poets to sing the praises of the beautiful snow, and the merry sleighbells, and the ringing skates on the glassy ice, but they can't fill the bill with that sort of stuff when one is sitting with his feet in a tub of hot water, his head done up in finances, and with mustard plasters on both sides of his chest. What a per-son then needs is a thorough dose of Kidney. Wort, to act as a cathartic, for nothing will so quickly relieves that congestive, feverish condi-tion which comes of a hard cold. Often these colds cause billious attacks, lame backs, disordered kidneys, rheumatism, catarrh, etc. Kidney-Wort can be relied on to bring back a healthy condition. febi iwdcod Amusements.

HERGART'S OLD BRANDY In his case, he looked up with astonishment; but after hearing of his wonderful effects in the cases of some of his near acquaintances, he at hat consented to follow our advice. He used the Brandy faithfully and steadily : the first bottle giving him an appetite, and before the second was all taken he was a sound man, with a stom-ach capable of digesting anything which he choose to eat. He still keeps it and uses a little occusionally; and since he has this medicine, he has been of very little peconlary benefit to the doctor—A Practising Physician.
