#### INHUMAN CHILDREN.

An Aged Mother Le't by the Roadside to Freeze.

A case of grosserue ty perpetrated by inhuman chil iron toward an aged parent is reporman chil iren toward an ag-d parent is repor-ted from Gloucester township, near Ottawa, Ont. A short time since an aged widow named Brown, who was residing with one of her mar-ried children, was struck with paralysis. While the money lasted her daughter supported her, when her purse became empty she was car-ried to the house of another daughter. This daughter took care of her for awhile, but the son-m-law came home on Saturday evening intoxicated, and told the helpless old woman that she must go to live with another daugh-ter. He then, assisted by his wife, placed a Troyer exchange that she must go to live with another daugh-ter. He then, assisted by his wife, placed a feather bed on a sleigh, on which they laid the old woman and drove off with her. He had not proceeded many miles when he stop-ped, took the old woman out, laid her in the snow by the wayside and returned home. He told has wife angels had met him and taken her mother away from him. The daughter is said to have regarded this as a good Joke and to have laughed at it immoderately. The old woman would certainly have perished before morning had not a kind-hearted farmer's wife heard her means, and finding her lying by the readside, took her into the house and made her comfortable for the night. The old woman's sons and daughters having all refus-ing to take care of her, the authorities brought her into the eity and placed her in the Home for the Aged until leval steps can be taken against her inhuman children.
