# AGITATING AN OLD IDEA.

milar Correspondence of INTRILIGENCES.

The question of dividing the borough into
r or more wards is again agitated. A peon to this effect was presented to our rts several years ago, but through some gularities failed. It will require about irregularities failed. It will require about twenty petitioners from the ward desiring the change. That Columbia needs it is evident, and both Democrats and Republicans hall its consummation as a good thing politically for Columbia. At present the colored people of Columbia hold the balance political power and have learned to know it. The result has been that at each recurring election their importunities and "interviewing" of candidates deter good men from allowing their names to be presented for office, as they wish to avoid such annoyance. At present we vote for councilmen and school directors jointly, instead of attention. A recristricting would give the Democrats a continuous representation in both these bodies, as the Third ward is Democratic, provided that with the redistricting each ward would be allowed to elect its own representation.
