The following demurrer and answer was filed in the probatory office by W. M. Franklin and Marriot Brosius, solicitors of the Farmers' National bank:

The bill of complaint is insufficient in law, in that it does not allege that the witness whose testimony is proposed to be introduced is in feeble health, aged and infirm, or about to depart from the state, and that the plaintiff is in danger of losing his testimony before the alleged cause of action can be investigated in a court of law.

Also the said bill is in other respects insufficient, informal and insufficient. To the second paragraph of the said bill, the defendant answers and says, that he has no information that enables him to positively affirm or deny the accuracy of the said bill.
