

THE FLOOD OF 1865.

REMINISCENCES OF A TROUBLESOME TIME IN COLUMBIA.

Will the Old Condition of Affairs Be Witnessed Again? An Amusing Incident of the Memorable Delight-Enjoyable Visit to the Fatherland.

Regular Correspondence of INTELLIGENCER.

COLUMBIA, March 10.—Last evening your correspondent listened to an interesting conversation between a number of our prominent citizens. They were comparing the condition of the Susquehanna river as it now is with that of twenty years ago. At that time occurred the great ice and water flood known as the "flood of '65." So high was the water that it was nearly touched the bottom of the Columbia bridge; the canal and river were as one; the lowest tracks between Columbia and Chiquies were flooded in many places, the rails being either completely torn and washed away, or were bent and twisted so badly that when the flood receded new ones had to replace the damaged ones.

The bridges crossing the creek at Chiquies were either flooded or rendered unfit for travel. This was especially true regarding the railroad bridge at that point. The force of the ice and water was so great that the water was turned sideways. Travel over the railroads was impossible for ten days or more. Mr. Stange was the first to start a steam operator, and during the flood had his instrument standing in Paris Halldeman's yard at Chiquies.

All amusing incident is connected with this flood. A sale was being held on an island opposite Bainbridge. Scores of persons were present, and one hearing of the trials and tribulations they would endure before they would again see their families and friends. The water in the river, and the water in the river, and the water in the river, had attained so great a height that communication with the main land was not to be thought of. They were kept on the island for nearly a week, when finally they were rescued by persons from the main land.

Such was the flood of '65. What is to be the result of the flood of '85? It is certain, but its effects are in doubt. Had it occurred two weeks ago, thousands and thousands of dollars worth of property would have been destroyed. But the situation has changed. The warm sun has made its effects felt on the surface of the ice, which the muddy body of water beneath, has been gradually cutting away the ice, which has decreased in thickness 1/2 feet within the past week. If this continues at the same rate, the ice will be gone in becoming quite rotten, and even now it is unsafe to walk upon it.

Returned from the Fatherland. Six weeks ago Henry Schaeffer sailed from Baltimore to Bremen, Germany. He went direct to the home of his aged parents, or in near Westfalen, Germany, and remained with them two weeks. Fourteen days were consumed on his trip from Baltimore to Bremen, Germany, and he had more to Bremen than he had to Philadelphia. The Bremen Lloyd steamship line, he arrived in New York city ten days later. Yesterday morning he returned to Philadelphia, and at his home on South Third street, near Cherry, last evening, he entertained hosts of his friends at the Columbia hotel. He had a most delightful trip, and he returned to our correspondent, "There's no place like home."

Children in a Burning House. The roof of Thomas Donnan's house, near Perry street along the railroad was set on fire yesterday, about 4 p. m., by a spark from a passing engine. The flames were extinguished by a few buckets of water before much damage had been done. The children of Mr. Donnan were left in the while their parents were away from home, and when the fire occurred the children were in the town and they were taken to places of safety.

Notes About Town. It is evident that last evening was a gay one, so far as the happy marriages were concerned. We have heard of three large ones—Oswald McLaughlin, Daniel Retz and Mrs. Sarah Sourber—and in each and every instance proved to be thoroughly enjoyable affairs.

The congregation of the Mt. Zion A. M. church, on Friday evening, the first day of the term, determined to beautify their church. It will be repainted and papered; new carpets put down and other additions made which will add greatly to the appearance of the church. A new truck and pump will be purchased at Adams Express company's office in Columbia. It was needed.

Twenty tramps crowded our lockup last night. Many of them were on account of account of "no room." Six train jumpers were arrested yesterday, so far as they were concerned. The names of the six were: Frank Cummings, who was arrested at Chiquies; and five others, who were arrested at Chiquies.

Miss Lillie Hinton will appear in the Columbia opera house on 13, 20 and 21 inst. It has not been yet decided which of her plays are to be rendered.

A number of Columbians will attend the masquerade carnival in the York rink this evening.

Miss Hattie Miller has returned to her home in Philadelphia.

Accidents at Quarryville. Mrs. Shirk, the woman who was accidentally shot by her husband in Quarryville, on Sunday, was a trifle improved this morning. The ball had not yet been extracted.

Monday afternoon as L. T. Hensel and W. J. Hess were crossing the railroad at the water-tank in Quarryville, just as the horse's front feet touched the track he jumped, and when an engine and tender dashed past. An instant later the parties would have been killed. The horse's front feet ran for some distance before he stopped.

Let Justice Be Done. From the Doylestown Democrat. Notwithstanding the fact that a stronger hold than in the military and naval branches of the public service. Not only have officers been kept in soft places at Washington, but in the matter of promotion the junior has often overtaken the senior, because with the pot of someone in power. We repeat, we wish to see this system of injustice brought to a head stop, and give Mr. Cleveland the man to do it.
